GERMANY AND JAPAN WARN ROOSEVELT

Berlin Blasts Chicago Talk, "Remembers" Woodrow Wilson; Tokyo Raps Exclusion Laws

Japanese Heads Hint Government Will Take Lands

Ends All Nations Have Claim For New Territory.

Leaves vs. Havenots' Hands That President Clarify His Message; Japs Hint at War.

Germany, Oct. 6.—(AP)—The German foreign office issued a warning to President Roosevelt today to remember the shipwrecks of his predecessor Woodrow Wilson in commenting on the American President's appeal against attacks in his Chicago speech yesterday.

Speaking through the official mouthpiece, the foreign office inquired sharply which nations Mr. Roosevelt was talking about in his Chicago address.

"Mr. Roosevelt talked in very general terms about the sacredness of treaties without distinguishing which treaties conform to international morality and which do not," the foreign office organ said.

"He spoke of countries of attackers and others which think only of defending themselves without indicating any marks of identification.

"He avoided, in his discussion, the role of the Bolsheviks which menace all states and all people.

"If the President of the United States sees salvation in the union of peaceful nations and the frightening off of the bad one such a proposition can have practical value only if clarity already has been established, as to which are the good and which are the bad.

"Germans" text article continued, "cannot be blamed for remembering Woodrow Wilson's effort to initiate reform on international relationship according to the principles of justice and morality (thru the League of Nations).

Tokyo, Oct. 6.—(AP)—Japan officially answered President Roosevelt's condemnation of aggressive nations today with the warning that "peace will be difficult to maintain if demands and efforts for peace have been refused."

Speech Considered Aid To Britain's Curtailment Of Loans To Tokyo.

Washington, Oct. 6.—The world is probably destined to regard President Roosevelt's address, delivered at Chicago yesterday, as an arresting, if not sensational, utterance.

In this new delineation of policy of the North American republic the speech, in its larger aspects, serves as another illustration of the difficulty of keeping clear of foreign commitments from our shores, and the difficulty of avoiding entangling alliances abroad.

Of more immediate domestic concern, is the intimation that the Washington government has under advisement the policy of lending encouragement to the boycott against Japan in the realm of trade and commerce, and possibly in the matter of loans, a movement that seems to be gathering momentum in Great Britain.

U. S. May Join In League's Action

Washington, Oct. 6.—(AP)—The house rivers and harbors committee announced yesterday army engineers had rejected proposals for an improved system of canals between Lake Okechobee, Fla., and the Atlantic ocean.

Duce's New Move Italian Black Shirts On Spanish Front; England Jitters.

London, Oct. 6.—(AP)—British ministers today weighed emergency measures to curb the growing danger of war on either side of the fence, with President Roosevelt's call for action against aggressors, intended as an invitation for British cooperation in the Far East.

Sentiment was opposed to loans to Japan while well informed sources expressed the belief that a covenant with the United States might result in the adoption of a sterner attitude on the Sino-Japanese war.

What the cabinet sought was a magic formula against the twin conation of war—as Mr. Roosevelt put it in his Chicago speech—both in European Spain and in the Far East conflict.

Il Duce of Italy in his latest bold aerial intervention in Spain through forces of ace bombers, including his second son, and reports that Italian black shirted Arrow brigades had reappeared in north east Spain precipitated a grave crisis to British and French efforts to localize the Spanish war.
