# What Is Circulation

Is it the number of papers printed? NO! It is the number of papers distributed? NO! Is it the number of papers sold? NO!

Is it the number of papers sold and read? YES!

Circulation is the backbone of all forms of advertising . . and should be always carefully analyzed, no matter whether you intend using daily newspapers, weeklies, radio, posters, handbills, free-sheets, programs, etc. it has been definitely proven that it costs less to reach prospective buyers through newspaper advertising . . as can be judged by the fact that more money is spent in newspaper advertising than in all other methods.

The Daily Courier circulation is paidin-advance. Every single copy can be accounted for; thus eliminating guess work on the part of advertisers, and insuring the maximum circulation at the lowest possible cost.

### There Is No Substitute For Paid Circulation

and

The Daily Courier --HAS IT!
