What Good Does It Do You to Know Something?

Advertisements in all Papers and Magazines are all trying to appeal to the intelligent. Now this one is for the great majority. Reliable authority, in fact it was the Draft Boards during the War, figured out that the intelligence of the average Adult of this Country was that of a 13 year old Child. (Now that is giving us the best of it because a 13 year old Child is about the smartest thing we have in this Country), but the 13 year old Child they referred to was one who had been raised on the milk of human Kindness (which is mostly Water) and weaned on a Hard Boiled Egg. You know the smarter the Man the more dissatisfied he is, so cheer up, let us be happy in our ignorance. What do we care how little we know if we get what we want? "Bull" Durham needs no Literacy Test, it is with minority in quality, and with the majority in usage.
