Black's Position May Be Settled On Supreme Court

Justice Left Parley While Court Discussed Two Protests.

Secret Session

Justice Black Emerged From Conference Long Before Session Was Over.

Washington, Oct. 9.—(AP)—There are some indications today that the Supreme Court decided this afternoon whether to permit further proceedings on two challenges of Justice Hugo L. Black's title to his office on the tribunal. This belief was bolstered by the fact that Justice Black emerged from the secret conference of the justices long before the meeting was over. This, it was indicated, had excused himself while the court discussed his eligibility to serve on the bench.

Postoffice Lists Asheboro Homes

Department Reports 1,811 Residents Located Within City Limits.

A canvass of the city of Asheboro conducted recently by the Asheboro post office revealed that there are 1,811 residences within the city limits, according to J. O. Redding, postmaster. The method used by the post office was to give credit for two dwellings when it was found that two families were living in the house, and four a family apartment counted as four residences. This count did not include people residing in hotels and boarding houses. The canvass would indicate that there is plenty of room for new buildings in Asheboro to accommodate the congestion, according to Redding. Asheboro's population has recently been estimated at 10,000, which would indicate that each residence held 5.1 persons.

Hubbell Stages Come-Back; Cuts Off Yankees 7 to 3

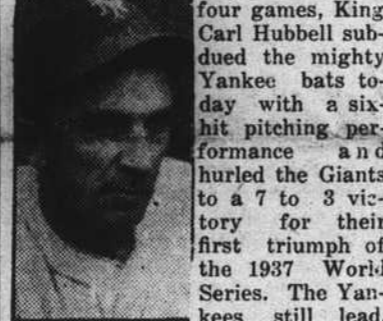

Little Leads Tar Heels To Victory

Engineered Three Scores; N. Y. U. Falls Before Rushes, 19 to 6.

New York, Oct. 9.—(AP)—Crowell Little, a hard driving, snake hipped quarterback personally engineered three touchdowns today to conduct his ball band of Southerners from the University of North Carolina to a 19 to 6 inter-sectional victory over the previously undefeated Violets of New York university. A crowd of 15,000 sat through a chilly wind today to watch the Tar Heels register their second successful invasion of New York. A year ago the North Carolinians beat New York university 14 to 13. Little, co-captain of the Tar Heels was a thorn in the side of the air-raiding Violets from the opening whistle, smashing a pass on the first scrimmage play then racing 22 yards a moment later on a beautiful dash through the New York team to the four yard line. The game was less than two minutes old when Little was over for the first score. Late in the third quarter Andy Bershak took a Violet fumble on the New Yorkers fifteen. Gene Watson's nine yard sprint set the stage for Little who slipped thru from the three yard line to put the Tar Heels ahead for good.

Giant "King" Turns Back Hard Hitting Outfit; Allows But 6 Hits.

Polo Grounds, New York, Oct. 9.—(AP)—Backed by his mates' first outburst of hitting fireworks in four games, King Carl Hubbell subdued the mighty Yankee bats today with a six-hit pitching performance and hurled the Giants to a 7 to 3 victory over their first triumph of the 1937 World Series. The Yankees still lead, three games to one and need but one more victory to retain the championship.

CARL HUBBELL

Three down and needing only one more setback to be eliminated, the Giants led with their ace, southpaw, Carl Hubbell, in a successful attempt to stave off the threat of the American League clouting crew was making toward a sweep of the 1937 classic. Hubbell was beaten in the first game of the series on Wednesday.

Opposing him, the Yanks threw their portly right-hander, Bump Hadley, an up-and-downer through much of the season, but a pitcher behind whom the American league champions ordinarily hit hard and field perfectly.

About 35,000 fans were in the stands as the game got under way, with the bleacher and general admission sections comfortably filled, and the reserved seat holders still pouring in.

Duke Upsets Vols In 0 To 0 Game

Scoreless Tie Marked Battle; Threatened to Score Twice.

Durham, Oct. 9.—(AP)—Two tough football squads, Tennessee and Duke, battled to a scoreless tie here this afternoon in an inter-collegiate game. Tennessee's brilliant Vols apparently won in the first quarter on a 29 yard forward pass from Walter Wood to Cheek Dunn can to thrill an overflow crowd of 38,000, but the officials called an offside penalty to nullify the play. Duke threatened twice, a fumble proving costly in the first quarter and a stalwart Tennessee defense checking the Devils on the Vols' 16 yard line only three minutes before the game ended.

Tennessee came close mid way of the second period but the drive was checked on Duke's twelve yard line. The game was the last of a series of annual Duke-Tennessee games. The teams do not meet next year and probably not again before 1940, if then. The Vols whipped Duke four times—Duke won twice.

Received License State Department Gave OK On 10 Million Buy This Fall.

New York, Oct. 9.—(AP)—The Soviet government, engaged in Europe's headlong armaments race, has authorized commercial agents here to purchase \$50,000,000 worth of naval equipment for export to Russia in the immediate future, it was disclosed today.

