THE FUNDAMENTAL QUESTION—TAXATION

After This Year All Taxes Will Be listed as of January First, With Three Hundred Dollars of Personal Property Exemption for Each Taxpayer—Debts May Be Deducted From Value of Farm Products—New Law Provides Means for Getting Tangible and Intangible Personal Property on Tax Books Under Reduced Rates

(By A. J. Maxwell.)

After this year the State goes to the calendar year as the official tax year. Personal property will be listed in the usual way this year, as of the first day of May, and the revaluation of personal property for 1920 will be made as of the first day of May of this year, but the listing of personal property for 1920, under the revaluation act, will be made as of the first day of January, and annually thereafter, as of the first day of January. There were many considerations to this change.

The most important was the very old trend of all business affairs the calendar year as the basis of annual accounting and reckoning. The agency has been in this direction for years, and the adoption of the calendar year by the Federal government as the basis of reports for corporations and individual income and gross profits tax reports has made the practice of using the calendar year the basis of accounting almost universal. It is the day of settlements on the one day on which every one could have the most accurate knowledge of his assets and liabilities.

By adopting this date the same system of accounting will fit both State and Federal income tax requirements. It will give more time for the listing of property and for more careful accurate making up of tax books.

Three Hundred Dollars Personal Property Exempt
At the same time the calendar year goes into effect—January 1—there is made effective the full amount of exemption authorized by the Constitution—three hundred dollars of personal property to every taxpayer. The items of personal property entitled to this exemption are: wearing apparel, arms for muster, household and kitchen furniture, the mechanical and agricultural instruments of mechanics and farmers, lices, and scientific instruments, and pianos.

What May Be Deducted from Farm Products

This change in tax listing date with the new remedial provision would encourage the early marketing of cotton, tobacco, and other farm products. This is provided for by permitting farm products held temporarily for market on January first "on consignment in warehouses, in the hands of commission merchants or agents or out of the State, or in the hands of original producers, and held temporarily for market," to be treated as real estate, and "the owner may deduct from the actual value of such property any debts owing by the owner. If the owner is not in debt tax liability will not be affected by the change in date anyway, for if property were marketed before tax day he would have its equivalent in money or other taxable property."

New Act Looks for All Personal Property to go on Tax Books
Bear in mind that none of the changes mentioned in this article apply to this year's listing of personal property, but the revaluation act applies as that through effort will be made to get all personal property

on tax lists at its actual value in 1920 as to get all real property valued at its actual value. Under the radically reduced tax rates that will apply under the revaluation in 1920 there will be no excuse left for evasion, and the same officers who will make the revaluation of real property are expected to be as thorough in their efforts to require a full disclosure of all personal property, and they are given complete authority of examination under oath, not only of the owner, but of any one having knowledge of the ownership.

The revaluation act is not aimed at any one, two or three classes of property, but seems to be ample in its provisions to secure the listing and valuation of all property of all kinds by the one honest rule of actual worth, and under a guarantee of a square deal in the matter of tax rates in return.

This article completes a brief presentation of the main features of the revaluation act. The several articles on this subject have not been intended as propaganda or preaching, but to present in the form of newspaper stories the more important provisions of this most important law.

ALL CHILDREN LOVE "SYRUP OF FIGS" FOR LIVER AND BOWELS

Give It When Feverish, Cross, Bilious, for Bad Breath or Sour Stomach

Look at the tongue, Mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhoea; full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative," they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

Unheard of Things

Never knew a lily in among the roses bright,
Get more of beauty from a coat of Chinese white,
Never knew a sunbeam from the bright celestial fold,
Add unto its lustre just by kissing common gold,
Never knew the ocean to get wetter, not a bit,
When all the flood gates opened as they do, and rained on it,
Never knew—returning from the clear Parnassian spring—
Democratic donkey that could teach their side a thing.

CALOMEL DYNAMITES A SLUGGISH LIVER

Crashes Into Sour Bile, Making You Sick and You Lose a Day's Work

Calomel salivates. It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless, vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today, you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.

