Asheboro In Midst Of Building Boom

Factories And Brick Business Buildings Are Among The New Construction.

Many New Residences

Aside from the number of new residences which are under construction in Asheboro, work is being pushed on along nicely on the construction of the large brick garage building, being built by Ernest Kearns, for the new home of the Nance Chevrolet Company, Inc. When completed this will e one of the largest garage buildings in this part of the State.

The new hosiery mill building on North street, adjoining the Acme Hosiery mill building, is being rapidly pushed forward to completion. This building is being constructed by D. B. McCrary and associates and will house a modernly equipped manufactory for full fashioned ladies silk hosiery. An addition to the dye room of the

Acme Hosiery Mill has been completed deposit. on Salisbury street. This addition is of brick construction and is in keeping with the general architecture of the main building.

Farther down on Salisbury street is the one-story brick building under construction to house the Way Brothers grocery. This building is just across the street from the Asheboro Ice and Coal Company's plant.
On Church street and adjoining the

Asheboro Hosiery Mill is being constructed a one-story brick building which will be used as offices for the Cranford Hosiery Mill and the Asheboro Hosiery Mill.

With these new buildings under construction and the large number of new residences in process of being built and those built recently, Asheboro is nearest to being in the midst of a building boom than it has been in a long time.

Two Judges For Smith

Judge Tam Bowle and Judge A. M Stack, both of the North Carolina mined Superior Court bench, have come out in the advocacy of the nomination of Al Smith for President on the Democratic ticket. Judge Stack, like som of the local enthusiasts for the New York Governor, goes as far as to de-clare that Smith is a "greater man

Family Reunion Held At Home Of Mrs. Nance

The home of Mrs. Margaret J. Nance, on Asheboro, Route 2, last Thermometer Registered 95-Sunday, was the scene of a family reunion. A table, loaded with good things to eat, was spread much to the delight of the several people who were present to share the occasion with Mrs. Nance and her daughter, Miss Dorothy. 'Among those present were Mr. and Mrs. L. E. Harris and

Time Short To Enter The

Randolph Tennis Association August 15th have only until tomorrow night at 12 o'clock, Friday, August 5th, in which to file their applications and send in the \$1 entrance fee. Ten entries have been made, but it is felt by those interested in the association that these represent only a small part of the total number of tennis players in the county. Those who still wish to enter for the tournament should the temperature down. Last year while two others places in the county as mall part to enter for the tournament should the temperature down. Last year while two others places in the day afternoon at Macedonia church by large number of people have attended.

Rumored That Gold Will Be Mined In County On Big Scale

But News From Raleigh To This Effect Isn't Causing Any Excitement Here.

News dispatches from Raleigh are that application will be made shortly to the Secretary of State for a charter for a mining enterprise organized for the purpose of conducting mining operations in Randolph county. No a number of business building proj- details are given as to the capitalizaects. On Sunset avenue work is going tion of the business nor the names of the incorporators. There is a rumor, say the Raleigh dispatches, that the capital stock may be \$300,000, nothing is certain about this.

> It is stated that the industry operate a mobile placer mining outfit, which may be moved from place to place as the deposits are worked out. Herman J. Bryson, State Geologist, says there is gold in Randolph, ore that will assay more per ton than that these deposits are scattered and exit unprofitable to attempt to mine the gold with a big mining outfit at each

It is the general opinion of local men interested in mining and mine experts from other States who have come to Randolph county that camp and in general keep the premis-Bryson is right about the deposits es about the camps in a sanitary conexisting in widely scattered areas. dition. Any camp foreman or con-There are miners, however, who feel struction foreman who fails to comthat gold exists in "pockets" in sec-tions of Randolph and that these individual deposits when found will yield to \$100, in the discretion of the court. a large quantity of gold. The greater number of these miners feel that Winningham Family To finding one of these pockets is more luck than anything else.

The State Geologist has 14 samples of gold-bearing ore from Randolph in his possession, and if these samples show that this will assay as much as \$10 to the ton of ore, a charter will be granted to the company which desires to exploit the mines in the county. Southern mining congress officials say that ore must assay from \$6 to \$7 per ton to be profitably

However, the news from Raleigh is interesting to say the least, and local folks are on the lookout to see what the next developments will be, though nobody is getting very much excited over these reports from the State

Trinity: A. A. Carter.

