Sunshine Invades Wall Street; Prices at New High, Some Gain \$15

A. P. Survey Shows Jumps Range From \$5 Up To \$15

Sixty Leading Issues in Biggest Weekly Gain Since January, 1934.

U. S. Steel Dividend Stocks Have Picked Up 19 Percent of Loss in Big Slide of Summer.

New York, Oct. 30.—(AP)—The biggest stock market advance in nearly four years brought sunshine into the deep canyons of Wall street this week after more than two months of almost utter gloom.

Prices of shares of several of the leading corporations at the close of trading were from \$5 to nearly \$15 above the levels of a week ago.

Today's session was not in itself very inspiring. Prices floated about with little progress in either direction, but when compared with levels of last Saturday, recorded a striking recovery.

The Associated Press average of 60 leading issues showed an advance of \$3.90 for the week to \$50.16, the biggest gain since the third week of January, 1934.

At this level, prices had recovered 19 percent of the loss suffered in the big slide from mid-August to October 18.

Tuesday brought news that the directors of United States corporation had ordered a dividend of \$1 a share on common stock, the first in five and one-half years.

N. C. State Whips Boston Team 12-7

Eddie Berinski Scores Both Touchdowns; Game Played At Newton.

Newton, Mass., Oct. 30.—(AP)—Sore jawed Eddie Berinski, called "little buzzer" by his North Carolina State teammates because he sounds the signal to get under way, scored both touchdowns to give the southern Wolfpack a 12-7 victory over Boston college's powerful but sluggish forces today before a crowd of 12,000.

That speedy right half back, a senior from New Jersey, was kept out of the starting line up by the after-effects of a recent extraction of a tooth. When Boston college scored early in the first, he was rushed into action. He moved the invaders up to 6-7 in the second by racing 42 yards from his own 30 and then completing a 28 yard pass from Art Rooney, the N. C. State passing expert in the Boston end zone.

Speed Session Plans

Farm Proposals Will Have Right-of-way; No Hope Of Completing Work.

Washington, Oct. 30.—(AP)—Administration leaders in Congress were working against the time in an effort to get the President's 5-point program ready for debate when the special session opens November 15.

House and senate agriculture committees are the busiest, for farm legislation has the right of way. Members interested in other bills, also are returning early.

Even if all the major bills should be ready at the start of the special session—and some will not—many legislators expressed belief the entire program cannot be enacted before the regular session in January.

The House agriculture committee is completing a bill to limit acreage planted in principal crops, allowing farmers to raise and market as much as they can on the allotted land.

Chairman Jones, (D-Tex.) said the measure also would continue the present soil conservation benefits.

There have been unconfirmed reports that revisions may be offered to the wage and hour bill, empowering a board to establish and interstate industry, a work week of not less than 40 hours and a minimum wage of not more than 40 cents an hour.

Many southern Congressmen are opposed to it, contending it would retard industrial development in the South.

Roosevelt Cites Peace Proposals Of Both Americas

Tells "Flying Deputies" To Spread Treaty Religion Throughout Continent.

17,000 Mile Air Trip

Representatives of Peoples Mandate Will Visit All Latin Americas.

Hyde Park, Oct. 29.—(AP)—President Roosevelt urged "flying deputies" of the People Mandate committee today to urge on their 17,000 mile all-America peace flight, that treaties are not scraps of paper but are meant to be kept.

The President expressed the belief that progress in the Americas towards peace during the last four years has had a very good effect in other parts of the world. He said the effect had been perhaps greater than would be realized from the attitude of some other countries.

The people, all over the world are beginning to say to themselves, the President asserted, that in the western part of the world is the most interesting thing that has ever happened—a whole continent has abolished war and has provided machinery so any question between nations may be peacefully settled.

The Americas also, he said, have set an example to the rest of the world in treaty adherence.

The President received the Peoples Mandate group a few hours before representatives of the organization set out to urge republics in Latin America to ratify the anti-war commercial treaties that came from the 1936 South American conference.

Commander Says Evacuation Order Came From General Chaing-Kai-Shek.

Too Valuable to Spare

Japs Enter Warehouse Ten Minutes After Chinese Sprint 20 Yard Lane.

(By The Associated Press) Shanghai, Oct. 31.—(Sunday)—China's "Lost Battalion" escaped its besieged warehouse early today, running a blazing machine-gun gauntlet to sanctuary in Shanghai's international settlement.

At the height of the furious battle that sprayed shells over foreign owned areas of central Shanghai, 377 Chinese dashed down a 20 yard opening to safety.

They were disarmed immediately by British troops and interned for duration of the conflict.

Twenty-five were gravely wounded. Chinese said they had left behind 200 dead, who "fulfilled their pledge to defend the warehouse until death" in face of the Japanese ultimatum of surrender or die.

Ten minutes after the last survivors left the crumbling warehouse, the Japanese hoisted the Rising Sun flag over the site of the most dramatic incident of the conflict.

Col. Chang-Yuan, commander of the battalion, a part of General Chaing-Kai-Shek's 88th division, was the last to reach safety of foreign protection.

He said the evacuation was on General Chaing's direct order to leave because the battalion "was too valuable to spare." With them, the escaping Chinese brought national and battalion flags that had floated above the warehouse through the four days of pounding attacks since the Chinese withdrawal from war-ravaged Chapei, across the Soochow creek from the international settlement.

Shanghai, Oct. 30.—(AP)—The British authorities reported tonight that the famous Chinese "lost battalion" in the devastated Chapei district was laying down its arms and soon would come into the international settlement for sanctuary.

The reported decision of the battalion to abandon its stand against the advancing Japanese was said to be the result of urgings from consuls-general, who sought to end a situation of grave danger to the international area.
