

Randolph Fair In Progress With Big Crowds Attending

Exhibits This Year Are Splendid And In Large Numbers; Large Midway Also.

Beauty Show Today

Will Be Staged This Evening, After Preliminaries Yesterday; Home Coming.

The Randolph county fair opened Monday night with crowds thronging the fair grounds for the opening of the carnival and to place the exhibits in the exhibit hall.

Tuesday was school day and children from Randolph and adjoining counties took possession of the entire fair during the day and evening until after the fire works that night.

Wednesday evening the preliminaries for the beauty show were held and Thursday evening the show proper will be staged.

Friday is designated as homecoming day with a mountain square dance in the evening adding to the entertainment of the crowd.

Free acts are staged twice daily from the grand stand and are considered unusually good.

The exhibit hall, as always, is full of Randolph county products from farms and gardens, factories and other business enterprises.

The educational exhibit has samples of work from children of many schools in the county and are unusually interesting.

The fair exhibits are even finer than last year and are displayed in an attractive manner.

The live stock exhibit is also well worth the attention that it draws and Randolph's record for pure bred stock is a source of pride.

The midway, larger than ever, is filled with Max Gruber's shows, twenty-two in number of varied entertainment for children and grown ups.

The crowd the first two days of the fair have far exceeded those of any previous year.

Fewer Boys Enrolled In High School This Year Than In 1932

Below are some figures recently given out from the office of Superintendent R. J. Hilder, of the Asheboro city schools, that reveal some interesting facts.

The enrollment of boys in the 8th and 10th grades is much smaller than last year, while the number of girls is larger.

The conditions are reversed in the 9th and 11th grades; but the figures show that the numbers of boys in the 9th and 11th grades are much smaller than they should be considering the numbers in the 8th and 10th grades last year, while the enrollment of girls has held up well.

Following are the figures: girls enrolled in eighth grade in 1932, 56; in 1933, 74; boys in eighth grade in 1932, 62; in 1933, 48; total enrollment, 1932, 118; 1933, 122.

Ninth grade—girls in 1932, 41; in 1933, 47; boys in 1932, 36; in 1933, 48; total in 1932, 77; in 1933, 95.

Mrs. Fuller Wills Bulk Property To Nieces & Nephews

Will Is Filed In Office Of Court Clerk Of Randolph County For Probate. In Own Handwriting

Written March 10, 1928, And Specifically Sets Forth Disposition Of Estate.

The will of Mrs. Julia C. Fuller, of Fullers, Randolph county, who died August 18, in the City Memorial hospital, Thomasville, in her 94th year, has been filed by the administrator, Wachovia Bank and Trust Company, of Winston-Salem, in the office of R. J. Hilder, Clerk Superior Court Randolph county, for probate.

The will, written in the distinctly clear and legible handwriting of Mrs. Fuller on several sheets of notebook paper, was written March 10, 1928, with a codicil added some time later. It was found among the valuable papers of Mrs. Fuller, held in the vaults of the Wachovia bank, which had been for several months past guardian of her estate, and her handwriting is attested by L. C. Phillips, of Asheboro, Frank Miller, of Fullers, and Mrs. Mamie Teague, the latter being one of Mrs. Fuller's nieces.

The will very simply and directly disposes of property variously estimated between \$75,000 and \$200,000 depending largely upon the present face value of stocks and bonds which compose the bulk of the estate.

After making provision for burial expenses, the will provides \$1,000 of her estate shall be set aside in a reputable bank and the interest thereon to be used to care for her grave and that of her late husband, Dr. A. Fuller, one of the pioneer physicians and surgeons of Randolph county.

Dry Forces Are Organized In All State's Counties

According To Carl K. Burgess, Director, In Charge Of Organizing The State.

Many Speakers Out

In All Parts Of State, Including Judge E. Yates Webb And Clyde R. Hoey.

Raleigh, Oct. 2.—When the sun rose Sunday morning, October 1, it rose upon a North Carolina in which the Dry Forces were organized in every one of its hundred counties, according to announcement by Carl K. Burgess, Campaign Director of the United Dry Forces. In half or more of the counties, the organization reaches clear down to the precinct, and other counties are swiftly lining up their every precinct for campaign activities.

