Million Packets Of RODSTING HOME INDUSTRIES

Pollowing the awakening which has come as a result of the Mude-in-Carolinas Exposition, held at Charlotte recently, together with the wide publicity which attended that event, the business men of this section have greeted with much satisfaction the Carolina Shopping List, published and distributed by the Observer Printing House of Charlotte.

ouse of Charlotte. The first edition of this shopping that comprises 10,000 copies and has been distributed through the Cham-bers of Commerce, merchants' associa-tions, libraries, ci-'c clubs and commercial and manufacturing organiza-tions. The reception of the first edi-tion and the readily apparent value of the publication have resulted in the decision upon the part of the publishers to issue a second edition of 30,000 copies in the near future which will be more comprehensive than the first The new shopping list enables the North Carolina consumer, retailer and jobber to purchase at home those articles which are manufactured within the two states. In its classifications, like the recent exposition, it is a revelation of the present state of develop-ment of the manufactures in the two states, and of the variety and quality

of their products.
It is invaluable to the Carolina merchants in their new determination to keep Carolina money at home for the development of Carolina industry and the increasing wealth and prosperity of Carolina people.

HENRY

Henry!

Who would the Missippi dam
And give to the other folks the "ham,
Who will do more if he can plan Something better yet for man? Henry!

PORTLAND CEMEN

A NEW industry comes to town, or an old one moves into new and better quarters. Either i, a credit to the community and to the merchant who thus gives evidence of his progress.

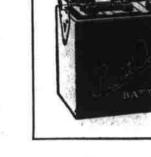

One man has played a possibly unmoticed, but rolless essential part in this community improvement—your building material dealer. His investment in a slow moving stock, building materials, is a definite pledge of his belief in the community. His stock and ability to deliver promptly enable you to take advantage of weather conditions, and much unexpectedly needed construction. Your building material dealer's judgment deservedly has weight. He is the man who has called Atlas Portland Cement "the Standard by which all other makes are measured."
