## M. P. Conference Adopts Plan For Church Mergers

Financial Program Divided Into Sections For Next Fiscal Program.

### High Point Funds

Endorse Fellowship Crusade As Means to Quickened Life Of Church Members.

The Commission on Methodist co-operation in sending their report to the various branches of the Methodist dominions in the state yesterday suggested the following methods of co-operation leading to a complete understanding in the matters of the merger soon to be effected in the churches.

Interchange of pulpits and united effort in revival campaigns, elimination of local effort to prevent antagonism and wasted energy, and the establishing a permanent Board of Mediation, Committees representing each branch of the church have been appointed to work out such methods and programs as will be advantageous in the further efforts along all lines leading to th unification.

The report of the committee on Stewardship presented by Dr. N. G. Betha adopted by the conference declared that the stewardship of individual responsibility in money had been the main theme of all stewardship preaching and teaching, and that henceforth the church give more thought to preaching and practicing the Stewardship of all Life, rather than to the one phase of the stewardship of moneys.

Dr. A. G. Dixon, superintendent of the Children's Home, High Point, N. C. brought his report at 10 o'clock. In connection with his report, eighteen members of the Home and Family were introduced. Certain facts relative to their membership in the family were given by the superintendent. The girls' sextet from the Home rendered two selections.

The superintendent's report shows improvement over last year, and that at present the Home is meeting all obligation without incurring a deficit.

In outlining the financial program of the conference for next year the budget was divided into sections and is to be paid according to the following schedule; Annual Conference Expense, January and February; High Point College, March and April; Church Extension, May and June; Annual Conference Debt Retirement July and August; Superannuates, September and October.

Dr. G. I. Humphreys, President of High Point College, told the conference this morning that the indebtedness has been materially reduced, and the assets have increased during the present administration to the extent of more than \$150,000.

The present enrollment this year said to be 126 per cent larger than the peak reached last year. In addition to American students enrolled there are 3 from South America, 1 from Porto Rico and 1 from Turkey. The student body is divided among 19 different religious denominations with Methodism furnishing 56 per cent of the total.

The "Fellowship Crusade," which is best described in the words of a special committee to be "a concerted movement throughout the Methodist Protestant church to quicken the life of the members and to provide new outlets for loyalty and service" was heartily endorsed by the conference. The committee recently appointed by President Andrews, divided the program of the crusade into three phases namely, the quickening of the spiritual life, renewed emphasis upon religious literature, and the new outlet for loyalty and service in financial support. The adoption carries the authorization of a campaign.

Paris, Nov. 6.—(AP)—A member of the Duke of Windsor's suite said today that the feeling within the Duke's entourage is that the United States officials took a "lukewarm attitude" towards his supposed American tour and that that was one of the reasons for deciding to "postpone" it.

Close advisors of the former King of England was said to have felt there was a "lack of enthusiasm" on the part of Washington officials. This coupled with the American labor leaders' criticism made it advisable to call off the journey.

A spokesman for the American embassy said that Ambassador William C. Bullitt already had called in the Duke and Duchess to say good-bye before the postponement decision was made known.

Neither the site of the possible meeting, nor the participating nations were designated, however leaving the door open to Japan to express her wishes on the matter.

The new peace bid, expressing regret at Japan's absence from Brussels and of "Japanese misgivings" at the presence in Brussels of many powers with varying interests in the far East, expressed such misgivings could be allayed. The note expressed hope of a quick reply.

Delegates to the Brussels conference expressed belief that Japan would find it hard to reject their plea if peace with China is really her intention.
