

RANDOLPH COUNTY CITIZEN WRITES ON DEMOCRACY

Pinson, May 8, 1920. Mr. Editor: The time has again rolled around when our party must choose its candidates for the various offices of Randolph county and it is the most important step of our lives to select the best and safest material that can be found in the county.

For sixteen years Randolph county made great strides in the interest of all the people. Everybody was content and happy. We were going forward in all lines of improvement and was ranking with all other progressive counties of the state, and was actually admitted by leading men of other counties that our county was doing more for the betterment of the people according to the amount of money than any other county in North Carolina.

But for some reason, which may always remain a mystery, the people got tired of progress and public improvements, and in the year of 1916 they chose to turn their back upon our rapid gait of progress and go back to the dark days of Butler, and misrule. Today we find ourselves not going upward and onward but going backward and downward, and not keeping pace with our sister counties that are jumping by leaps and bounds.

I am positive there aren't a voter in the county but what remember the pledges made by the men now in control if given the power. They went into every nook and corner in this county and abused and slandered the men that were then in control for not doing something for the people. They told the people to turn the robbers out and place us in power and we will see that the people get value received for their tax money they were dumping into the pockets of the men then in control.

A testing day is coming and the people throughout the state have an eye on Randolph, and great things are expected of us, and if we choose to go backward, and turn down our opportunity to go on and keep pace with other counties we will not be looked upon only as backward-looking people. All that are responsible for the defeat of progress and honest government in the past forget your narrow partisan view and let your shoulder to shoulder for the best interests of our county.

WITHDRAWS PRIVILEGE OF WEARING THE UNIFORM. The privilege of wearing army uniforms and use of military titles, accorded during the war to officials of charitable and social organizations has been withdrawn by the War Department. Secretary Baker, in a letter to the American Red Cross, Young Men's Christian Association, Young Women's Christian Association, National Catholic War Council, Jewish Welfare Board, Salvation Army and American Library Association, asked that use of the uniform and titles be discontinued.

FRENCH SACRIFICE FOR LIBERTY HEROIC

Six millions of French sons have offered their lives that democracy might live. 30 million other French men and women sacrificed their all for the same purpose. America's debt of gratitude to France for this is very great. We also are indebted to her for an invaluable remedy for stomach, liver and intestinal ailments discovered by her peasants, which it is reported has saved many thousands of surgical operations.

NAVY OFFERS OPPORTUNITY TO WORTHY YOUNG MEN

S. G. Copeland, navy recruiting agent permanently located in the post office building, Greensboro, reveals a few facts about the life of navy men, for the benefit of the young men and their parents who have never had the opportunity to see or learn anything about the life and opportunities of a sailor. The writer of this article has sailed the seas for a dozen years and values his experience and knowledge gained in these twelve years as priceless. The navy like most everything else has developed from a sailorman's job to a mechanical institute.

Suggestion for a Camping Trip. Buy a bottle of Chamberlain's Colic and Diarrhoea Remedy before leaving home. As a rule it cannot be obtained when on a hunting, fishing or prospecting trip. Neither can it be obtained while on board the cars or steamships and at such times and places it is most likely to be needed. The safe way is to have it with you.

In Memory Mr. S. H. Free, Deceased. It was Jesus who said, "Watch and be ye also ready for the son of man will come when ye least expect it. Again he said he will come as a wolf in the night, and just so he came for his political watchful Christian Mr. S. H. Free. But I feel sure he was ready to go. A little more than two years ago he had a stroke of paralysis. But he rallied and got so he could walk around the house by the use of a cane. But he was never well any more. He never grumbled or complained; was always cheerful. Just think what it must have meant to him after having been an active worker all his life to sit around for more than two years. He might have made himself and everyone around him miserable, but he did not. He was perfectly resigned to his affliction the father saw fit to call him to something brighter and better. On April the 20 he was cheerful and was apparently as well as usual until a few minutes before he died about eight o'clock in the evening.

CAROLINAS LEAD IN THE PURCHASING OF AUTOS. In a review of the automobile industry for the past year, North and South Carolina were shown to have the greatest gains in registration of automobiles. North Carolina led all states in the percentage of gain in registrations with 51 per cent, and South Carolina showed the second largest gain with 43 per cent. It has been found that one third of the automobile owners are farmers and the greatest percentage of increases in registration has been found in the cotton growing sections of the south.

