"KNOW NORTH CAROLINA"

At a meeting of the State Press Association a resolution was adopted to the effect that different authorities along special lines be requested to prepare for publication a three-inch message, under the general head: "Know North Carolina."

It was expected that the late Governor Bickett would prepare the first of these messages, but his death prevented. The following, taken from his last message to the General Assembly, is substituted:

Bickett's Dream

"Gentlemen of the General Assembly, ladies and gentlemen: I have endeavored to visualize my dream of a fairer and finer state. I have outlined the means by which I hope to make the dream come true. And the means all reach out to a single end—a larger hope, a wider door for the average man than he has ever known.

"With a six-months school guaranteed to every child; with the forces of disease routed from their ancient strongholds; with the curse of rum lifted from every home; with our fields tilled by the men who own and therefore love them; with our harvests free from the crop lien's deadly blight; with modern conveniences and wholesome diversions within reach of every country home, our dear old state, released from her bondage to the blood-hin tyrants of Ignorance, Poverty, Disease, and Crime, will be able to realize her finest possibilities as a state and grace will ascend her rightful place in the march of

No dates are given, but it is believed that this map was made in the early 170's. An interesting feature is the location of the different Masonic lodges of the time. There appears to have been a lodge at Ashboro, Greensboro, New Hamilton, New

A WONDERFUL BLIND CHILD

Douglas Poole sends us a sketch of a little blind girl, named Willetta Huggins, of Wisconsin, who has a remarkable history.

Her disposition was far from admirable, and she made slight progress in her studies, until at about the age of 14, she became both totally deaf and blind. From this time on, through development of her powers of smelling and feeling, she has become even more of a marvel than the famous Helen Keller. As an illustration of her powers of touch and smell, she was once locked in a bank vault, which was pitch dark, and given several skeins of thread of different colors and asked to sort them out. She did this perfectly. She can tell the denomination of greenbacks merely by feeling them with her fingers, and can converse over the telephone by placing a finger over the receiver diaphragm.

No Federal Aid for Road Work

Funds are not available, it is found, for the opening of roads through the forests and government reservations in North Carolina. These roads are to come in time, but no appropriations can be made at the present, so far as the federal government is concerned. The government has recently allotted one hundred thousand dollars for a highway from Marion and extending up the Buck Creek route over the Blue Ridge at Mica, in Mitchell county.
