THROUGH WORK How an Asheboro Citizen Found Freedom From Kidney Troubles. If you suffer from backache—From urinary disorders—Any curable disease of the kidneys, Use a tested kidney remedy. Doan's Pills have been tested by thousands. Ask your neighbor! Can you ask more convincing proof of merit? Mrs. D. C. Bulla, Cox St., Asheboro, says: "About a year ago I began to suffer with kidney complaint. The action of my kidneys was varied and irregular. There was also a steady, dull ache across the small of my back that grew worse when I was on my feet a great deal and I would often have to stop and rest. I used Doan's Pills, getting them from the Standard Drug Co., and they helped me right along. Two or three boxes cured me and I haven't been troubled by my back or kidneys since." Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Brown had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. Ashton Harvey, a millionaire manufacturer, and devoted friend of John H. Roshaford, died at Ormond Beach, Florida, January 8th, while playing golf with Mr. Roshaford.

Card of Thanks I have been afflicted with rheumatism for nearly four years and I want to thank the good people of Pleasant Garden, Ramseur, Whites Chapel and surrounding community for their many nice gifts and deeds of kindness. May the Lord bless them every one. Yours truly, NANNIE E. CROSS.

FINANCING THE FARMER During the last seven years remarkable progress has been made in providing farmers with the types of credit institutions needed in carrying on the business of agriculture. For many decades the farmer was forced to get his inadequate credit from banks which were designed to serve commercial needs. The farmer was forced to pay high interest rates when he borrowed from commercial banks which were not designed to accommodate his credit needs. Farmers and their organizations were constantly criticizing our banking system because they could not borrow sufficient funds at legal interest rates. Finally it became evident that new types of banks had to be created in order to give the farmer the longer term credit his business demanded. Adequate machinery for practically every credit need of the farmer has been devised. The machinery is new and will need adjusting, but the main problem is acquainting the farmer with the banking facilities that have been designed for his use, and getting him to use them.—University News Letter.

SOUTHERN RAILWAY SYSTEM For the future of the South BECAUSE of the remarkable development of its natural resources, the South today is taking a new leadership in the economic progress of the nation. But this leadership, if it is to be maintained, must have a more enduring foundation than the possession and exploitation of material things. The South of tomorrow will be made by the children of today. The boys now in school and attending the churches will be the captains of industry and the leaders in the professions a few years hence. Citizenship is in the making in the schools and the churches. A great responsibility rests upon the shoulders of the teachers of the South—in the pulpit and in the glass-room. But the compensation accorded the great majority of them is inadequate. The Southern Railway System, which pays three million dollars per annum in school taxes, voices not only its own best interest but the ambition of its 60,000 employees in respect to the future of their children and their section, when it expresses the view that greater rewards should be offered the men and women who are building Southern citizenship of tomorrow. The SOUTHERN SERVES THE SOUTH
