

WHAT SHALL I REMEMBER?

I cannot think—when Death has come... I shall I know what things they be... I remember faces—dear... I recall the look of Spring... I forget the thrill of dawn... I wonder what dead hearts may keep...

Republican Creeps-Hangers and Prosperity

Why are the Republicans scared at the present revival of business, is the question often asked here... The industrial situation are likewise convinced that the revival of business should be many times greater than it is...

One Reason Why Some People Play Out Quick

Some men in public life who call themselves leaders in politics try to fool the people by misrepresentations... The Republican administration is afraid that this "resuscitation" is only temporary...

Have you ever wished you could carry TWO tanks of gasoline on your car? —one for starting and pick-up —one for power and mileage

SOMETIMES the man who is proud of the power he gets on the hill is the very man to wear out his battery trying to turn over in the morning! Not if he carries "Standard", the complete gasoline.

Why are gasolines different? Because this motor-fuel we call gasoline is not so simple as it seems. Even the smallest drop contains starting-fuel, pickup-fuel, power-fuel and mileage-fuel, in some proportion or other.

And remember: it is this proportion that makes a gasoline good or poor. And it is in this detail that "Standard", the Balanced Gasoline, excels. By scientifically balancing the various constituents of every drop, flame generation and full, clean burning is assured.

STANDARD OIL COMPANY (NEW JERSEY) BETTER STICK TO

"STANDARD" The Balanced Gasoline!
