What is "STANDARD"?

—that by which others are compared

It is as true of "Standard" Motor Gasoline as it is of the Government yardstick and Troy pound. "It is as good as Standard," says the dealer who does not know where his gasoline comes from. And maybe it is—but you can safely stick to the original. A distillation test will reveal the uniform high quality which has established "Standard" as the all-round pacemaker in quick starting, smooth acceleration and big, economical mileage. "Standard" specifications mean that uniform satisfaction can be bought at thousands of Standard pumps.
