Richmond Pearson, Esq., returned from Raleigh Friday evening. His constituents are all glad to see him back home, and feel that he has made a good and earnest fight for them and their rights.

A few days ago, it was our pleasure to speak, editorially, of the enterprising firm of Baird, Reynolds & Co., and in this issue we present their large and attractive advertisement to which special attention is directed.

There will be a Mass Meeting at the Methodist church to-night, in the interest of Asheville City Mission. The programme will be short and interesting. The public is cordially invited to come.

The jury in the case of the State vs. Wiley Gosnell, charged with murder, at the recent term of the Madison Superior court, after deliberating on Wednesday until Saturday, yesterday returned a verdict of manslaughter.

We are pleased to learn that Mr. E. B. Welles of Marshall will soon make Asheville his future home, and will establish here a factory for the manufacture of Headwick and Welles' Tobacco Flue. Mr. Welles is a pushing, enterprising man and will be a valuable acquisition to our business community.

In our report of the proceedings of the city council Friday night, we stated that Mr. Mike Kelly had been employed to take charge of the work of putting down the curbs, &c. In making this statement, we committed an error, and did Mr. W. L. Murray, street superintendent, an injustice. Mr. Murray has charge of all the work above referred to, Mr. Kelly only being employed under the street superintendent.

"Faith and Works."

W. W. Bays, pastor of the M. E. church, South, will preach on the relation of "Faith and Works," at the Methodist church this morning at 11 o'clock.

Asheville City Mission.

College Street Mission Chapel is the name of a new Methodist church, just completed, on College street, near the foot of the mountain. The foundation was laid last Wednesday about one o'clock, and the structure was completed yesterday evening. It is a frame building with seating capacity of about one hundred, with a vestibule, bell and bell. The work was supervised by Dr. Bays in person, and is a much needed institution in that section of the city.

The Railroad Deal.

The news of the deal by which the B. & O., is said to have passed into the control of the S. A. S. indicate very naturally created much concern and no little excitement in Baltimore. The road is very important to that city. It is the off-spring of the commercial enterprise of Baltimore, and almost every citizen of the State took a pardonable pride in its substantial prosperity. The newspapers of the city used every effort to secure either an official declaration of the deal in order to satisfy the minds of the people, but without avail. Mr. Garrett was sought on all sides for information on the subject, but to all inquiries he made the stereotyped reply that he had nothing to say.

The Sun, in the absence of exact information, ventures no editorial opinion on the subject. The American questions the sale of enough of the stock of the road to convey a controlling interest, but inclines to the belief that a gigantic deal has been accomplished.

Another Habeas Corpus.

Last Thursday an officer of the law from Grange County Tennessee appeared at Warm Springs, Madison County, and arrested a man named McDonald upon a warrant issued by a Justice of the Peace in the State of Tennessee, and was in the act of transporting the prisoner across the State line, when the citizens protested against his being carried out of the State unless done according to law. Friends of the prisoner took an interest in the case and applied to Judge Graves at Marshall for a writ of habeas corpus, which was granted and executed. Upon a hearing of the case the prisoner was discharged on the ground that the arrest was void and his detainer illegal.

In the meantime the Tennessee officer applied to a Justice of the Peace in this State for a warrant, upon which to predicate extradition proceedings, and upon which he was committed to the jail of Madison County to await the ordinary process of law.

County Schools.

STATE OF NORTH CAROLINA, (Department of Public Instruction, Raleigh, N. C., March 3, 1887.)
Mr. Jas. W. Stone, Co. Sup't., Asheville, N. C.

Dear Sir—Yours of 28th ult. has been received. By examining sections 2075 and 2087 of the school law, you will see that school committees are bodies corporate for the purpose of receiving, holding and controlling sites and school-houses "in the interests of public schools and the cause of education." This control extends to the care and custody of books, apparatus and all other property that belongs to their respective districts.

