Fordson Often Does More In a Day Than Six Horses
The Fordson substitutes motors for muscles.
The Fordson substitutes tractor wheels for the legs of man and horse.
The Fordson takes the burden off flesh and blood and puts it on steel.
It allows the farmer's energy to be devoted to management, and not merely to operation. It gives him time. It cuts his producing costs.
There's a big story of savings made possible by the Fordson. Let us tell you. Write, phone or call.

ATLAS PORTLAND CEMENT
PROBABLY the first place you ever noticed concrete was in concrete sidewalks. This was only about twenty-five years ago. Today hardly any other kind is built.
Concrete has proved its economy, its suitability, its permanence. Even though most of those first walks were built before concrete construction was properly understood, some of them are still giving good service.
Today your dealer is able to give you the same cement that has stood the test of over twenty-five years' use on all types of work. For more than a quarter century Atlas Portland Cement has been the standard by which all other makes are measured.
