

Mrs. Helen R. Wohl Is First Woman Filing For State Office

Presents Formal Platform As She Announces Candidacy For Treasurer's Office

Against Centralization

Duties Would Place Her On State School Commission And Board Of Education

Greensboro, May 4.—Mrs. Helen Robertson Wohl, of Guilford county, first Democratic woman in the history of North Carolina to file for a state office, presented her platform May 3rd as she opened her active campaign for the nomination for state treasurer, subject to the Democratic primary of June 6.

Mrs. Wohl's platform is in the form of a challenge for the state to make active the State Board of Education and the Council of State. Both are established under the constitution, and both are composed of elective officials, but in the past their function have become perfunctory rather than active.

She expressed vigorous opposition to any further centralization of governmental powers and responsibilities in Raleigh.

Public schools and public education in North Carolina would have a vigilant supporter in Mrs. Wohl as a member of the State Board of Education and State School Commission if she is elected to office, she promises. Her platform follows:

In behalf of representative local self government; in behalf of budgets balanced in the general welfare of our people as well as budgets balanced in dollars; and in behalf of better public education in North Carolina, I enter the Democratic primary for the high office of state treasurer.

If elected to serve, I shall by virtue of the office become a member of the State Board of Education. This board, elected by and directly responsible to the people should function with new life and service, and from the beginning I shall regard my position on the board as active in the cause of the public schools and public education in North Carolina.

My duties would also place me on the State School Commission, charged with expenditure of the huge school fund and charged with administration of the school machinery act. In this double capacity as an official of the state school system I shall not be content until every North Carolina child enjoys an opportunity equal to that enjoyed by the child of any other state.

By virtue of the office of state treasurer I shall become a member of the Council of State. In this executive function, in advising the governor in the execution of his office and the administration of the states' affairs, I shall remain ever mindful of the welfare of the people, and shall exercise my constitutional right to dissent whenever any proposed action appears to me to be against the public interest.

I shall always support policies of state government that are constructive, liberal, fair or beneficial; and

First To File

MRS. HELEN R. WOHL

I shall always oppose those measures which appear to me to be unfair, unjust or oppressive. The less fortunate can rely on a sympathetic heart in their state capital.

As director of local government, another function of the office, I shall fight any effort to further centralize in Raleigh any of the powers or responsibilities that rightfully belong to County Commissioners and municipal officials who have been elected to office by the people. I shall do all in my power to help those counties, cities and towns, many of them, through no fault of their own, not able to meet their bonded obligations. In this capacity I shall assist officials of local units in solving their problems, I shall never arbitrarily interfere with the rights of local governments and their officials.

Excess interest charges consume millions of dollars of tax money each year and the average rate now being paid by North Carolina and its political subdivisions is among the very highest in the United States. There must be a reduction in the tax and interest burden and I shall encourage and institute workable local financing programs devised to secure lower interest rates. The result would mean local and state tax reductions.

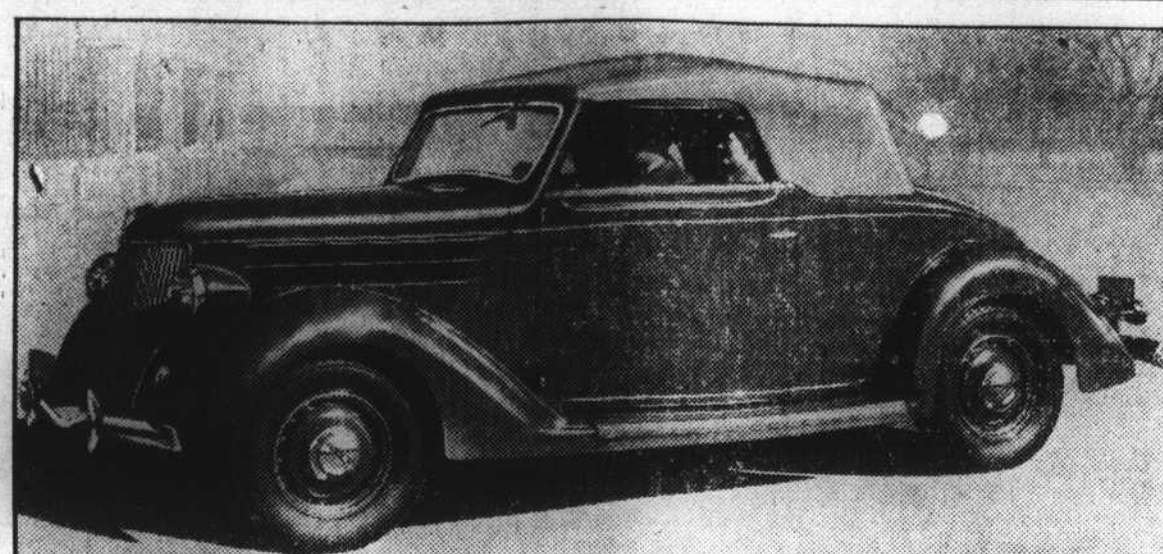

The office of state treasurer is in its nature a public trusteeship. Of the treasurer, two qualities are demanded: honesty and hard work.

Therefore, I make two pledges to the people of North Carolina; first, I pledge my honesty; second, I pledge my hardest work.

Farmers are pleased, generally, with the use of peat moss on tobacco plant beds this winter. Good stands of vigorous plants were secured, they report.

