LYNCHING

Senator John Sharp Williams, of Mississippi, is one of the ablest and brightest men of the country. He usually rings clear on all public questions, but he made a fatal mistake in the Senate when he used the language that was intended to excuse lynching. No man in this state can undertake to excuse lynching in the North or the South for any cause whatever.

HIGH PRICED MEAT

The enormous prices that are now paid for hog meat are unreasonable. The meat now sold by the packers at such high prices was obtained at from 14 to 17 cents per pound, and while it is true that the price of meat has fallen from 5 to ten cents per pound, and fat back can be obtained at something like 26 cents now, and breakfast bacon at 46 to 47 cents, still retailers have not reduced the prices as they should.

PRICES FALLING

There is a decline in the cost of living to the consumer. Evidently the price of food stuffs and the price of wearing apparel has fallen to a certain extent, still the price of wearing apparel is too high, and retailers are profiteering more on wearing apparel than any other class of profiteers. As prices are reduced labor unrest will subside to a certain extent. While wages are high they are not to be compared to profiteering, some times by wholesalers, some times by retailers, and some times by both.

SOLDIER'S INSURANCE

Many soldiers being young and headless have neglected to keep up their government insurance. Ten thousand dollars of life insurance, although at the cheap rates the government charge, is some little burden for the average man to carry, but the members of the family should use every effort to keep the insurance up until the soldier's earning capacity will enable him to shoulder the burden alone. Under the present plan, these insurance policies are what is known as term insurance, the cheapest insurance available, and every soldier has the privilege of continuing his insurance as it is now, for a period of five years, after which time it should be converted into standard policies. No heed should be taken to the cold tongues of the insurance agents who try to get you to cancel your war insurance. The thing to do is to keep it for five years, and then convert it into a standard policy, with all these advantages.

THE FUTURE OF THE FARMER

The war created an enormous demand for farm products, but as the war is over now, it is hardly hoped that war prices will be maintained permanently. The value of the ten principal farm products of December 1, 1914, was under five billion dollars in the United States, and on the same date in 1918, the actual value was nearly eleven billions. The farm value of products last year was nearly one billion more than it was the year before.

Not only this, but farming lands have soared. The average value of cultivated lands three years ago in the United States was \$58 per acre. In some places land is ten times as high as it was before the war. In Iowa land increased 60% in value in 70 of the 99 counties of the state, and in more than 50 of the counties farm land sold for more than \$300 per acre. The increase in value of farm land in six months averaged \$100 per acre.

PALMER ON DEMOCRACY

Attorney General Palmer recently made a speech in North Carolina in which he said America's success in the war was due to the achievements of the Democratic party for the four years preceding this country's entry into the great struggle.

Mr. Palmer said: "We heard much in the days just preceding our entry into the war of our 'unpreparedness.'" Mr. Palmer said, "I deny it. In the narrow, military sense, of course, we were not ready. But the war was not fought by armies, but by nations. When the time came for the nation to arm, the young men went into camps across the sea, while behind them on every side were mobilized the great supporting forces from capital, from labor, from the soil.

"These forces were ready for mobilization, '100,000,000 strong,'" he declared, "because of democratic legislation, including the income tax law, the war revenue act, the federal workmen's compensation law, National Service law

YOUR COLD EASED AFTER FIRST DOSE

"Pape's Cold Compound" then breaks up a cold in a few hours

Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all the gripe misery.

The very first dose opens your clogged up nostrils and the air passes in the head, stops nose running, relieves the headache, dullness, feverishness, sneezing, soreness, and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling! Clear your congested head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, contains no quinine—insist upon Pape's!

system and federal reserve system.

"These laws," he continued, constituted "an almost inspired stroke of preparation for war," without which, "the magnificent courage of 2,000,000 on the western front would have led to disaster."

And their enactment, he asserted, constituted a "crushing indictment" of the Republican party, "whose long lease of power brought no answer to the cries of the people for relief."

Mr. Palmer warned his colleagues, however, that the Democratic party could not base its 1920 campaign on "past political achievements."

"The people do not ask, 'What of yesterday?'" he asserted. "They ask, 'What of tomorrow?' The people's troubles are not those ills which have been cured, but those from which they may suffer under new conditions. We do not deserve to live if we cannot solve the people's troubles."

Chamberlain's Cough Remedy the Most Reliable

After many years experience in the use of it and other cough medicines, there are many who prefer Chamberlain's to any other. Mrs. A. C. Kirstein, Greenville, Ills., writes: "Chamberlain's Cough Remedy has been used in my mother's home and mine for years, and we always found it a quick cure for colds and bronchial troubles. We find it to be the most reliable cough medicine we have used."

EXCESSIVE ACIDITY is at the bottom of most digestive ills. KI-MOIDS for indigestion afford pleasing and prompt relief from the distress of acid-dyspepsia. MADE BY SCOTT & BOWNE MAKERS OF SCOTT'S EMULSION

Mrs. Smith Recommends Chamberlain's Tablets

"I have had more or less stomach trouble for eight or ten years," writes Mrs. G. H. Smith, Brewertown, N. Y. "When suffering from attacks of indigestion and heaviness after eating, one or two of Chamberlain's Tablets have always relieved me. I have also found them a pleasant laxative." These tablets tone up the stomach and enable it to perform its functions naturally. If you are troubled with indigestion, give them a trial, get well and stay well.