Church and State are separate in this country, and as such it is not contemplated that public school houses should be made regular places of meeting. If this were allowed, the tendency would be to foment denominational strife and damage the school interests. While this is so, it is customary in every neighborhood for the committee to allow the temporary use of school-houses for public worship. This I think they may do without violating the law, but in doing so they must see, now right of the fact that they are responsible for the safe keeping of not only the house but also of all books, charts, maps and other school property. It is difficult to lay down any rule by which committees should be guided in this matter, but I venture to suggest that they ought to consider the objections of even a minority of the citizens of the district. The committee, as committees, are to have no other purpose than to further the public school interests. They must therefore avoid any line of conduct that will breed dissension among the patrons of the school. Especially during the school term, they must forbid anything that would interfere with the orderly and regular exercise of the school. Within limits above laid down, I think committees may grant the temporary use of school houses for public worship.

Yours truly,
S. M. FOWLER,
Supt. Pub. Ins.

ONE STANDARD.

Why Should Boys and Girls be Judged so Differently? Is Not it Wrong For Boys to Do That Which is a Sin.

Josiah Allen's children have been brought up to think that sin of any kind is just as bad in a man as in a woman; and any place of amusement that was bad for a woman to go to was bad for a man.

Now, when Thomas Jefferson was a little fellow, he was bewitched to go to circuses, and Josiah said: "Better let him go. Samantha; it hasn't no place for wimmin or girls, but it won't hurt a boy."

Says I, "Josiah Allen, the Lord made Thomas Jefferson with just as pure a heart as Tirzah Ann, and with bigger eyes and ears, and if Thomas J. goes to the circus, Tirzah Ann goes too."

That stopped that. And when he was bewitched to get with other boys that smoked and chewed tobacco, and Josiah was just that case, that he would have let him go with 'em. But says I:

Josiah Allen, if Thomas Jefferson goes with those boys and gets in church to tobacco, I shall buy Tirzah Ann a pipe.

And that stopped that. "And about drinkin'," says I, "Thomas Jefferson, if it should be the will of Providence, to change you into a wild bear, I will chaun you up, and do the best I can for you. But if you ever do it yourself, turn yourself into a wild beast by drinkin'. I will run away for I never could see it, never! And, I counted if I ever see you hangin' round bar rooms and taverna doors, Tirzah Ann shall hang too."

Josiah argued with me. Says he: "It doesn't look so bad for a boy as it does for a girl."

Says I, "Custom makes the difference, we are more used to seeing men. But," says I, "when liquor comes to work to make a fool and a brute of anybody, it don't stop to ask about sex, it makes a wild beast and idiot of a man or a woman, and to look down from heaven, I guess the man looks as bad layin' dead drunk as a woman does."

Says I, "Things look differently from up there than what they do to us—it is a more sightly place. Add you talk about looks, Josiah Allen, I don't go on clear looks, I go on principles. Will the Lord say to me in the last day, Josiah Allen's wife how is it with the soul of Tirzah Ann, as for Thomas Jefferson's soul, he ain't a boy, it hasn't no account? No! I shall have to give an account to Him for my dealings with both of these boys, male and female. And I should feel guilty if I brought him up to think that what was impure for a woman was good for a man. If a man has a greater desire to do wrong—which I won't dispute," says I, "lookin' keenly into Josiah, he has greater strength to resist temptation. And so, says I, in mild accents, but firm as old Plymouth Rock, 'if Thomas Jefferson, hangs, Tirzah Ann shall hang too!'"

I have brought Thomas Jefferson up to think that it was just as bad for him to listen to a bad story or song as for a girl, or worse, for he had more strength to run away, and that it was a disgrace for him to talk or listen to any stuff that he would be ashamed to have Tirzah Ann or me to hear. I have brought him up to think that manly things consist in having a regard for his mother, and his father, and a waverin' and slang phrases, and a knowledge of questionable amusements, but in layin' hold of every duty that comes to him, with a brave heart and a cheerful face in holdin' to right the wrong, and protect the weak, and makin' the most and the best of the mind and the soul God had given him. In short, I have brought him up to think that purity, and virtue are both feminine; and masculine, and that God's angels are not necessarily all the ones.

