BAD BACK TODAY

Then Find the Cause and Correct It As Other Asheboro Folks Have.

There's little rest or peace for the backache sufferer.

Days are tired and weary-Night brings no respite. Urinary troubles, headaches, dizziness and nervousness, all tend to pre-

vent rest or sleep. Why not use a stimulant diuretic to the kidneys? Use Doan's Pills.

Your neighbors recommend Doan's. Read this Asheboro case. G. T. Macon, Cox St., says: "My kidneys acted too often at times and then again, not often enough. I suffered a great deal from backache and North Carolina, Randolph County. couldn't sleep at night. Mornings, my back was so lame, I could scarcely bend, and I also had frequent dizzy spells. States Largest Since 1914

The census bureau reports the 28th day of March 1925 and plead or in the country last year. Final gindemur to the petition filed in said ac- ning reports show 13,618,751 bales, North Carolina produced 823,278 bales as against a million in 1923. The largest crop was that of Texas which amounted to over four million bales. Arkansas, Georgia, Mississippi and Oklahoma each produced a little more than a million bales.

Mr. J. S. Ridge, special agent of the bureau of census for Randolph county, reports 2,373 bales ginned in this county from the 1924 crop as against 1,980 bales for the crop of 1923.

Have Employed An Executioner

Warden Sam Busbee of the state prison has announced the appointment of Joe Stone of Robeson county, a guard at the prison, as temporary executioner. Stone gets \$25 for every time he turns on the switch sending the death current into a prisoner's body. He will officiate today for the first time when Albert Harlee, also of Robeson county, is to be executed for murder.

TRINITY NEWS

Mrs. Snider, mother of Mrs. Lee Royals, visited her last week.

Mrs. Tyndale, who has resided here for the last four years, has gone to live with her daughter in Virginia. Edgar Pepper, wife and little daughter, Josephine, were in town

Friday. Lee Andrews, who has been quite ill for some time, is better we learn. Mr. and Mrs. Wagner are off tak-ing a much needed rest, will be gone for a few weeks.

Some are going into the chicken business extensively. They have the brooders for the young chicks, and are going to have a lot of "fryers" by summer.

A Murder In Montgomery

Atlas Poole, aged 32, an Onville merchant, shot and instantly killed Dave Harris, sawmill man of Montgomery county, in a drunken quarrel last Thursday night, near the Harris home about five miles south of Troy. Harris was killed by a shot from a shot gun fired at close range, the load entering his body just a few inches below the heart.

ABOVE THE KNEES, PLEASE 20 MILLION FEET A DAY SALMON BUT NOT CHILDREN AN OLD BIBLE

Paris rulers of fashion say to women all over the world:

"Wear your skirts above your knees and paint your ears red."
And the pathetic fact is that millions of women will wear skirts so short as to be silly, and paint their ears without loss of time. Also the eyelids are to be stained dark brown or blue, the eyelashes curled, and the inside of the nostrils stained bright red.

The short skirt, in reason, is sensible, a step toward common sense, and away from microbes. Red ears, when natural, indicate good blood condition. But for women to wear skirts that would look foolish on a child, paint artificial health on their ears, curl their lashes and color their eyelids, that seems too much. However, back of it all there is divine wisdom, undoubtedly. Woman is on her way to some grand destiny. Let us ob-serve and admire, but not criticize.

We can estimate the wealth under ground in this country. The Barland Oil Company strikes a new. oil well in its Colorado territory. The roar of the gas, rushing out, twenty million feet a day, can be heard for six miles. If gas were worth one dollar a thousand, which is called "a cheap, confiscatory price," how much would that well yield in money?

And the wealth in the ground is perhaps less than the wealth in the air. Floating above every farm, waiting to be taken out and used, is enough nitrogen to fertilize many such farms. We buy nitrogen hould all the way from South America, and there are billions of tons of it above our heads.

And what is the wealth below the waters of the oceans, seas and lakes, that cover the greater part

Here and there, along the Pacific Coast, you see oil wells out in the

Men eventually will explore the ocean's bed, as they now explore Alaska, or Africa, and give to the farms, from the air, the nitrogen they need. Henry Ford would do it now, if he had Muscle Shoals.

The Supreme Court decides that the game and fish act is constitutional. The National Government therefore has power, where game and fish are concerned, to protect the interest of the people.

The Monterey Fish Product Company must now discontinue turn-ing into fertilizer fish fit for human

What about an act that would prevent exploiters of child labor turning young lives into dividends and grinding up children into profits? Isn't that worse than grinding good salmon into ferti-

The Supreme Court was not able to uphold the constitutionality of an act to protect children, although certain so-called "radical" justices on that bench did uphold it.

However, our highest court does find a way to protect fish and game.

About a hundred years ago, in a Vermont log cabin, a young mother read to her children old Bible stories, about the whale that swallowed Jonah, Elijah and his chariot of fire and the fig tree that withered under Divine rebuke.

That mother was poor and all her people were poor, and ours was a young and poor nation then. The old Bible from that log cabin,

carefully wrapped up, was taken to the broad platform before the Capitol. With his hand on that Bible, Calvin Coolidge swore to do his duty as President of the United States. He is the grandson of the New England woman that owned the Bible, 100 years ago.

This is the land of opportunity and growth. What will it be in years to come, if the 112,000,000 now here work as hard and hope-fully as men and women did in the days of Calvin Coolidge's grand-

## Stiff Neck

Get this relief now To get rid of a crick in the neck in short order—apply Sloan's.

No rubbing! The marvelous effectiveness of the liniment itself does the job for you. It sends fresh, new blood through the pain-ridden tissues, and this takes out the stiffness—stops the pain. All druggists—35 cents. Sloan's Liniment-kills pain?

A CLEAR SKIN

Bright, sparkling eyes, cheeks with as velvet, the ideal we all strive to attain. No blemishes, no eruptions, no blackheads, no marks to destroy the even texture of healthy skin.

The secret is pure, red blood free from poisons and impurities, blood that makes the body glow and radiate health, blood that drives pimples, boils eruptions, eczema and skin blemishes from the system. LEONARDI'S ELIXIR FOR THE BLOOD makes rich red blood, drives the impurities out, brings the glow of health. Use it now. Insist on LEONARDI'S. Refuse substitutes. At all druggists.