Road to Happiness

Be amiable, cheerful and good natured and you are much more likely to be happy. You will find this difficult, if not impossible, however, when you are constantly troubled with constipation. Take Chamberlain's Tablets and get rid of that and it will be easy. These tablets not only move the bowels, but improve the appetite and strengthen the digestion.

Battle Scarred Tanks in Victory Loan Drive

"No road is impassable, no stunt impossible," is the slogan of the crews of the twenty real battle tanks now touring the Fifth Federal Reserve District in the interest of the Victory Liberty Loan.

These tanks, manned by crews who saw active service on the Western front, are of the six-ton whippet type, the kind that proved so efficient in battle. They are in full battle regalia, even to the camouflage coat of paint.

The turrets, from which the machine guns project, are arranged to revolve so that the guns may be quickly aimed in any direction. This feature, coupled with the great agility of the whippet tanks make them unusually effective in action.

These agile steel terriers just "trot up" sticky spring roads, so even the

red-clay areas of the Fifth District may expect to see these battle veterans.

The commander of one of the tank squadrons that saw service during the last drive before the signing of the armistice was recently telling of an instance of heroism he witnessed. The Germans were holding a position of great cost to the allies. A detachment of British tanks was sent out to take the place. It failed. Then American volunteers were called for, and twenty tanks went over. Only six came back—but they took the position.

That is the kind of stuff the American troops are made of. Let's show them that we, too, will see the job through—that "can't" is left out of our vocabulary as well as theirs. We must put this Victory Liberty Loan over—way over—to do that. America expects every man to do his duty.

SAMUEL GOMPERS STANDS BEHIND VICTORY BONDS

Samuel Gompers, for many years head of the labor movement in the United States and at present one of the leaders of the labor movement at the Peace Conference at Paris, urges labor, both organized and unorganized, to support the Victory Liberty Loan.

He says in part: "The Victory Loan is the forerunner of a happier state of society, a guarantee of peace and tranquility of the world, the hope of a better day and a brighter light. I heartily join with my fellow citizens in urging every worker and every organization of workers to take part in this splendid effort to finance our democracy's peace with the wealth and savings of all our people. Invest your savings made safe by the Victory of our arms."

DIRECTOR OF VICTORY LOAN ADVERTISING

J. THOMAS LYONS

Mr. Lyons is known to advertising men and advertisers all over the country as "Tommy Lyons." He is handling the Victory Loan appeals which are appearing throughout the Fifth Federal Reserve District. Mr. Lyons is a Baltimorean and is advertising counsel of the Baltimore Sun.

COUNTRY HOLDS THIRD OF GOLD

Tremendous Guarantee Bank of Every Bond Issued by United States to Pay Its War Bill.

Gold is the basis of all credit. The United States is now about to enter a fifth great popular campaign for the sale of government bonds to the citizens of the nation. America has conducted more than \$5,000,000,000 of such sales last November in paying war bills, and this money must be secured by the people.

Every reader of this paper knows that United States government bonds are the safest investment on earth. But many of them do not, perhaps, know just how to explain their belief.

One of the reasons why United States government bonds are the safest investment on earth is that the United States now possesses one-third of the world's gold. This has come about as a result of the war. It had large gold holdings before the fighting began in 1914, but since then the nations of the earth have been forced to get needed supplies and maintain trade relations.

The Federal Reserve banks do not hold, probably more than two-thirds of this nation's supply of gold, yet they have in their reserves more than one-half as much as the State banks of the next fourteen most wealthy nations, and abroad the State banks have collected practically every gold piece that the people possessed.

BOND OF SAVINGS STAMPS

Sing a song of Savings Stamps. The cost of living's high. But have you counted all the things These Savings Stamps will buy?

They help to take that summer trip. Or buy some funny clothes. How many things they'll help to get. Goodness only knows!

Increase your savings—not tomorrow, or next day, but NOW.
