VALENTINE GREETINGS

There is one occasion when old and young alike, respond to the spirit of the season—and that is on Valentine day. Young and old alike thrill to the spirit of St. Valentine and love the of St. Valentine and love the magic of romance surrounding the occasion. Years may have passed since the "Valentine box" was the piece de resistance of the school room and that last spelling lesson in the afternoon before the opening of the box might as well have been omitted.

might as well have been omitted.

Then, when the box was opened! The lacy ones—the comic ones—the measy ones—but, best of all, the home-made ones! And, the test of popularity was the boy or girl who received the largest number of valentines. Remember?

Satisfactory Reports Of Past Year's Work Meet With Hearty Approval.

Operates During 1934 Without Loss

Dr. A. D. Gregg, County Health Officer, Presents Detailed Report For January.

The annual meeting of the mem-bers of the Randolph Hospital corporation was held on Tuesday at the hospital in Asheboro with a full attendance who heard the satisfactory report. The fact that hospital management had been able to operate during the year 1934 without a financial loss, was the source of en-

thusiastic applause by the group.

The records of the hospital and the annual report revealed a substantial increase in the number of patients admitted over the previous years the hospital has operated. There was also a noticeable reduction in the mortality percentage of surgi-cal cases, which was also source of satisfaction at this meeting.

D. B. McCrary presided over the meeting at which several members spoke briefly and registered approval of the conditions and offered suggestions. An interesting report in dehospital for the year was presented by Dr. A. D. Gregg, county health officer. The report includes the period from January 1st, 1934 to January 1st, 1985, as follows:

The number of patients admitted during the year was 699. The number of patients released was 708, 63 of whom were colored. These cases were classified as follows: Medicine. 112; surgery, 292; obstetrics, 109; eye, ear, nose and throat, 30; gynecology, 69; dermatology, 1; com-municable, 8; urology, 41; orthopedics, 41.

The number of major operations was 261. There were 8 deaths fol-lowing operations, which gives us a percentage mortality of 3.06 in com-parison to the mortality of general surgery of 5.21 per cent in North Carolina according to the Duke En-dowment report for the year 1933.

The number of deliveries was 38 with 4 maternal deaths; the total number of deaths, including still borns was 43;