The intense fervor with which the Dry Forces are at work is indicated by a report of one county Chairman as follows: "I am putting in the field of my county one hundred volunteer speakers. They will visit every community and every church and schoolhouse in the county. I am making the campaign just as intense as I possibly can, and believe that the Dry Forces of this county will have a large majority of the vote." This is only typical of many others.

Various counties are organizing their precincts and selecting their candidates with such rapidity that it keeps everybody in the Dry Headquarters here on the jump to keep up with it all.

It will be interesting to a vast number of dry people to know that the Iredell county delegate of the Dry Forces is Thomas H. Steele. He is the author of the folder entitled "What Has the 18th Amendment Done?" which has been circulated over North Carolina by thousands upon thousands. In the last minute rush of the closing hour Saturday, two or three orders calling for six thousand of these folders had to be filled. Every day, calls are coming in for this effective array of machine gun facts in favor of prohibition. Mr. (Please turn to page 4)

Bossong Moves To Open Mill At Early Date As Open Shop

Letter Sent To Every Employee On Payroll September 27th, Date Of Mill's Closing.

It appears to the citizens of Asheboro that in spite of circumstances, the Bossong Hosiery Mills, is endeavoring to open their plant at an early date in fairness to their employees and also in so doing in the hopes of opening before unfilled orders now on hand are cancelled.

It is understood that some substantial increases and adjustments have been made in the various departments endeavoring to line up their wage scale with plants in this vicinity.

It is also known that a letter has been sent to each of the employees on the payroll of September 27th, on which date the management closed the mill, requesting each employee to signify and advise the management their desire to return to work.

It is apparent to the local citizens and community in general that this is without question of doubt a willing spirit of cooperation on the part of the management of the Bossong Hosiery Mills, in the face of conditions rather than having the plant remain idle for an indefinite period which without question of doubt would work considerable hardships on their employees and would no doubt throw a good portion of them out of work and in want.

The following letter has been mailed to each worker of the closed plant:

The Bossong Hosiery Mills, Inc., is considering the reopening of their plant, on the date which will be posted on the mill window, as soon as these letters are returned, on the following basis only:

The plant will be operated as an open shop.

The scale of wages will be those in effect on the Payroll starting September 16, plus the following schedule of increases in piece work rates, which are in line with other mills in this vicinity.

The opening of the plant is contingent on a sufficient number of employees signifying their intention to come to work on the opening date, and providing, that orders now on the books, will not have been cancelled by the opening date.

The return of this letter signed by you, will be considered by us, as an expression of your willingness to cooperate with us and return on the foregoing basis.

This letter has been sent to each and every employee who was in our employ on September 27th, 1933,—the day we closed the mill. BOSSONG HOSEY MILLS INC. STYLE FLASHES

The higher neckline is very definitely a high-style point of the mode. It has been adopted for evening as well as for daytime. The evening versions of this new feature are often interpreted in cowl effects high in front. Vinnet models often carry out this effect in front and back, the back being also for daytime frocks, the back drape being higher, of course, than that for evening.

Line handkerchiefs—the rule for school—are smart and practical when given that personal touch, the monogram, which is so easily applied now by heat and pressure.

Rayon falls with a flash of satin is smart and new in the mode. There are frocks with quaint quilting patterns featured on satin sleeves, often with matching Ascot scarf.

Faille makes a grand comeback this season. The fabric is rich and the new colors are regal. There are such new color combinations as tomato red and turquoise.

The bias half square of silk or rayon is a blessing when it comes to filling in a low cut neckline of a last season frock and bringing it up to date by giving it a close—round-the-neck appearance.

A meeting of the Back Creek young people's conference will be held at Mountain View Sunday, October 8th, 2:30 p. m. The theme for this meeting is: "Living the Spirit of Christ" with the different churches taking part in the program. Every one from the various churches in this conference are urged to attend.

The reckless motorist comprises ten per cent or less of the driving population. But he causes ninety per cent of the accidents. If the reckless drivers simply injured each other it wouldn't be particularly important to the rest of us. But they seldom do that—they maim and kill the careful, the competent, the prudent. And you never know who's going to be next.

This year about thirty thousand people are going to be killed because someone was careless, reckless, discourteous. Not one of a thousand of those deaths is really due to an unavoidable accident—an occurrence which is almost as rare as the dodo. They can all be prevented. And they will be when there is a concerted public drive against those who make places of carnage out of public highways.