Railway Crossing **Improvement Gets** A Hearty Welcome

One of the most needed and the most notable improvements made on the streets of Asheboro in a long time is that just completed of the Southern railway crossing on Depot street. The spaces between the rails have been filled with hardwood strips securely spiked down and in turn the spaces between the strips have been filled in. The approaches to the crossing on either side have been treated with a tar and concrete preparation so that there is no jar when a car or other vehicle strikes the cross-

ing as was formerly the case.

This crossing, before it was improved, was one of the abominations of the town for the motorist. There was a bump when the crossing was reached and a continuous series of bumps, jars, shakes and shimmies while the car was negotiating the crossing proper. This condition called forth remarks from motorists which would be unfit to print, and groans, creaks and rattles galore from tor-

tured cars. . But the crossing is improved now. and one can almost hear a sigh of relief from an inanimate car itself as it passes over the rails.

Coolidge Not A Candidate In 1928

Made Statement That He Does Not Want To Run For President Again.

Does He Mean It?

"I do not choose to run for President in 1928," was the short, terse announcement made by President Coolidge to newspaper reporters Tuesday at the summer White House at Rapid City, South Dakota. The announcement was made on the fourth anniversary of his taking office following the death of President Harding, and came as a distinct surprise to the people of the country.

For the past several months speculation has been rife as to whether President Coolidge would be a candidate to succeed himself. Each contention had its adherents, and many of those interested were sitting on the anxious seat. Mr. Coolidge had opposition for the nomination in 1928 I have just returned from a trip covwithin the ranks of his own party, but ering all the Pacific Coast States and it was generally agreed that if he really wanted the 1928 Republican nomination nothing could prevent him from getting it. There are those, however, now who say that Coolidge is not entirely eliminated from the race. Chairman Butler of the Republican National Committee, feels that the President will be a candidate absence. It was quite a pleasure to to succeed himself if he is drafted by meet Mrs. Hammer and to spend a his party. But the political signs do not indicate that there will be many in the party ready to issue the draft call for the President. There are too many other Republicans who want the

Now comes the speculation as to shom the Republicans will nominate in 1928. Herbert Hoover has a large Meeting Of Baptist following. Former Governor Lowden, of Illinois, is mentioned, so are Nicholas Longworth, Charles G. Dawes. Senator William E. Borah and dozens of others. It is too soon yet to make an attempt to pick the next Republican nominee. The G. O. P. leaders and Presidential aspirants will have to adjust themselves to the new condition created by the President's announcement before they begin to plan definite steps to obtain the

visitors, also. business was disposed of the Liberty Union gave a very interesting play-

let, "The Spirit of Missions." Rev. W. A. Elam, of Ramseur, gave a very inspiring talk to the young people on the B. Y. P. U. work which the Unions are now doing and the possibilities for further work in the county.

After Rev. Ellington, pastor of the Liberty Baptist church, led in prayer, the meeting adjourned to meet in Asheboro October 30, 1927.

Want Road From Climax

A petition, signed by fifty landowners of the Climax community, was presented to J. Elwood Cox, fifth district highway commissioner, last Friday, asking for a hard surface road from Climax to Highway 77. The proposed road would start from the hard surface road at Climax, cross 70 on the K. G. Coltrane property, and would intersect Highway 77 between Archdale and High Point. It is pointed out that there is no first class bridge over Deep River anywhere between Randleman and Jamestown, and that people living in the Climax community and along the route which would be served by the proposed road have to make the long trip by Greensboro in order to reach High Point. Mr. Cox has promised to use his influence with the Highway Commission to obtain the establishment of the route.

State Pays More Federal Tax Than All New England

North Carolina last fiscal year paid into the federal treasury in taxes a total of \$205,648,000, or more than any other Southern state, and more than any other state in the union save three. Carolina paid more federal tax by 25 million than all the New than all the Pacific Coast states. All the Southern states paid into the fed- addresses of every Randolph citizen 6th, beginning at 10 o'clock in the eral treasury \$638,284,000, or an increase of 51 millions over payments in 1926.