Twenty miles of rural electric lines are being considered in Orange county with 47 farmers on the new lines pledging themselves to the use of electric refrigerators.

Ford Shows New Club Cabriolet

A NEW Ford V-8 de luxe convertible body type—a club cabriolet with seats for six, is announced by the Ford Motor Company. Its convertible top is deeper than the de luxe cabriolet so as to house a second three-passenger seat snugly fitted in the forward rear deck—in effect a rumble seat protected by the tailored top. The seat back is divided, either half tilting forward to allow access to the club seat in the rear. The luggage compartment is reached through the rear deck. Interior appointments include upholstery in Bedford cord or in genuine leather for seat cushions and backs.

THE Masterpiece OF TIRE CONSTRUCTION

RACING drivers will not take chances on any tire except a Firestone Gum-Dipped Tire in the grueling Indianapolis 500-Mile Race, where its greater blowout protection has been repeatedly demonstrated.

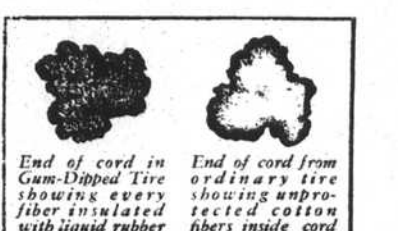

Ab Jenkins, the famous driver, used Firestone Gum-Dipped Tires on his 3000-mile run over the Salt Beds of Utah, which he covered in 23 1/2 hours—a record of 127 miles per hour. He has driven more than a million miles on Firestone Tires, in every state in the union, on all kinds of roads, in all kinds of traffic, without tire failure or accident of any kind. What a tribute to safe, dependable, economical tire equipment.

When you drive at today's higher speeds, your life and the lives of others are largely dependent upon the degree of safety built into the tires of your car. Take no chances—equip your car with new Firestone High Speed Tires today and be sure of the safest driving equipment money can buy.

The body of the New Firestone High Speed Tire is made from selected long-staple cotton dipped in liquid rubber, absorbing eight pounds of rubber in every hundred pounds of cotton. This patented Gum-Dipping process insulates every fiber in every cotton cord, preventing internal friction which creates the heat so destructive to tire life, and giving to the tire added strength.

This heavy, broad, traction and non-skid tread is held to the cord body of the tire with Two Extra Layers of Gum-Dipped Cords; a patented construction, making the cord body and tread an inseparable unit.

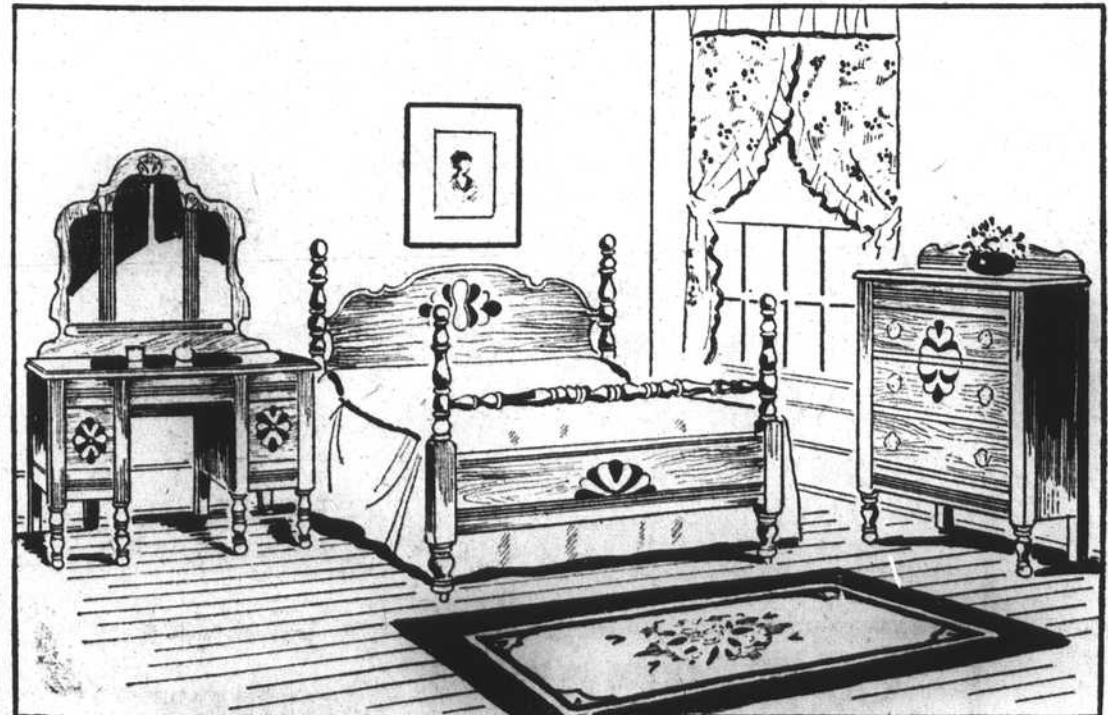

A leading university in 2350 tire tests has found that the new, scientifically designed Firestone High Speed tread stops a car up to 25% quicker. Its super-traction and non-skid efficiency have also been proved in the famous Pike's Peak Race where for eight consecutive years it has been used on the winning cars.
