Report of the Condition of THE BANK OF LIBERTY At Liberty, in the state of North Carolina, at the close of business, December 31st, 1924.

The editors of country weekly newspapers are the most influential men in the United States. Each one can influence at least one Congressman and two Senators, more than half a dozen so-called "big editors" could influence them.

Write to your Congressman and your two Senators, urging them to support President Coolidge earnestly in his determination to give this country an adequate air force.

Two Cousins A PRICELESS TREASURE Today I have added to my wealth a priceless treasure. To find it I did not have to drive to the bottom of the sea, nor blast the granite mountainside, nor drudge in the field, quarry or mine, nor play a sharper's trick. I looked straight into man's clear eye, spoke a true word, received a signal of understanding and now for life, I have a friend.—Editor and Publisher.

This Week

By Arthur Brisbane 500 AIRPLANES A MONTH. THE U. S. A. JOKE. FLYING SHIPS FOR TROOPS. THE COUNTRY EDITOR.

The spokesman for the Mikado announces that Japan's relations with all treaty powers, including this country, were never more friendly. We are all glad of that. We have for Japan only the most sincere feelings of kindness and admiration.

At the same time it is interesting and not amusing, to consider these facts: Japan builds 500 air planes each month, keeping seventeen factories busy night and day. According to our Brigadier General William Mitchell, a sound authority on air service, this Government owns, in all, only 700 airplanes, big and little. And of the only twenty would have any use as fighting machines. Therefore, Japan builds each month twenty-five times as many serviceable planes as we have altogether.

And we have in America only 450 pilots that could be used for air battles, in time of war. Japan, England, France have thousands.

The rich that fight taxes and yell for economy fear one thing even more than loss of their dollars, and that is talk of revolution. Just one thing could bring bloody revolution and uprising in this country. And that would be shameful defeat in war, with horrible loss of life and property, due to lack of preparation.

The very rich men and corporations that control this nation, dictate its candidate, and its laws, should bear that in mind and not push economy too far.

The British, creators of the superdrum, rulers of the sea for generations, are not neglecting their air fleet. They have organized a flying service separate and apart from Army and Navy control, unhampered by precedent and old-fashioned ideas.

Britain is building airships big enough to carry bodies of troops, replacing the old, slow floating troop ships. These ships, each with five million cubic feet gas capacity, will make our Shenandoah or Los Angeles look like a tugboat compared with a battleship.

The ships will be put to work at once, carrying mails and passengers from England to India and other distant parts of the Empire. Thus they will pay their way in peace, and be ready for war when it comes.

Is not this country rich and intelligent enough to meet the situation, and keep up with the times? The flying machine was invented here and we sit waiting for other countries to develop it, and perhaps use it against us.

Why must we wait for Europe to establish a flying service across the ocean? If our business men, that talk so much of superior private ownership, lack energy and courage to be pioneers, the United States Government should do it.

Instead of merely sending out of date battleships to cruise in the Pacific, we ought to send half a dozen dirigibles, bigger than anything England has, each carrying its cargo of flying machines and fliers, to make friendly demonstrations in flying from the mother ships, target practice with imitation bombs against moving and stationary targets, etc. All that would be instructive, create thought in foreign countries and promote peace.

What My Neighbor Says Is of Interest to Asheboro Folks When one has had the misfortune to suffer from backache, headaches, dizziness, urinary disorders and other kidney ills—and has found relief from all this sickness and suffering, that person's advice is of untold value to friends and neighbors. The following case is only one of many thousands but it is that of an Asheboro resident. Who could ask for a better example?

Mrs. Hugh J. Burns, N. Fayetteville St., says: "I was suffering severely from kidney trouble. It began with pains across the small of my back and later, I had dull headaches and dizzy spells. The way my kidneys acted bothered me greatly. I sent for Doan's Pills and used them, until I was rid of the attack."

MANY YEARS LATER, Mrs. Burns added: "I use Doan's every once in awhile to keep my kidneys in good order." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Burns had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Change of Life "When change of life began on me," says Mrs. Lewis Lisher of Lamar, Mo., "I suffered so with womanly weakness. I suffered a great deal of pain in my back and sides. My limbs would cramp. I didn't feel like doing my work, and there are so many steps for a woman to take on a farm. I was very anxious to get better. A friend recommended

CARDUI The Woman's Tonic to me and I began using it. I certainly improved. I went through change of life without any trouble. I can highly recommend Cardui." At the age of about 40 to 50 every woman has to pass through a critical time, which is called the Change of Life. At this time, great changes take place in her system, causing various painful and disagreeable symptoms. If you are approaching this period, or are already suffering from any of its troubles or symptoms, take Cardui. It should help you, as it has helped others. Sold by all druggists. E-98