THE GREAT DEAL!

CONSIDERABLE FEVERISHNESS IN RAILROAD CIRCLES.

And Developments Anxiously Awaited.

More Earthquake in France.

Paris Shaken.

PARIS, March, 12.—A sharp shock of earthquake was felt throughout Marseilles yesterday. For a time there was a gradual panic, and the hotels were emptied of their occupants in a very few seconds. The people were, however, soon reassured. It is found that many walls of the buildings in various parts of the city were cracked by the quake.

MONTRE CARLO. A recurrence of earthquakes at different points in Rivera, has induced a fresh rash of frightened pleasure and health seeking tourists hither to from Nice, Cannes, Mentone and San Remo. All the hotels are again crowded.

A Gale.

SANDY HOOK, N. Y., March 12.—Cantourary northwesterly signals have been displayed for the last 45 hours and it has been blowing pretty high from that quarter. At 10 a. m. the wind was northwesterly and blowing 36 miles per hour; weather clear. There is a moderate sea running, dotted with white caps. Even if the wind moderates a little, which is expected, Yachts, if on time, will have an excellent start, as the strong ebb tide will be in their favor. The wind which had moderated 25 miles per hour, increased then at a rate of 32 miles.

Amicably Adjusted.

READING, PA., March 12.—During the past week all the mills of Brooks Iron Co., at Birdsboro, have been closed, because of a misunderstanding of one man with the firm. Geo. Brooks, President of the Company, issued an address to the men, a visiting them to leave the Knights of Labor, saying its laws are more tyrannical than those of most despotic government organizations. He said it was not only doing them no good, but a great injury, and was depriving them of work and wages. To day an amicable adjustment was made and all mills will resume work on Monday. The men have lost \$6,000 in wages by the week's idleness.

Railroad Matters.

NEW YORK, March 12.—There was a long conference this afternoon between the principal members of the Richmond Terminal Executive Committee, but all information regarding the outcome was refused. It was stated, however, that the stock would all be taken, and the syndicate in place of the Richmond Terminal, but composed mainly of its directors, would secure control. President Sully was incorrectly reported as being in Washington, while he was present at the conference above mentioned. He refused to make any statement on the matter to-night. The matter still stands unchanged from yesterday, option having been extended to afford time for necessary arrangements regarding the Trust stock to be completed before the transfer can be made.

Sued for Damages.

PHILADELPHIA, PA., March 12.—Criminal proceedings were today instituted by A. H. Hoeckley, city editor of the Press, against A. K. McClure, as editor, and Frank McLaughlin, as proprietor, of the Times, for the publication of an article in the latter paper yesterday, asserting that Hoeckley received pay from gamblers, as consideration for withholding attacks in the Press upon gambling houses. Hoeckley also instituted civil proceedings against the Times Publishing Co., for damages.

Cotton Report.

NEW YORK, March 12.—The total visible supply of cotton for the world, 2,983,252; of which 2,437,362 is American, against 3,062,843, 2,547,143 respectively. Last year the receipts all inferior towns is 31,730. The receipts from plantations is 43,924. The crop in sight is 5,001,273.

Embezzler Caged.

NEWARK, N. J., March 12th.—Frank M. Scott, cashier of the publishing firm of Webster & Co., of New York, was arrested at his home here to-day, for embezzling \$20,238 from the firm. He was committed to jail, in default of \$40,000 bail.

\$2,000 Damage for Libel.

LONDON, March 12.—Capt Smith of the ship Thirlmere, has recovered from Henry LaBouchere, \$2,000 damages for a libellous statement published in the London Truth, to the effect that Captain S's ship was a floating grog shop, and imperting to his inability a collision between the Thirlmere and another vessel, and consequent loss of life.

