CHEVROLET HOPES TO BREAK SALES RECORD

Local Dealer Back From Charlotte Meeting Is Optimistic Over Outlook for 1926.

All previous sales and production records are to be shattered by the Chevrolet Motor Co. during 1926, according to Mr. R. E. Nance, well known local automobile dealer who has returned from Charlotte where he attended the annual convention of Chevrolet dealers from North and South Carolina.

The local motor car merchant says that there were approximately 400 in attendance at the great sales conclave; and he returned to his home with the "big picture" of the Chevrolet program for the coming months.

In addition to the Chevrolet dealers who attended the sales conference and the annual banquet which was held in the grand ball room of the Hotel Charlotte, there were many prominent bankers present from all sections of the Carolinas.

During 1926 the Chevrolet Motor Co. is to conduct the greatest newspaper advertising campaign that has ever been planned in the entire history of the motor car industry, states the local Chevrolet dealer. More than 4000 American newspapers are now being used regularly; and the great co-operative advertising program how being carried on in addition to the vast national campaign, has made a consistent advertiser out of every Chevrolet dealer and put the Chevrolet message before the newspaper readers in practically every city, town, village and hamlet in the United States.

"Without question," says Mr. Nance, "the great sales record of 1925 which totaled more than half a million Chevrolet cars and trucks, will be eclipsed during the present year. At this time, sales are far ahead of the production schedule and all of the twelve manufacturing plants operated by the Chevrolet organization are running at capacity in an attempt to keep up with the unprecedented demand for the Chevrolet product."

Throughout the United States, Chevrolet sales are piling up rapidly. During January and February sales were double what they were during the same months of 1925.