NOTICE

Chapter 100, Public Laws 1919, Sections 5 and 6. Sec. 5. . . . Provided, that no child under the age of fourteen years shall be employed or permitted to work, in or about or in connection with any mill, factory, cannery, workshop, manufacturing establishment, laundry, bakery, mercantile establishment, office, hotel, restaurant, barber shop, boot-black stand, public stable, garage, place of amusement, brick yard, lumber yard, or any messenger or delivery service, except in cases and under regulations prescribed by the commission hereinafter created.

Sec. 6. . . . Provided, that no person under sixteen years of age shall be employed or permitted to work at night in any of the places or occupations referred to in section 5 of this act, between the hours of 9 p. m. and 6 a. m., and no person under sixteen years of age shall be employed or permitted to work in or about or in connection with any quarry or mine.

Rulings

The State Child Welfare Commission, in executive session on August 6, 1919, made the following rulings, which have the force of law: 1. No child of any age under sixteen years shall be permitted to work in any of the occupations mentioned in section 5, before 6 o'clock in the morning or after 9 o'clock at night. 2. No girl under fourteen years of age shall be permitted to work in any of the occupations mentioned in section 5. . . .

The North Carolina Child Labor Law and Rulings made under it by the Commission do not in any way affect the National Child Labor Law. The State Child Welfare Commission is operating independent of the National law, and is in no way related to any work being carried on by the Federal Agents. Compliance with the provisions of the State law would not release any employer from the Federal Tax provided for in the National Labor law.

Do Your Best. Every one should do all he can to provide for his family and in order to do this he must keep his physical system in the best condition possible. No one can reasonably hope to do much when he is half sick a good share of the time. If you are constipated, bilious or troubled with indigestion get a package of Chamberlain's Tablets and follow the plain printed directions and you will soon be feeling alright and able to do a day's work.

WOMAN'S EQUAL STATUS IN DEMOCRATIC PARTY. After the meeting of the Executive Committee of the Democratic National Committee, held in Chicago, Mrs. Kellogg Fairbank, a member of the Executive Committee, said: "This has been a signal meeting. It marks absolute political equality for women for the first time in party councils. We are here not as women, but as members of the executive committee. The men have welcomed us with full cordiality. "When the Democratic party takes women into its executive council, it demonstrates that liberalism which marks it, exclusively, as the party in which a progressive woman may speak her opinion and have it heard. In other parties women may give advice to the men who control the party, but in this party it is a fifty-fifty policy. The women not only advise. They vote and help control. I feel that the Democratic party is nearer the people. That is why, as a former progressive, I joined it."

OMELET WITH CROUTONS WILL TEMPT APPETITES

A well-made omelet or souffle is a dish that tempts most people. Try this omelet with croutons and variety. Make croutons by cutting stale bread into 1-3-inch cubes; fry in butter until crisp and well browned. Beat 5 eggs slightly, add 4 tablespoons of cream or milk, 1/2 teaspoon of salt, 1/2 teaspoon pepper, and the browned croutons. Put 2 tablespoons of butter in a hot omelet pan, and when the butter is melted and hot turn in the mixture. As it cooks prick and pick up with a fork until the whole is of a uniform, creamy consistency. Increase the heat and brown quickly underneath, then fold and turn on a hot platter; garnish with sprigs of parsley and serve.

HOW OFTEN SHOULD YOU FEED THE CHICKEN FLOCK?

Just how frequently chickens should be fed depends on whether they are confined or on the range. Some poultrymen feed their flocks twice a day, while others feed them three times a day. The best plan is to feed fowls in confinement three times a day and those having free range in summer twice a day. When there is a very long interval between feeds it is difficult to keep fowls busy which are kept in confinement. Idle fowls often contract bad habits, such as feather pulling and egg eating, besides going out of condition from lack of exercise.

In case it is not convenient to feed three times a day, the moistened mash may be fed in the morning, and at the same time the noon feed of grain may be scattered in the litter, which will keep the fowls busy a great part of the day. For those who can not conveniently feed their fowls early in the morning a good plan is to scatter grain plentifully in the litter after the birds have gone to roost. This grain will furnish feed for the early morning, say poultry specialists in the United States Department of Agriculture.

Some poultry keepers can look after their fowls only once a day. If this is in the morning, moistened mash may be fed, followed by throwing grain in the litter to furnish feed for the remainder of the day. If it is in the evening, before dark, a moistened mash may be given, and either after the fowls go to roost or in the morning, before daylight, grain may be scattered in the litter for eating during the day.
