Miss Jewel Boling spent Sunday with Miss Pearl Boling at Mebane.

REAL THRIFT IS INTELLIGENT SPENDING

Your 1930 Dollar will buy more than any you have owned in years. Many items that everyone needs are cheaper than they have been in a decade.

You can make more now by spending than by saving. Present low prices cannot continue

Spend and help everyone else as well as yourself. Your own security depends as much on the prosperity of your neighbor as on your own ability and energy.

Unless you buy what others produce, they will not have the money to buy what you or your employer has to sell. Prosperity is money in circulation.

BUY NOW! Invest by spending while prices are low.

Asheboro, N. C.

PROSPERITY IS MONEY IN CIRCULATION

The difference between prosperity and hard times is \$1.00 per week per capita. If every American wage earner spent an "extra" 15 cents per day it would furnish capital to employ one million workers at a daily wage of \$6.25.

Inactive dollars are keeping goods on dealers, shelves, factories on part-time schedules,

and thousands of potential buyers out of work. Reports indicate a \$700,000,000 gain in savings accounts the first half of 1930. Federal Reserve system banks report a gain of \$1,494,000,000 in deposits.

Hesitancy to buy is retarding business. BUY NOW and guarantee future prosperity.
