WORLD'S FAIR NOTES.

Pennsylvania's Exposition building will cost \$75,000.
The Florida Horticultural Society has asked for three acres in which to show an orange grove and make a fruit display.
Indiana will have a \$100,000 building at the Fair. It will not cost that much, however, as a large share of the material, all of which will come from that State, will be donated.
The general passenger agents of twenty of the railroads entering Chicago have organized a special association for the determination of excursion rates to the Exposition and for arranging facilities for caring for the enormous crowds of visitors to the World's Fair.
The savants and historians of Italy are now deeply interesting themselves in the question of Columbus' real birthplace. Five or six places besides Genoa claim the honor, and among them is Bettola. It is reported that proofs have lately been discovered establishing Bettola's claim, and that the town will erect a monument to Columbus at once, and intends to send an envoy to the World's Fair with these proofs and other historical documents of interest.
There will be not less than 25 restaurants, as well as numerous cafes, in the Exposition buildings. It is the intention of the Exposition authorities to protect visitors from exorbitant charges.
France has asked 25,000 and The Hague 11,000 square feet of space for their picture exhibits alone. Until recently it was thought that the weakest feature of the Exposition would be its fine arts exhibit. Now, however, it is believed that this will be one of the best of all, owing to the fact that European artists recognize in Americans the best purchasers of their work, and they are anxious to take advantage of the exceptional opportunity which the Exposition will offer them to show their paintings to the American people.
The Royal and Imperial Commissioners from Great Britain, Germany and Denmark, who spent a week in Chicago recently, looking into Exposition matters, selecting building sites, making known their wishes, and posting themselves generally on World's Fair matters, departed with most satisfactory impressions, and with the announced determination of making very favorable reports to their respective governments, and of exerting themselves to have them extensively represented at the Fair. At a banquet given at the Palmer house, to the commissioners on the eve of their departure, they spoke in high praise of the prospects of the Exposition.

The severest storm on record occurred last week on the North Atlantic and the English and Irish coasts. Great damage was done to property and many lives were lost.

Peak and Weeble.
A friend of mine had an odd way of mixing her words. Perfectly unconscious of it, she would often make folks laugh. She would speak of feeling "peak and weeble," for weak and feeble, and "castor ill pills," for castor oil pills. But she was weak and feeble until she took that powerful, invigorating tonic, "Favorite Prescription," which so wonderfully imparts strength to the whole system, and to the womb and its appendages in particular. For overworked women, run-down women, and feeble women generally, Dr. Pierce's Favorite Prescription is unequalled. It is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, hysteria, spasms and other distressing, nervous symptoms, commonly attendant upon functional and organic disease. It induces refreshing sleep and relieves mental anxiety and despondency.
