NOTICE TO THE NEGRO TEACHERS

Asheboro, N. C., June 3, 1919.
To the Negro Public School Teachers of Randolph County:

The quarter of a million negro school children in North Carolina appeal to you for a chance to be educated. Are you qualified to answer this call? Will you be content to continue teaching without an effort to secure better training for yourself?

The State promises you next year, if you qualify, to teach a term of at least six months, and guarantees to increase your salary an average of about 25 per cent. Thus the financial returns from your teaching will be much greater than heretofore.

To aid you to better qualify yourself for increased usefulness in the schools, the State Department of Education in co-operation with your

county and others has organized several strong summer schools for negro teachers to be conducted at certain centers. These schools will continue four to six weeks. In them teachers will have an opportunity to do some real study which ought to qualify for a higher certificate and a larger salary.

The summer school for your district will be held at A. and T. College, Greensboro, N. C., and will open on June 16th, continuing for six weeks. The expenses will be comparatively small, only \$3 per week for board for six weeks, less than it will cost you to attend a county institute. There will be no institute held at Asheboro for negro teachers. They are required to attend the A. and T. summer school.

All the summer schools are under the direct supervision of the State Board of Examiners and they will grant credits on certificates to those teachers who attend the full term and do satisfactory work.

Of 3,500 negro teachers in our State more than 2,000 hold second grade certificates. Shall we be content to use second grade teachers in this important after-war period when the demand for education for all children is so great?

Let me urge that you attend the summer school indicated above or if you prefer some other, it will be satisfactory for the full term and that you do serious study in the subjects on which you need most help. We want at least 2,000 negro teachers to attend the various summer schools this year. It will be necessary for you to attend in order to get a better certificate and better pay. Let us hear from you without delay. Come to see me and I will issue you a card of admission to the summer school and this will entitle you to all the privileges of the college without cost except board.

With good wishes, we are,
T. FLETCHER BULLA,
County Superintendent.
A. T. ALLEN,
State Superintendent of Public Instruction.

"OLD NORTH STATE" SUPPORTS WAR WELFARE WORK TO LIMIT

North Carolina, as a state, has a record in the World War which will always be the occasion of great and just pride to her future generations. Every call made of the Old North State, for men, money, food, manufactured products, was promptly and generously met. The war, record of the boys in the service, and none have better, has been matched by the women and men who at all times stood solidly back of their fighting sons. Her boys were in the thick of the battle and those at home saw to it that the farms, factories, banks, business generally and efforts individually, were all lined up to win the war. Every appeal for funds was met and over. Liberty Bonds, War Savings Stamps, the Red Cross, Y. M. C. A. and other welfare agencies all received generous support from the people of North Carolina.

War is Over.
The war is won and for the most of us it is over and done with. The boys coming back from France cast off their uniform with a feeling of a job well and completely done. It is over for them. They have done all that was asked or expected of them and better. But there are a few phases of the war in which the home-folks took part, that are not as yet completed. In mind is the United War Work Campaign which was held November of last year. North Carolina pledged a total of \$1,208,000. Of this grand total there has only been paid in up to this time the amount of \$1,001,000. All of this money was pledged in entire good faith by the citizenship of the state. The war is over but only half of the boys have been sent home from France. Those that remain are impatient and restless and chafing to get back. Put yourself in a foreign country, with strange faces and languages, bound by an iron discipline and with your thoughts turning ever to HOME. How would you feel? The "welfare agencies, which co-operated in the United War Work Campaign, are at the present time doing one of the biggest pieces of work in their history.

Helping the Boys.
Large colleges with full staffs of educators are helping the boys improve their time of waiting; scores and scores of trained entertainers are traveling from one end of France to the other, dispensing cheer and sunshine and helping the boys get up their own shows; athletic events are being staged that compare with former Olympic meets; everything possible is being done at this time to make the home life for the boys who today are upholding the power of right to the Germans. The war is won and a good many of the boys who helped

win it are still in France ready for any eventuality. We owe them a debt; the money has been pledged and in paying it real true-blue patriotism will be shown.

Need For Funds.
Secretary Josephus Daniels, in approving the budgets of the War Work societies, made an urgent request to the people of the nation to pay in full their pledges. Following is a combined statement of Secretary Newton D. Baker and Secretary Josephus Daniels.

Regarding the budgets which will finance the activities of the seven organizations presented in the campaign from October 1st, last, to December 31, 1919, the secretaries declared reports from overseas confirmed the necessity of "maintaining and, in some of its aspects, augmenting this work."
"In our judgment," the statement continued, "the full sum subscribed in the campaign will be required, if these societies are to do what the American people desire to have them do in serving the soldiers and sailors and the other classes included in the original appeal.

"Moreover, there could, in our judgment, be no wiser use of such funds. The demobilization plans, so far as they have been determined, make it plain the work of the different organizations will be needed for a long time still, and, owing to conditions which necessarily characterize the period of demobilization, this practical welfare work will be even more needed than ever."

Wipe the Slate Clean.
Fifteen out of a hundred counties of the state of North Carolina have already reported every cent collected and in some cases an over-collection is reported.

The county chairmen and treasurers of the counties not paid up have worked as hard and faithfully as those in the counties which have paid the entire subscription; in some cases, perhaps, more so, but if the people of their county have not local pride and personal pride enough to pay their own subscriptions, the county campaign organizations cannot wipe the slate clean for their counties.

Surely there can be no better way of thanksgiving and appreciation that the war is won than to pay up all obligations sustained for the prosecution of the war. Every cent pledged is needed for the work of the welfare agencies. The state of North Carolina can thus make a record in the United War Work Campaign similar to those in former drives. The soldiers have finished their job and today are upholding the power of right to the Germans. The war is won and a good many of the boys who helped

Can't Puncture Nor Blow Out

DAYTON AIRLESS TIRES in the past 6 years have been used by thousands of owners of light passenger and delivery cars in all parts of the civilized world, and have conclusively demonstrated:

- 1st - they can't puncture or blow out.
 - 2nd - They ride as smoothly as pneumatic.
 - 3rd - They give much longer wear than the average pneumatic.
 - 4th - They absolutely will not injure the car.
- They have been endorsed by 50,000 or more satisfied users including the late George Westinghouse and Edward Grey, formerly Chief Engineer of the Ford Motor Company.

Piers of live, elastic rubber built about one inch apart inside the casing and vulcanized or welded to it take the place of an inner tube. Nothing can happen but wear. We have standardized on 30 x 3 and 30 x 3 1/2 and the price is right. We sell direct where we have no dealers.

We want an exclusive dealer in every county - tire experience unnecessary. Excellent chance to build up in a protected territory a very profitable business, either by itself or as a side line.
