ABOUT AUTO DEALERS

State Treasurer B. R. Lacy is rounding up the auto dealers who have not obtained the \$500 dealers' license.

Three cars have been leveled on by direction of the treasurer, two in Winston-Salem and one in Elizabeth City.

The sheriffs of the counties will be notified to levy on all cars sold by dealers who have not either the \$500 dealer's license or the \$5 duplicate from the office of the secretary of state.

PROFITEERS TO BE MADE PUBLIC

A great deal more has been accomplished by the public through the agitation carried on by the high cost of living than was thought possible. A list of dealers and merchants who are profiteering will be made public later unless profiteering ceases to a very great extent.

Croup

If your children are subject to croup get a bottle of Chamberlain's Cough Remedy, and when the attack comes on be careful to follow the plain printed directions. You will be surprised at the quick relief which it affords.

SMALLPOX AND VACCINATION

This seems to be the time to have something to say about smallpox and vaccination as there are so many cases in the state and there should not be a case, as smallpox thrives only among the people who are not vaccinated. As we know the cause of smallpox does not have anything to do with sanitation, as the most sanitary persons in the world will have the disease if they are not vaccinated.

The vaccination virus is obtained from the skin eruption of the cow, and is known as cow pox. There are two ways to obtain this virus, one from the scab of the cow, and the other from the calf, known as bovine virus. The bovine virus is put in glycerine and the harmful bacteria are killed.

Vaccination is the most simple operation, but it should be done in the most careful manner. Everything used in the operation should be sterilized, as it is often the case that the sore from the vaccination is very bad due to this one thing.

The immunity from smallpox seems to be from eight to ten days after the vaccination. The vaccination lasts from seven to twelve years but every one should be re-vaccinated when there is an epidemic.
