Grade 8.—Essie Brown, Ometa Brown.

Grade 9.—Beulah Arnold, Clara Birkhead, Myrtle Lindsay, Arfie Hill, Alford Maness.

Grade 10.—Lydia Arnold, Effie Hill, Alvesta Sprinks, Roy Hedrick.

"The ultimate factor in the solution of most of life's great problem is leadership. The real leader is the man who can get the community, the township, the county or the state to pull together and accomplish something worth while."—Dean J. H. Skinner, Purdue School of Agriculture.

NOTICE

Notice is hereby given that the undersigned on the 7th day of May, 1923, purchased at a tax sale conducted by J. A. Brady, Ex-Sheriff and tax collector for Randolph county, at the court house door, Asheboro, N. C. the following described real estate in said county and State of North Carolina one-fifth interest in 12 acres of land in Back creek township, Randolph county, known as the Flora Erickhouse land, adjoining the lands of J. J. Miller, R. E. Pierce, Clarence Williams, et al, listed in the name of Flora Erickhouse estate. Taxes for which said sale was made for the year 1922.

Time for redemption of the aforesaid real estate will expire the 7th day of May, 1924, and in default of redemption the undersigned will demand a deed as provided by law immediately after expiration of said time allowed for redemption as aforesaid.

The amount of cost and tax for the said land was sold is \$2.89, the purchase bid being \$3.50.

R. R. PIERCE, Purchaser, at pd 1-3-24. Caraway, Rt. 1, N. C.

GO RIGHT AT IT

Friends and Neighbors in Asheboro Will Show You a Way.

Get at the root of the trouble.

Rubbing an aching back may relieve it.

But won't cure it if the kidneys are weak.

You must reach the root of it—the kidneys.

Doan's Pills go right at it; Reach the cause; attack the pain.

Are recommended by many Asheboro people. Ask your neighbor.

G. T. Macon, Cox Street, Asheboro, says: "My kidneys were all out of fix. They acted too often at times and then again, not often enough. I suffered a great deal from backache and couldn't sleep at night on this account. When I first got up in the morning, my back was lame, I could scarcely bend. I had frequent dizzy spells also. I used Doan's Pills, getting them from the Standard Drug Co., and they were just what I needed. I was soon feeling better. The backaches left and my kidneys were regulated."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mr. Macon had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

USE THE HOTBED AND HAVE AN EARLY GARDEN

Raleigh, N. C., Jan. 3.—The climate of North Carolina makes it possible to have an all-year garden in most sections of the state. To secure the most satisfactory results, however, free use must be made of hotbeds and coldframes," says Robert Schmidt, assistant Horticulturist for the State College and Department of Agriculture.

"January is the month for preparing hotbeds. They should be located in a sheltered place with a southern exposure where they will be protected from north and west winds, and will receive the maximum amount of sunlight. The frames should be handy to both the house and garden so that they can be given constant attention. The soil in and about the frames should be well drained.

"A hot bed 6 feet by 6 feet in size will be large enough for the average garden and can be constructed rather cheaply. Standard glass hotbed sash are 3 feet and can be bought or made at home.

"Fresh stable manure will furnish sufficient heat. The manure should be turned two or three times before placing in the bed in order to make it uniform in composition and mechanical condition. An excavation about 18 inches deep is made for the bed and about 15 inches of fresh manure placed in it and well packed. Then a wooden frame is built over the manure about twelve or fourteen inches high on the north side with the south side about four inches lower to give sufficient slope to the sash. Four or five inches of good garden loam is placed on top of the manure and the frame is covered with the glass sash or sometimes with heavy canvass or muslin. The manure will heat rapidly for the first few days and the beds must be ventilated frequently. The seeds must not be planted until the temperature has gone down to 80 or 85 degrees F. After planting close attention should be given to the watering and ventilation of the bed. Moisture is necessary for germination and growth but an excess of moisture must be avoided as it is apt to cause damping-off.

"The cold frame is constructed in much the same way except that no manure is used for heating purposes. It is used to harden off plants grown in hot beds and also to grow certain cool season crops to maturity when some protection is needed on cold nights. Heavy muslin or canvass is commonly used as a cover for cold frames."

The three essentials in beautifying the homestead are clean up the grounds, plant trees, shrubbery and flowers and maintain the plantings from year to year, say horticultural workers of the State College and Department of Agriculture.

TRIBUTE TO SMALL-TOWN PAPER

Raleigh, N. C., Jan. 1.—Speaking recently at a Washington State Utility Conference, Charles E. Blackwell, a successful country merchant located at Okanogan, paid a high tribute to the small-town paper as an advertising medium. He said:

"There are many lines of publicity that the country store can use to advantage, but the one he can use to best advantage in his home-town paper. I venture to say that if the money spent each year for fancy calendars and other knock-knack giveaways were invested—in carefully planned newspaper publicity, the actual net returns to the advertiser would be ten times as great, to say nothing of the advantage the small-town paper would derive from the additional and much needed revenue."

