## Suggests Ticket.

I want to say to the Democratic voters of Randolph county when they get together on the 13th of May to get a set of men for the different state and county offices that have brains and honor, men who will work for and serve the people and not waste the county money as it is being done at this time. Now let me name the men who I am satisfied can and will do this:

For the legislature, Mr. I. C. Moser; for clerk superior court, Mr. W. M. Hanner, of Liberty; for sheriff, Mr. L. M. Cranford, of New Hope; for county commissioners, D. B. McCrary, of Asheboro; Hugh Parks, of Franklinville, and Troy Redding, of Randleman route 3.

If we will get this set of men on our ticket we will put the whole gang of Republicans out of a job for years to come; and, furthermore, we must not forget to vote for our Congressman, W. C. Hammer and Mr. Zeb V. Long for solicitor.

## New Bid for Muscle Shoals

The Aluminum Wheel Company, of Elizabeth, N. J., will submit an offer this week for the Muscle Shoals property in Alabama, which for several months Henry Ford has been trying to acquire. The company, named, after visiting Norfolk, to confer with fertilizer interests, and ascertain other Southern cities to collect data, will lay its proposition before the Secretary of War. The plan of this company calls for a corporation controlled by the government, the latter to hold a mortgage on the property. Later a second mortgage might be arranged against which money resulting from the sale of the property would be used in the development of the plant, including the hydro-electric units, and nitrate plants. In that way the work of development might proceed without imposing any additional burden on the federal treasury and at the same time giving an immediate return of the money it has already sunk in the various enterprises.

A provision guaranteeing the return of the projects to the government for use in time of emergency is to be included in the company's offer.