Cotton Compress Burned.

NEW ORLEANS, La., March 12.—Fire broke out this morning, in the commercial cotton press, situated in the square bounded by Chipman, Thomas, Richard and Market streets.

The fire originated near the press room. The press is divided into three yards, to one of which the fire was confined. The compress was destroyed. It was valued at \$75,000 and was insured in foreign companies.

The cotton destroyed belonged to Lehman, Stern & Co., and was insured in various companies. The total loss is estimated at \$150,000. The press is owned by Smith & Goldsmith.

Anarchists.

CHICAGO, ILL., March 12.—Sheriff Watson said at noon, to-day, that it had been decided to not permit Oscar Nebee to attend the funeral of his wife, to-morrow. It has been decided by the authorities that the presence of Nebee would only tend to incite disorder on the part of anarchists.

Advices of the police department are to the effect that fully ten thousand people, who sympathize with the red flag, will parade to-morrow and that these people once excited, might commit some act which might cause an outbreak, and, under the circumstances, they have finally decided not to complicate matters by having one of the condemned anarchists in their midst.

Stock Market.

NEW YORK, March 12.—The first prices at the stock exchange this morning showed irregular changes from last evening's final figures, which ranged up to 1 per cent either way. The market was quiet in early dealings and inclined to firmness, slight advances being recorded in the most stocks, but it soon became decidedly weak and material declines were established over the entire list. Weakness was accompanied by activity and Richmond & West Point became special features, dropping 2½ per cent, while losses in the remainder of the list were from 1 to 1 per cent. The decline was checked towards 11 o'clock and a fractional rally followed; Richmond & West Point recovered 1 per cent. At 11 o'clock the market is moderately active and firm at slightly under the opening.

MORE TROUBLE.

ANTICIPATED AMONG THE STRIKERS.

The Reported Movements of Armour & Co., Confirmed.

MARKET REPORTS AND OTHER IMPORTANT NEWS.

Trouble Anticipated.

MILWAUKEE, Wis., March 12.—A special from Marquette says: The crisis is drawing near at Sault station where the strikers still have possession of the contractors' camps. Provisions are running out and the strikers threaten to raid the supply stores. The Sheriff has succeeded in preventing violence thus far. The contractors are determined to break the strike to-day by peaceful means if they can, or by force if they must. Should the strikers attempt to destroy the property, there will be some killing done. It is said that half of the men are willing to return to work, but the camps are full of loafers from Detroit, who are inciting men to violence. A number of arrests will follow the strike. The situation is critical this afternoon.

Statement Confirmed.

SAN FRANCISCO, March 12.—A dispatch from Chicago, containing the statement of Webster, of Armour & Co., that the firm had decided not to construct cotton seed oil mills at different points throughout the South, as the firm had arranged with cotton seed oil mills to furnish their oil, was shown by an associated press reporter, to Phil D. Armour, last night, who is here on a pleasure trip. He stated in answer to questions, that messages had passed between him and Webster, regarding the matter, and ended by saying: "Webster can be credited as authority on matters concerning our interests."

Frey Confesses.

CHICAGO, ILL., March 12.—The Times this morning, says—Warren Frey, of the county infirmary has confessed. He has, it is stated, seen the State's attorney, and, under promises of immunity, has signified his willingness to tell all that he knows.

A few days ago, he had a consultation with some of his friends outside of the ranks of the hoodlums and they told him that he must go to the prosecution and make a clean breast of it. The pressure from the State's attorney's office was, also, used, and he was finally prevailed upon to make a statement. One of the prosecuting attorneys said last evening, that so far as he was able to form an idea of the outcome of the present investigation, there would be at least eight county commissioners and ex-commissioners and four or five officials, connected with county institutions, indicted for malfeasance and plundering the county.