Morris Wolf, counsel for the Carp Export and Import Corp., of New York, which is negotiating the huge deal, said the war material will consist of pre-fabricated parts of battleships and other types of fighting craft—turrets, armor plate propelling machinery, boilers and engines and 16-inch naval guns. The corporation is the special munitions purchasing organization for the Soviet government, he said, and is headed by Samuel Carp of Bridgeport, Conn., a banker and oil industrialist. Carp, an American citizen, is a brother-in-law of Premier V. M. Molotoff of Russia.

The state department's September report of licenses issued for the export of arms, munitions and implements of war showed Russia was licensed to take out more than \$10,000,000 worth of war materials in the initial installment of the \$50,000,000 order. The licenses included \$2,250,000 for guns, \$1,500,000 for ammunition, and \$1,000,000 for explosives.

Shep Bryan, District Head Visits Asheboro Rotarians

Governor of District Outlines Objectives on Civic Nature.

Shep Bryan, of Dunn, governor of the 188 Rotary districts, made his first official visit to the Asheboro club Friday.

His message was of an official nature. He outlined the beginning and the progress of Rotary since the organization was first set up by some business men in Chicago 32 years ago.

The objects of Rotary have gone far beyond what was contemplated in its early beginning of the organization. At first the chief purpose was fellowship. Men of kindred minds, though of different vocations, met together to fraternize with each other, and to provide for themselves that refreshing and strengthening of spirit that comes from such informal and personal contacts. That purpose of Rotary and that Rotary benefit, is still one of the chief ends of the organization, and will continue to be so as long as Rotary exists, said the governor. That he said is fundamental in its purpose.

But in its actual workings, Rotary has expanded much beyond its original objectives. Concrete projects of community betterment, involving much that is vital in community life and progress, is not comprehended in Rotary objectives and programs. Such for instance, as the cripple children clinic, the defective eye clinic for children, and vocational training for youth, such as the Asheboro club is fostering, illustrate the concrete local objectives of Rotary. In addition to this varied active local program, Rotary International concerns itself with international relations with a view to bringing about a better understanding among the nations toward each other, creating a spirit of brotherhood, and fostering that sort of international fellowship that will make war impossible. The governor declared that it is his belief that for the next thirty years of Rotary life the main objective will be international relations. The Rotary spirit and purpose he believes will have a mighty influence in promoting national good will and the ending of war. Rotary is expanding, and is now world-wide in its scope and influence. As it grows its power for both local and worldwide service will become an ever increasing agency and mighty force for good. The governor's visit to the club was much appreciated and his address was well received. One visitor was present, Jeffrey Ramsour.

At the same time Italy's answer to the Anglo-French invitation to a conference for the withdrawal of foreign volunteers from the Spanish civil war was being delivered to the French and British envoys in Rome.

Britain did not disclose immediately the contents of the reply. Authoritative sources however reported, unofficially, Italy's reply ruled out possibility of a meeting to discuss the withdrawal of volunteers unless Germany is invited. The Spanish government was also reported to sent to Paris, a note claiming the government had been informed that the new Italian interference in the Spanish war would include "gas attacks on Spanish cities of importance." Merchants Settle on Date of Window Shopping Contest

The local Merchants association has set a definite date for Asheboro's first window shopping week, which will be staged by the business people of the town the last week of October. This maiden venture in window shopping is regarded as a forward step by the merchants of Asheboro and will, in all probability, do a great deal toward further popularizing the town as a shopping center.

This idea will give merchants the opportunity of displaying their new fall goods, at the same time, giving the shoppers a chance to see windows filled with attractive types of fall merchandise. The idea is new in Asheboro, but in other cities has brought many visitors to look at the attractively lighted windows by night, and shop next day. Great Britain and France Considering Allowing Arms To Enter Spain.

(By The Associated Press) Paris, Oct. 10 (Sunday)—Sources close to the French foreign office today said a special cabinet meeting on Monday will study French secret service reports alleging new movements of Italian troops into Spain.

The sources declared, positive proof is that 5,000 troops secretly moved from Italy in the past week to fight with the insurgent Spanish forces.

London, Oct. 9.—(AP)—Italy rejected tonight the Anglo-French bid for a three power conference to discuss the issue of Italian volunteers fighting in the Spanish civil war.

The action confronted Great Britain and France with what informed sources called a decision of "utmost gravity." Replying to the joint invitation in which the two countries proposed the conference, Italy refused to enter into any talks unless Germany is invited and attends.

She suggested that non-intervention problems should be continued to be dealt with by the 27 nations non-intervention committee, which has its base in London.

Officials here and in Paris expressed their regret at the action and declared the reply "was not reassuring as to Italy's real plans." Possible Anglo-French steps, according to previous forecasts would include opening the Spanish-Franco frontier to the flow of men and munitions and lifting of Britain's embargo on Spain.
