(Statement given January 2, 1908.)

There would be considerable money kept in Asheboro and Randolph county, if our merchants would use conservative advertising and inform the public of the stock they carry. By this means our money would stay in our county and the benefit would be of decided value. The Greensboro merchants got a business from Randolph county last year. The High Point merchants got a business almost as great as the Greensboro merchants. Of course the mail order houses got a big business and they all will continue to get a big business from the county until our merchants let the public know what they have by advertising it. There would be considerable money

Mr. Will Fuller, a prosperous young farmer of the Fuller section, was in Asheboro one day last week.

The real worth-while booster of the community is a man with the necessary vision to take advantage of opportunities in the upbuilding of his home town. Several years ago Mr. John Caveness bought up some vacant property in various sections of Asheboro with a view of improving it later on. Since then he has accomplished a wonderful development, have treating the sections of the second points of the second property in various sections of Asheboro with a view of improving it later on.
