

LINE PART OF FARM EACH YEAR

Agriculture leaders in North Carolina now believe that part of the farm should be limed each year. This belief is based not only on the good results given by the lime but also because it forces the landowner following this practice to adopt a rotation of crops.

MUMMY OF KING TUT FOUND

The greatest discovery in the history of Egyptology, even as many claim, in archeology, was made in the plainly adorned sepulchral chamber of Tut-Ankh-Amen in the Valley of Kings.

The mummy case is perfectly intact. It is described as one of the most wonderful things of its kind that ever has been found. The Pharaoh is represented in high relief, covered with sheets of solid gold, more than twice life-size, his serene and beautiful face exquisitely incised, with glittering eyes of aragonite and a long up-curved beard of solid gold.

The flail and scepter which the king grasps in his crossed hands is of gilded wood, more than three feet long. From the waist down the broad wings of protective goddesses meet across the knees to shield the Pharaoh from dangers.

When the lid was raised the mummy case was found to be covered with three thicknesses of linen, browned with age. This linen when rolled up disclosed to the bewildered eyes of the excavators, as one of those present told a correspondent of the Associated Press, "a gleaming, golden man."

The mummy case stands in a coffin in what seems to be a wooden sleigh on which doubtless priests dragged it to the valley of the kings.

THE AFFAIR AT HERRIN, ILL.

S. Glenn Young, who is well known in this county having been one of the leaders of the federal forces here against draft evaders and moonshiners during the war, is again making himself prominent in Herrin, Ill., against violators of the prohibition law. Young is an acknowledged paid officer of the K. K. K. and has made it no secret for the bootleggers and moonshiners of Williamson county, Ill., that a new organization called the Knights of the Flaming Circle has recently been organized to fight Young and his deputies.

At 2:30 last Saturday night the city of Herrin was in control of members of the K. K. K. who patrolled the streets with guns and revolvers and allowed no one to leave or enter the city who was not a member of the K. K. K. The city hall was established as their headquarters and the cause of the disturbance is due to the fact that several members of the Herrin police force had been spirited out of the city by the sheriff's officers.

Sanitation in the hog lot means that the pigs are more thrifty and healthier, say extension workers of the State College.

Young who is acting as chief of police of Herrin declares that the police officers who were arrested by officers of the sheriff, had been kidnapped by members of the sheriff's force. The sheriff claims that he spirited the policemen away from Herrin for their own safety after they had charged a meeting of the new organization called the Flaming Circle, an anti-klan organization. When the sheriff was returning to Herrin after hiding the police officers in a secluded building near Belleville, Ill., he was arrested in Carbondale by Chief of Police Adams. He was taken to Herrin by a special force of officers. Young and his special force of 50 members of the K. K. K. found out that the three police officers who had been taken away from Herrin were located near Belleville, Ill., and after an all night search found the officers and brought them back to Herrin. Feeling has been running very high for several days but from recent reports from Illinois, the State troops are keeping down trouble in so far as actual fighting is concerned, but the situation in general is very acute. Mr. Young and his followers have been the cause of thousands of arrests of violators of the prohibition law within the past few weeks.

NOW HIS "DAY IS OVER"

(By Miss Henrietta Underwood, 10th grade pupil in Asheboro High School.)

The Rev. Sabine Baring Gould was born at Exeter, England, on January 28, 1834. He was heir to the manor of Lea Freuchard, of which his ancestors had been lords for centuries. He spent much time abroad, where he studied French and German life and literature, about which he has written a great deal.

In 1864 he took Holy Orders and served under Rev. John Sherwin. He secured a cottage at Horbury Bridge, where he conducted a night school on week days and religious services on Sundays. These meetings were attended by large crowds. The following year he opened a mission chapel, with miners and mill workers for congregations. He married a Horbury mill hand, after educating her at York.

His career as a writer was begun at the age of twenty, while he was still a student at Cambridge, and continued until 1923, when he published his last book, "A Demon Churchman". He was recognized as one of the best authors of his day published many volumes of travel, fiction, folklore, mythology, religion, and history.

Rev. Baring Gould, however, is best known for his hymns, perhaps the most popular being "Onward Christian Soldiers" which will be sung as long as there is Christian service. This hymn was hurriedly improvised as a morning song for a band of school children. "The beautiful hymn, "Now the Day is Over," was composed by him for the group of miners and mill workers which attended the "mission chapel."

Now his "day is over," for this wonderful, scientific, writer, poet, died on January 3, 1924.

