A Warning to Tobacco Growers.

All kinds of frauds are going around over the country nowadays making money from unsuspecting people. Various papers of the state are making public the fact that "tobacco embezzlers" are cheating the farmers. The "embezzler" as he is termed drives up to the planter's house, informing him that he represents some big tobacco house, and that he failed to find a certain grade of tobacco on the nearest market and decided to buy it direct from the planter.

For D. A. McDonald.

To the Democratic voters of Randolph county, relative to the candidacy of D. A. McDonald for a seat in the senate of North Carolina of the next legislature, 1923. D. A. McDonald is a life-long Democrat, of faithful services to the party, sincere devotion to Democratic principles and untiring efforts in behalf of Democratic candidates for the past fifty years.

D. A. McDonald belongs to no combination. He is controlled by no ring and while he has rendered invaluable services to the party, claims no mortgage upon it and will make no unseemingly scramble for the seat, but his friends feel and know his elements of fitness, appeal to the democracy of this county. Vote for him on the seventh of November and we will have a moving ticket.

D. A. McDonald served as clerk of the superior court of Moore county for 22 years and has been a member of the legislature in the senate and house three times. I have known him for 40 years and always found him to be a perfect Christian gentleman.

Many Millions Lost Annually By Check Raising

It has been reliably estimated that from thirty to fifty millions of dollars are being stolen annually from bank depositors who do not protect their checks.

It may never have happened to you—yet your next check may be raised.

It is next to impossible to write a check that is safe, unless protected by a modern device.

Remember—that in these days, every class of crime is constantly increasing and an unprotected check is a dangerous asset.

No matter to whom you give your check it is not safe for it may be transferred to another party or stolen from the mail or get into the hands of a dishonest employee, who by using a few drops of acid or by clever pen changing can make over your check so that you would scarcely know it.

Do you know that your signature represents every dollar that you are worth? Is it not worth a few dollars of your money to protect it?

Don't put this matter off another day—but write for interesting literature on check protection. It does not obligate you at all. A post card will do.

We can supply you with any standard make of check writer or projecting device for half price or less.
