A Washington correspondent of the New York Times seems to have gotten a pointer of North Carolina Republican politics. The following will be found interesting reading:

"There does not seem to be any doubt that the Harrison 'machine' in North Carolina is to be set up on the remains of the old Sherman 'machine,' and that it is to have all the characteristics of the old Sherman affair and some of the features of the President's Administration. There is no end to the talk in North Carolina about them. They appear to be sold, and if they do not make some-thing out of it, the rumors will be confirmed. Internal dissension is a

fact in the history of Asheville. Big 22 gets there, Eli! and be convinced that the statements are not merely facts undeniable.

been "run" by Mott in the western district, will it is expected, be made in the district over which White has recently been appointed in the eastern part of the State. Mott and Russell are said to have him as tightly in their grasp as they have Eaves. The latest report from Eaves's office is that each of the persons appointed Deputy Collectors are required to pay \$200 to cover expenses of getting Eaves appointed. There are sixteen deputies, so that the net sum of \$3,200 will be collected by the new Harrison managers. Some of Mott's friends are admitting that the monopoly of the offices by the Mott family does not look like a desire to extend the party in the State, and that there is danger that it may not meet with unqualified approval.

**STARTLING, BUT TRUE.**

**The Big 22.**

After a sojourn of one year in this glorious climate of North Carolina, has passed the following resolutions, to wit:

To sell all goods, comprising a full and complete line of Clothing, Furnishing Goods, Hats, Trunks, Valises, etc., at 10 per cent. above actual cost;

To select Thursday of each week as Bargain Day, on which day all goods go at net cost.

The success of Big 22 has been most flattering, and to keep the ball rolling goods will be sold cheaper than has ever been offered to the public in the history of Asheville. Big 22 gets there, Eli! and be convinced that the statements are not merely facts undeniable.
