ENFORCING OUR DRY LAWS

Some Foreigners Don't Like Them—Lloyd George Says America Has Right to Seize Liquor

Thousands of gallons of intoxicating liquors are being seized and confiscated by government agents in New York harbor. Foreign lines who come from "wet" countries bring with them supplies of drink for the return voyages only to lose these drinks to United States officers, who are trying to enforce our prohibition laws.

Many newspapers and individuals in England are saying that American authorities lack the right to seize British liquor stores aboard ships. However, Lloyd George, addressing a large crowd in the Welsh Baptist church, in London, declared that, in his opinion, America has a right to seize liquor on foreign vessels. He further declared that this country is making an "experiment to deal with probably the greatest curse of modern civilization", and that it is in the interest of civilization that our prohibition laws be given a fair test.

Don't forget to save some of that best grain for seed. There is always a scarcity of native grown pure bred, selected rye, oats and wheat seed in the fall.

DON'T BURN MY HOUSE TO ROAST YOUR EGGS

I came shortly after creation. I came with civilization's dawn and will be here until time is no more. I am ubiquitous, and the whole world is my territory—I am working all the time—night and day—I never rest—I am perpetual. Folks say my trade debauches good names and causes justice to tremble. Others say that I am more poisonous than the viper and the deadliest foe of society. I am the poisoned shaft of falsehood. My nefarious art has caused men and woman to be thrown from decent society and left friendless. Yet with all these slams I go on and find sufficient subjects upon which to prey. Some of my followers forsake me, but I cannot be discouraged—others fall in to take their places among my ranks. I am most pleased when I hear the evils of my neighbors and then I herald it to the world with my swift messengers—the tongues. I do what is necessary to kill a good name. This is my sole mission here. Shun me and you have the good will of all—follow me and I'll disgrace you. I am the handiwork of the devil himself.

I AM GOSSIP. I AM SCANDAL. Moral: Let him who is without sin, cast the first stone.

"What are others faults to me? I have follies of my own, every flaw I see And make them wider still? It is enough for me to know, I have follies of my own, And on my heart that care bestow, And let my friends alone." "He who steals my purse, steals trash. 'Tis something, 'tis nothing, 'Twas mine, 'tis his, And has been a slave to a thousand masters. But he who filches of me my good name Robs me of that which does not enrich him, And causes me to be poor indeed." Muncie.

Balanced Propellers Speed the Leviathan Balanced Gasoline speeds your car

PERFECT balance means power and flexibility to a ship—lack of it, vibration and waste. Big balanced screws drove the Leviathan to a new long-distance record. "Standard", the Balanced Gasoline, will not only drive your car to new mileage records but give it a smoothness and flexibility that only a balanced fuel can furnish.

"Standard" starts with the spark, sweeps along fast on the pick-up, pours out power on the hills and has the staying qualities for long runs at full speed and low mileage cost. It throttles down to a standstill and burns clean whether your car is idling, tearing along wide open or running fast-and-slow in traffic.

A perfect motor fuel, must be balanced to have all these qualities. "Standard" is correctly balanced—the result of years of painstaking research and the utmost skill in manufacturing. Down town or 'cross country you can safely stick to "Standard".