"I am not strong in arithmetic," said the cow, "but I can add to the bank account of the man who owns me. I can subtract from the principal of his savings, I can multiply his share in the market. I can divide his interest in the bank. I can give more interest to himself. I can give more interest to him."

HOUSE AND BARN BURNED NEAR ELDORADO

News came to Asheboro Monday of the burning of a house and barn four miles south of Eldorado. The property that was burned was in charge of J. C. Elliott, Administrator. The fire was discovered about mid-night Sunday night and this being a rural community with no fire facilities, the house and barn were both completely destroyed. The fire was in the middle of the house and the middle of the barn at the same time. This aroused suspicion, and blood hounds from Asheboro were called for. The dogs trailed to a pond near Badin, and it is thought perhaps the person, or persons will be apprehended soon. The community feel that the buildings must have been set on fire from the nature of the origin of the fire.

BURIED AT UNION GROVE

The funeral and burial services for Mrs. D. H. Hancock, of High Point, occurred at Union Grove church, near Seagrave, Tuesday at 2:30 P. M. Mrs. Hancock's death resulted from a brief case of pneumonia at her home in High Point.

The deceased, before her marriage, was Miss Ellie Leland Parks, daughter of Mr. and Mrs. Abraham Parks, and was born in Randolph county May 14, 1889, she being 34 years of age. She was a woman with a lovable disposition and high Christian character and had many friends who will learn of her death with keen regret. She had been a member of the First Baptist church of High Point for fourteen years.

She is survived by her parents, husband and five children from 19 years to three years old.

HE WON THE BET

"I was skeptical of all medicine and doctors. A friend advised me to take Mayr's Wonderful Remedy and assured me it had cured him of his stomach trouble. I didn't take any stock in it and he bet me \$50 that it would be equally successful in my case. He won the bet." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

Average Man's Dollar New Worth 64.1 Per Cent Post-War Value

What the average man's dollar was worth, expressed in terms of purchasing power of ordinary necessities of life, stood on January 25, 1924, at 64.1 per cent of its pre-war value, according to the latest computation of Professor Irving Fisher, noted economist. This was two-tenths of 1 per cent less than on January 1, 1923, and 4.8 per cent less than on January 1, 1922.

Professor Fisher calculated the dollar's value in prices of 200 separate commodities for the week ended January 25, 1924. These commodities increased in price by three-tenths of 1 per cent, and stood at 161 compared with the pre-war level.

Four communities of Mitchell county have organized to grow one car each of early Irish potatoes. They will buy fertilizers cooperatively, plant, harvest, and ship at same time. Six other communities are now organizing on this basis and two others will produce certified Irish potato seed for eastern growers next year, reports County Agent E. D. Bowditch.

Practical Nurse Tells. Mrs. N. E. Snow, of Route 1, near Paris, Tenn., tells the story of her experience as follows: "I am 62 years old and I have been a practical nurse for more than 20 years, taking mostly maternity cases. One of my daughters suffered from cramping at... She would just bend double and have to go to bed. CARDUI The Woman's Tonic was recommended to her and she only had to take about two bottles, when she hardly knew that it was... she suffered so little pain. "My youngest daughter was run-down, weak and nervous, and looked like she didn't have a bit of blood left—just a walking skeleton, no appetite and tired all the time. I gave her two bottles of Cardui. It built her up and she began eating and soon gained in weight and has been so well since." Cardui, the Woman's Tonic, has helped suffering women for over forty years. Try it. At all druggists. B-100

Don't Lose Sight of the Food Value of Your Baking. Plain flour has a large amount of food value but it must be combined with good baking powder in order to retain this value. Most self rising flours are not successful because they do not raise the bakings to the proper lightness. This means a certain loss of nutrition because they are heavy and hard to digest. Every time you eat food that does not properly digest you do not get the full nutritional value—you are over-taxing your stomach. Nourishing and perfect bakings are what good health demands. The one sure way is—use pure flour and good baking powder. If you want to find what thousands of housewives have learned—make some biscuits with self-rising flour—then make some with good plain flour and Calumet Baking Powder—notice the great difference. One trial will satisfy you. Your health depends that you make the experiment. Those who know—millions of housewives, domestic science teachers, hospital restaurants, bakeries and railroads will not use anything but Calumet, the Economy Baking Powder. They say—use Calumet and plain flour. It is the most economical and satisfactory, when light, wholesome and pure food is desired. PACKED IN TIN —KEEPS STRENGTH IN

Miller & Rhoads. If you can't get what you want locally, try Miller & Rhoads. FOR several months past we have been telling you, through the columns of this newspaper, about our store in Richmond.
