

THERE HE STANDS!

GRAND old "Bull" Durham. He belongs in this country's Hall of Fame. Can you think of a more familiar figure? For over half a century Bull has been part of the landscape; the tobacco he represents has made millions and millions of friends.

You can roll fifty-thirty cigarettes from one bag.

Our birthright:
 To drive the plowshare straight and deep beneath
 The surface to the root of things—
 To know
 That only from our labor springs that which
 To know that from our toil alone has sprung
 The world's high hopes, and, to it still, though
 Our chains of self, that need to fall, are strong—
 This is our birthright, unto which we
 Aspire, and which, given our right

The Alamance Insurance & Real Estate Co
 Patronize a Company That is Doing
 Something For Your Town

We give 6 per cent. for your savings.

You can borrow money from us to buy or build yourself a home and have good long terms on paying it back.

We will insure your property—mill, factory, home, barn, automobile, truck, horses, mules, and cows.

We have a complete line of Health and Accident Policies.

We write life insurance for a company that believes in placing the money back into the section from which it came, and consequently we are loaning money to our policy holders every day in the week.

We are building several homes in Asheboro just at this time, and you will do well to see these homes if you haven't one of your own.

Ask your neighbor about us. He knows us and our business.

Get Your Tractor Now

THOUSANDS OF FARMERS now own Titan 10-20 Tractors. Ask any of them whenever you get a chance and you will hear that they found owning a tractor operating successfully on low-priced, low-grade fuels—kerosene, distillate, etc.—is a paying investment from the very outset.

At hundreds of International tractor schools in the past few months farmers have been shown that kerosene engines must be specially designed—and that Titan 10-20 Tractors are specially designed and built to operate on kerosene, or any other crude oil distillate testing 39 degrees Baume or higher.

TITAN—THE BEST TRACTOR BUY

They are easier to handle than a farm team and easier to care for. You can get your work done on time, plow deeper, prepare better seed beds, do more work with less help, and get more profit from your farm. They do belt work that cannot be done by horses and pull more in proportion to weight than horses. Horses must have rest whether the work is crowding you or not. If necessary, you can keep your Titan working continuously, without rest, until the work is done.

Here you have economy, efficiency, dependability—three prime essentials of farm power—carrying an assurance of bigger crops, better yields, and fatter profit. Order a Titan early. Be sure of having it for the labors ahead.
