

Randolph Agricultural Department

E. S. MILLSAPS, JR., County Agent

Saturdays Office Days First Mondays

Three Years Ago

Three years ago I started to work in this county. It was new to me, as well as your faces. Today there are still faces in the county I do not know, but I just wanted to say upon the close of three years' work and the beginning of the fourth, that I more than appreciate your help and co-operation.

We are now better acquainted with each other, and have a better conception of what we are trying to do, so let's pull together for the biggest year in the Agricultural life of the county. It takes co-operation and team work and I hope that we are going to have it this year as never before in this county. When that time comes Randolph is going to take her place at the head of the list as the best county in the State where she belongs. Who is going to help put her there? Surely everyone will answer I.

Randolph County Fair

Now is the time to begin making preparations for the big fair this fall. The officials of the fair association are at work on the new grounds and buildings getting them in shape and from present appearances we are going to have one of the best equipped fairs so far as the grounds and buildings are concerned that there is to be found in the State.

There has been the complaint in the past that we did not have room, and rightly so, for the old grounds were too small. That is conceded by the fair association in the fact that they sold the old plant and are spending large sums of money in order to have a modern plant where we can have a real fair.

Last year the exhibits at the Randolph Fair, although it was a bad year, and fair week was one of the worst in years for a fair, were a credit to any county and second to none in the State. This year we hope to have a better season, and we are assured that we will have real exhibit halls to take care of the exhibits. This should be a banner year for a Randolph Fair.

The livestock of the county is rapidly improving along all lines, cattle, hogs and poultry. We have livestock in the county that is a credit to any section of the State, and I hope that the farmers who own livestock of this kind will put it in shape for the fair and bring it out. It is due to the county and people as a whole to be permitted to see this stock and to realize the class of livestock that is being raised in the county.

New and modern buildings are being provided so as to show the livestock to the best advantage. The cattle this year will be put in a building and lined up from one end to the other so that the people can see it, and so that the exhibitors can care for it as never before. Let's be thinking about this and bring some cows, calves and bulls to the fair this fall.

A modern hog building is being built where the hogs can be shown and also judged as a judging ring will be provided so that the hogs can be seen and the judge will have an opportunity to judge the hogs and then go away feeling that he has done a good job. The old way was a hit or miss job and hope that it was right.

The poultry will be taken care of well this year also, and I hope that the farmers of the county will bring the poultry out better this year than ever before. We have good poultry in the county, and it is to our advantage to bring it out. Many farmers have told me that they have made lots of sales this spring of chickens and eggs for breeding purposes because they won out at the fair. Any number of people have come to me and asked the question, "Who won first on this or that breed at the fair?" stating that they wanted to get some eggs from the prize winners. You never can tell when you will be the winner and if you do not you will have helped to make the Randolph Fair one of the biggest and best in the State, and I feel like we are going to show many fairs this fall that can really be done in the center of the State.

You who are in reach of the community fairs should also be planning to have the best community fair this fall. Farmer, Flint Hill, Holly Springs and Seagrave will have fairs this fall again and every farmer in the county is invited to take part in one of these fairs. They will be held the week before the county fair and then be brought to the county fair. In the past we have not had enough space to properly show these community fairs at the county fair, but this year all the space necessary will be provided so that the community fairs can show what they have. The list of prizes offered are in the county fair catalog, so if you are not familiar with it look it up and begin now to plan something for the fair. No premiums will be offered at the community fairs, but every effort possible will be made to make them as educational as possible.

The premiums at the county fair have been increased this year and are as good as any county fair in the State. Won't you do your part to make it the best ever?

Poultry Shipment Delayed
It was announced last week that a car of poultry would be shipped from Asheboro on June 9th. Since that time I have been over the county and find the broilers still small, and the date of June 9th coming right in the midst of wheat harvest. For that reason we feel that it will be better to put off shipping for another week or two. Making this change will mean that the poultry will be through the same process as usual.

shipped and the prices paid will also be stated a week in advance of the date of shipment. Several farmers have asked why the prices could not be stated sooner. The reason is this: the buyer will not bid on a car of poultry more than a week ahead of the shipping date. It is his purpose to pay the market price at the time of shipment and he cannot figure the prices for a longer period of time, hence it is to our advantage not to get the prices sooner, as he would be obliged to state the price to protect himself if stated too far in advance. Watch this column for the time of shipment and the prices.

STOP THAT BACKACHE!

