Imagination is the key which unlocks the door to opportunity. Our object today is to get ready for tomorrow. Money is the trade token of labor. Labor is power-and power is good-when it is used with a thought of tomorrow.

The man standing behind that door is the YOU of tomorrow. Who he is and what he is depends upon you and you alone.

Initiative is the individual need today-it's the word with four "I's" in it. Put that word in your tomorrow's tool box-and use it. It will get you somewhere.

Indifference—Doubt—Lack of Self Confidence— Want of Purpose—they all lead to defeat and make la bor drudgery and unprofitable.

A bank book is an important text book. Acquire one, filling its entry regularly even though in a small way, and soon you will be able to grasp opportunities which will insure your tomorrow.