MANY WOMEN USE GYCERINE MIXTURE

Women appreciate the quick action of simple glycerine, buckthorn bark, etc., as mixed in Adlerika. Most medicines act only on lower bowel but Adlerika acts on BOTH upper and lower bowel, and removes all gasses and poisons. Excellent for obstinate constipation and to guard against appendicitis. Helps any case of gas on stomach in TEN minutes. Standard Drug Company.

NOTICE

To the Public: This is to serve notice that the undersigned has made application to the Governor of North Carolina for a pardon for the term on the county roads for abandonment and non-support of the wife of the undersigned, which was imposed by the Superior Court of Randolph County, North Carolina, at the September Term, 1923, and that the application will press or action on the same between the 15th day of January, and the 1st day of February, 1924.

This the 26th day of December, 1923. T. C. KIVETT, Petitioner.

BROKE HIS VOW

"After trying all remedies and doctors for stomach trouble for eight long years I decided I couldn't be helped and swore I would never take another dose of any kind of medicine, but when I saw what Mayr's Wonderful Remedy did for a friend, who also suffered from bloating as I did, I concluded to try it myself. It helped me at once." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by Standard Drug Company and druggist everywhere.

MAJOR GRAHAM DIES ON CHRISTMAS EVE

Raleigh, N. C., Jan. 1.—A sorrowful throng of state official workers, friends and relatives paused in their celebration of the holiday season and passed in reverence about the bier of Major W. A. Graham, Commissioner of Agriculture, as his body lay in state in his great monument the new Agricultural Building on Christmas day. For fifteen years, Major Graham had served the agricultural interests of this state and during that time had seen it grow to one of the greatest agricultural sections of the world. Just before day on Christmas Eve, he finished his work on earth, dying in harness as he had wished, and joined his illustrious ancestors awaiting beyond the grave.

All of those who worked with him in the Department of Agriculture will miss him sorely. It is true that he has been somewhat feeble during the past few years, because, had he lived until December 26, he would have been 84 years of age; but, he still had a remarkable grasp of the work being done by the Department and his kindly smile and gentle ways endeared him to those associated with him. His one outstanding trait was his love for North Carolina and his devotion for her farming progress. Because of this he helped to make North Carolina the great State that she is.

Major Graham was born at Hillsboro on December 26, 1839. Following his school days and his graduation from Princeton in 1860, he entered the Confederate army as Captain of Co. K, 2nd N. C. Calvary and was later promoted to the rank of Major. From 1874 to 1875 and from 1878 to 1879 he served as State Senator and in 1895 he was Representative from his county in the State Legislature. During the years intervening he farmed successfully and took an active interest in the political life of his State. From 1899 to 1908 he was a member of the State Board of Agriculture and in 1908 he was elected to the office he held at the time of his death. He had been regularly re-elected in 1912, 1916, and 1920.

Card of Thanks.

We desire to thank our friends and neighbors for kindnesses shown during the illness and death of our aunt, Mrs. Martha Jane Lowdermilk. Mr. and Mrs. Randolph Burns and children, Cedar Falls, N. C.

NOTICE

The annual meeting of the Farmer's Mutual Fire Insurance Association of Randolph county is called to meet January the 7th, 1924, at the court house in Asheboro at 11 o'clock A. M. A full attendance of the policy holders is desired. S. S. COX, President. C. E. ALLEN, Secretary. 2t 12-27-23.

RAMSEUR NEWS

Christmas is over! Hurrah for New Year!

The holidays were not so exciting at Ramseur but we all had a good time giving and receiving gifts, seeing the children enjoy their toys, eating turkey and all the "trimmings", meeting our good friends and the rest of it. Will not try to enumerate all the visitors, for they all didn't come to see me, for which let us be thankful. The College boys and girls from the several schools were with us and we were brightened by their presence and we bid them God speed as they go back to their work of preparation for life.

The several businesses of the town have been "taking stock" (Oh what a job!) the past week and taking a new start to make 1924 a "Hum Dinger". We hope that the wheels of industry will hum the year round and we will enjoy "peace and prosperity" for 365 days of the brim.

Mrs. E. M. Grady and daughter, Elizabeth, of Orangeburg, S. C., were visitors at Ramseur Christmas week, motoring through Sunday, December 23rd. Mrs. Grady is the daughter of Mr. and Mrs. M. C. Free and was one time a resident of Ramseur.

Mr. Preston H. Vestal, of Pittsburg, Pa., who is spending the winter at Aberdeen spent the holidays with V. C. and W. E. Marley.

Dr. C. A. Graham and family spent a few days recently with relatives at Ramseur.

Rev. W. A. Elam preached at the Ramseur Baptist church Sunday morning and Rev. W. L. Scott at the M. E. church Sunday evening.

The graded school opened here Wednesday morning this week. Principal Marsh hopes to make the last half of this term the best in every respect that Ramseur has ever seen and we are with him to the last ditch. Go to it boys and girls and let us see what kind of stuff you are made of. Dr. Jas. Rivenbarke, of Georgia, was a visitor at E. B. Leonard's last week.

Mrs. M. E. Johnson entertained a number of the young folks at a six o'clock dinner at her home on Raleigh street Friday evening, December 28.

A number of young people were delightfully entertained at the home of Miss Page Leonard Friday night, December 28.
