

Do you want to increase your KNOWLEDGE? Then do not fail to see the two-reel

Educational Picture

At Joyland Theatre, Saturday, April 8

Showing exactly how KELLY-SPRINGFIELD Tires are made from the time natives in foreign lands gather the gum from the rubber trees until the KELLY is a finished product ready to ship from factories in the United States.

There will be shown in addition to this a good 5 or 6 reel picture.

Every child attending Asheboro graded school Friday, April 7, will receive a free ticket good for afternoon show only.

THIS PICTURE IS SHOWN THROUGH THE COURTESY OF

Ingram's Filling Station

Agents for Kelly-Springfield Tires

ASHEBORO, N. C.

Saturday Night two Kelly Tires will be given away, one at the first show and one at the second show

Remember: Joyland Theatre---Kelly Tires---Ingram's Filling Station

First Matinee 2:00 P. M. Night 7:30 P. M.

ELEVEN JUDGES WILL BE UP FOR ELECTION THIS FALL

20 Solicitors, 10 Congressmen, Corporation Commissioner and Supreme Court Justice Are To Be Named In State-wide Primary June 3. Also All County and Legislative Officials To Be Elected This Year.

Thirty-five State senators, twenty solicitors, eleven Superior court judges, ten congressmen, and one each for the Corporation Commission and the State Supreme court are to be elected this year.

The following dates are of importance:

April 15—Meeting of county boards of elections for appointment of township registrars and judges of elections.

April 22—Expiration of time limit for filing notices by candidates for State-wide offices, and congressional seats, and payment of entrance fees.

April 27—Registration books open.

May 20—Registration books close.

May 20—Last day for county candidates and State senators to file notice of candidacy. Senatorial candidates file with the State board and county officers with their county boards.

May 24—last day for filing statement of campaign expense accounts.

June 3—State-wide primary.

Interest in the coming primary will develop local intensity, but none that is likely to reach beyond the limits of two or three judicial districts where hard fights for the nomination are expected. Only two State officers are to be nominated in June and neither of the present incumbents has any opposition for re-nomination this year.

With the possible exception of the Fourth and Ninth districts, the Congressional contests will not be contested this year. In the other districts reports reaching Raleigh indicate that the present Congressman will be returned without opposition.

Solicitor H. E. Norris is expected to make the race against Congressman Poy, and a number of candidates are reported as running for Congressman Butwick in the Ninth.

W. T. Lee, chairman of the corporation Commission, whose term expires this year, while making no formal announcement of his candidacy thus far, intends to go into the primary, and as yet no opposition has developed. Justice W. J. Adams is reported to serve in the place of the late Justice Allen, will seek confirmation of his appointment in the fall session.

Eleven Judges of the Superior court came up for election this year and but little opposition to any of them has been noticed. Judge C. H. Allen and Judge C. C. Lyon have qualified their names to enter the race and of these judges, the State board of elections will have to select the judges to be elected without notice Saturday by the President, who gave to the voters the right of the primary, with the right of the voters to elect the judges.

KNOW NORTH CAROLINA; BUY CAROLINA PRODUCTS

Students of history tell us that the collapse of Russia in 1918, a country of 136 million souls and of untold wealth, was due in a large measure to inadequate industrial development. Russia had the agricultural products, but she did not have the store-up manufactured goods to withstand a devastating war.

How much more fortunate North Carolina is! With one section devoted almost wholly to farming and another region largely engaged in turing these products into salable wares, we are organized, both agriculturally and industrially, to take care of our own needs. Practically everything that the average man uses is grown or manufactured within the borders of the state.

Yet our ability to supply manufactured goods, made in North Carolina, and on a competitive basis of quality and price with other products, is not generally known. We need to advertise Carolina goods. In furniture, cotton goods, blankets, shoes, lumber, tobacco and in many other lines, Carolina products are as good as the best. Why not use them? Certainly prosperity, like charity, must have its beginning at home.—A. W. McLean, War-Finance Corporation, Washington, D. C.

STATE'S LOW TAX LEVY

The corrected list of tax levies by counties reveals a uniformly lower levy than had been anticipated, the average levy for the entire state being a fraction under 89 cents. Considering what North Carolina is accomplishing under this low basis of taxation, the wonder is that it is not higher. There are seventy counties with a levy less than one dollar on the one hundred dollars, and only 20 with a property levy in excess of a dollar. This is one of the low tax states of the Union, and people are getting more for their money than most other states in the way of schools, roads and other public improvements.

W. M. Allen Dead

While visiting his daughter, Mrs. J. R. Brady at White Oak last week Mr. W. M. Allen, of Pugh, contracted pneumonia and died. Mr. Allen had been the caretaker of his daughter for about a week, before he died. He is a well known farmer of near Pugh and the funeral and burial services were conducted from his home church at Pugh Saturday.

He is survived by one daughter, Mrs. Brady, three sons, Frank Allen, of Charlotte, and Earl and Curren Allen, of Pugh.

Emperor Charles Dead

The former emperor of Austria and King of Hungary, died last Saturday at Pugh, North Carolina, after an attack of pneumonia. His wife and other sons were at his bedside at the time of his death.

It is probable that the body will be sent to Europe for burial.

TUBERCULAR SPECIALIST IN DAVIDSON THIS WEEK

Dr. J. L. Spruill, State Clinician, who is a specialist in diseases of the chest, and tuberculosis, will fill numerous appointments in Davidson county this week. On Tuesday, April 4th, he will be at Lexington, on Wednesday he will go to Denton; from there to Churchland on Friday. During the next week he will visit Thomasville, Southmont and Wallburg. Aside from the free examinations the doctor will also give a lecture at each town. Such a thing as this will be of untold value to the health of Davidson county and an urgent appeal appeared in last week's Davidson Dispatch insisting that the people of the county take advantage of this opportunity and tell their neighbors of it. The county health officer, Dr. Perry, has arranged for this clinic and he also makes an appeal to the people of the county to come to the clinics.

Miss Parrish Hostess

The members of the Friday afternoon Club and several other guests were entertained in a most delightful manner by Miss Mabel Parrish at her home on South Fayetteville Street. The Club program for the afternoon was particularly interesting. Mrs. J. T. Lewallen read a sketch of the life and work of Mary Wilkins Freeman, and Mrs. I. C. Mosser read two of her short stories. After the program, the ladies served chicken, salad, potato chips, stuffed celery, pickles, hot rolls and cold tea.

Prohibition Officers Indicted

W. C. McConnell, former prohibition director of Pennsylvania, and 46 others, were indicted last week by a Philadelphia federal grand jury for conspiring to defraud the United States in the fraudulent issuance of permits to withdraw liquor from bond. Bench warrants were issued by Federal Judge Thompson for all those indicted.

McConnell is prominent in Pennsylvania Republican politics and a former state senator. He was appointed prohibition director upon the re-nomination of the late Senator Pearmar. After his resignation he located in Florida where he lived at the present time.

An interesting meeting was held at the Y. M. C. A. in Charlotte Saturday evening when Dr. W. C. Coker, former professor of botany at the University of North Carolina, gave an illustrated address on "Planting and Planting for Speedy Growth and Production." Dr. Coker gave advice as to the kind of soil and fertilizer to plant various crops and how to care for them.