Many Asheboro Folks Have Found the Way

Is a dull, nerve-racking backache wearing you out? Do you feel older, and slower than you should? Are you tired, weak and nervous; find it impossible to be happy, or enjoy the good times around you? Then there's something wrong and likely it's your kidneys. Why not get the cause? Use Doan's Pills—a stimulant diuretic to the kidneys. Your neighbors recommend Doan's. Read what this Asheboro resident says:

Mrs. Cora Elliott, Hoover St., says: "My back ached as though it would break and I was so weak I couldn't lift anything. I had spells of dizziness and awful headaches. My kidneys acted sluggishly and painfully, too, and my feet and limbs swelled. I used Doan's Pills, which I got at the Standard Drug Co., and they soon brought relief. The backaches left, I could do all my work and I felt just fine."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Elliott had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

RAMSEUR HIGH SCHOOL BOARD RECEIVES MANY APPLICATIONS

That Ramseur is a popular town and one in which it is pleasant to live has again been proved by the large number of applications for superintendent of the Ramseur high school. The vacancy created by the resignation of Prof. Marsh, who has been at Ramseur for the past three years, has opened the flood gates through which between seventy-five and a hundred applications have passed. The Ramseur school board has always been wise in the selection of its superintendents and will most likely sustain its reputation by choosing a man who will be a worthy successor to superintendent Marsh.

Indict Furniture Makers

In the most sweeping action of its kind ever taken, the federal grand jury in Chicago last week returned indictments against 263 furniture manufacturers on charge of violating the Sherman anti-trust act. The indictments charge price fixing and curtailing of production to maintain high prices and destroy competition.

Besides indicting 263 manufacturers, the jury also indicted the six secretaries and assistant secretaries of the National Alliance of Furniture Manufacturers and the National Association of Chair Manufacturers. The various organizations indicted do an annual business of \$110,000,000.

The investigation started some time ago to determine why furniture prices are from 100 per cent to 250 per cent higher than pre-war levels and how they have been kept up when many other commodities have reduced in price to almost pre-war levels.

RAILROADS ARE ESTABLISHING NEW TRAFFIC RECORDS

Reports to the Interstate Commerce Commission indicate that American railroads will establish new freight carrying records this year. Up to the week ending May 9, loadings exceeded the previous banner year of 1923 by 430,000 cars, and the same period in 1924 by 550,000 cars. If the present rate of traffic holds up the railroads will have loaded 50,000,000 cars this year, the first time in the history of the country.

Since January 1st, 1923, the railroads have added nearly 400,000 new freight cars. Most of these cars are of the large type carrying 50 tons and upward. In the past year 6,700 locomotives have been purchased and orders for over 300 are now being filled.

MRS. V. C. JOHNSON DEAD

Mrs. V. C. Johnson, aged 71, who died at her home five miles southeast of Liberty last Thursday morning, was the wife of Columbus Johnson, and one of the most beloved women of her community. She had been an invalid for about two years. Funeral services were conducted by Rev. W. M. Pike at the Flint Ridge Methodist church, of which Mrs. Johnson was a loyal member, Friday morning.

Besides her husband she leaves two sisters, Mrs. A. W. Halliday, of Greensboro; and Mrs. Willie Thomas, of Siler City; and a son, Prof. Clyde C. Johnson, of Boulder, Colorado; a brother, H. W. Johnson, and a sister, Mrs. J. C. Terry, both of Siler City, R. F. D.

Cramped and Suffered

"My back and head would ache, and I had to go to bed," says Mrs. W. L. Ennis, of Worthville, Ky. "I just could not stay up, for I would cramp and suffer so. I was very nervous. My children would 'get on my nerves.' It wasn't a pleasure for me to try to go anywhere, I felt so bad. 'My mother had taken

"Easy on the oil, mister!"

"If the maker of this car says to use six quarts of oil, don't use eight! The extra two won't oil your engine any better. They'll foul your plugs, drip all over everything, and make a lot of smoke for the fellow behind you. Besides, they're handing out tickets for smoky exhausts around here these days."

The Fleet Boss knows from experience the wastefulness of too much oil as well as the danger of too little. The safe rule is to use plenty of good reliable oil and to change it every 500 miles regularly. You can always depend on the high quality of "Standard" Motor Oils, for they are based on fifty-five years' experience in refining. If you believe that experience counts in oil refining as it does in every other line of business, ask for "Standard" by name.
