For the information of the public and to correct erroneous ideas on the subject of artificial ice, we give the following facts in regard to the manufacture of ice: Our manner of making it is to distill the water by condensing steam, thus making it absolutely pure. Then passed over charcoal to completely deodorize any remaining traces of impurities, after which condensed water is used in brine chilled below the freezing point, and there it remains until it is frozen as clear crystal and almost as solid as glass. This is alone fit for human use. It lasts one or two days longer than natural ice and has all the additional virtues of the high priced table water of commerce.

CONGRESSIONAL

THE FISHERIES TREATY DISCUSSED IN THE SENATE.

Almost the Entire Day, in the House, is Consumed in a Political Debate.

By Telegraph to the SUN. SENATE.

WASHINGTON, D. C., June 11.—Among the bills reported from committees and placed on the Calendar, was Senate bill to withdraw public lands in Florida from all but homestead entries; also, the post office and District of Columbia appropriation bill, to be called up to-morrow.

The Senate committee on tariff to-day heard the views of cotton bagging makers, on tariff. The committee was told that cotton bagging manufacturers had been established with imported machinery, upon which a duty of 40 per cent had been paid, and that the capacity of these establishments were now fully one hundred per cent in advance of the demand for bagging, and that a reduction of the present rates could be endured only in case jute butts were made free.

Competition in India, on bagging is so fierce however that if it were made free, as proposed by the Mills bill, the factories would suffer speedy ruin. It was further represented that there is no demand from planters for free bagging, as the bagging, well as the iron-hooping, on cotton bales is all weighed and paid for as cotton, and the planter in this way receives more for his bagging than he pays for it.

The resolution offered by Morgan, last Thursday, as to the fisheries treaty was taken up and went over till to-morrow.

On motion of Sherman the Senate proceeded to the consideration of the fisheries treaty was taken up and went over till to-morrow.

On motion of Sherman the Senate proceeded to the consideration of the fisheries treaty, in open executive session, and was addressed by Gray, in support of its ratification.

At the close of Mr. Gray's speech, Mr. Hoar obtained the floor, and further consideration of the fisheries treaty was, on motion of Sherman, postponed till Monday the 25th of June. Adjourned.

HOUSE. WASHINGTON, D. C. June 11.—Under call of States the following were introduced and referred:

By Dougherty, of Fla., a resolution reciting, that at this time there seems to be no probability of the passage at this session of Congress of the Mills' bill. That the large surplus in the Treasury, which is daily accumulating is to the detriment of general business, and tends to the contraction of the circulating medium of the country. That the uncertainty as to whether the Mills bill, in its present shape will ever become a law, is almost a certainty, at least not in time to give the relief demanded.

and instructing the committee on Ways and Means to report to the House the following bills: First, Repealing all the laws providing for internal revenue taxation, and removing all of the said tax except that now collected upon spirits distilled in the whole or in part from grain, and upon malt liquors.

Second, Providing for the levy and collection of a graduated tax upon all incomes of persons, corporations, associations and trusts, of \$5,000 and upwards per annum; the proceeds of said income tax to be devoted exclusively to the payment of pensions.

Third, Providing that all articles or products not manufactured or produced in the United States shall enter ports of the United States free of all import duty.

Mr. Grosvenor, of Ohio, offered a resolution assigning July 5, 7, 9, 10, 11 and 12th for the consideration of general pension legislation; precedence to be given to arrears, limitation, repeal, and dependent pension bills.

The resolution was accompanied by a long preamble, to the reading of which (as being a stump speech) Mr. Springer, of Ills., objected. Thereupon Grosvenor withdrew the resolution, stating that he would get the preamble into the Record, in his speech.

The House then proceeded to the consideration of District business, the first bill called up being that to increase the police force of the District of Columbia.

Grosvenor took the floor upon the bill and made good his threat of a few minutes previous, to get his preamble into the Record, in the shape of a speech. He started a general political debate which ignored entirely the business before the House, for the greater part of the day.

attack upon Cox, but the latter gentleman replied in a more good natured manner, although he also indulged in some biting personal.

Finally the House got back to the District of Columbia business, and passed a number of bills local to the District. Adjourned.

Cotton Burned.

By Telegraph to the SUN. NORFOLK, VA., June 11.—Fire broke out shortly after midnight in the building belonging to the Boston Wharf and Warehouse company and formerly occupied by the Chesapeake & Ohio railroad company. The building and contents, including two hundred and fifty bales of cotton, were consumed. The British bark Verona, of Quebec, lying at the wharf, had her masts, rigging and sails badly damaged by the fire. Total loss about \$30,000. The cotton was part of the cargo of the British steamship Kimberly. The loss is covered by insurance. Reynolds Bros. of this city had 650 bales of cotton stored in warehouse, which was insured. The total loss is estimated at \$60,000.

Democrats Caucusing.

By Telegraph to the SUN. WASHINGTON, D. C., June 11.—The democratic caucus announced for to-night was not called at the instance of the democratic members of the ways and means committee, but at the demand of a number of democrats who are dissatisfied at the slow progress made with the tariff bill. The object is to devise means for restricting five minute debate. Just how that is to be done is not clear to most of the democrats, but various plans are under consideration; one of which contemplates an agreement among democrats to remain silent and take no part in the debate, letting the republicans do all the talking. Probably other suggestions will also be made to the caucus.

Another Treasurer's Books Short.

By Telegraph to the SUN. ST. LOUIS, Mo., June 11.—Ex-Treasurer Harry Carter has been discovered to be about \$8,000 short in his books, and has turned over his property to his bondsmen. At the last election, Carter, who had been treasurer for two terms, was elected city auditor. The discovery was made in an attempt to make a settlement with Carter. He claims that the shortage is due to a mistake in making entries. An expert book keeper is making an examination of the books.

New York Cotton Market.

By Telegraph to the SUN. NEW YORK, June 11.—Hubbard, Price & Co's report says: The market opened this morning some few points higher and for a short time apparently quite firm. An advance, however, created a desire to realize and with some long cotton coming out, a small reaction took place, that notwithstanding a fair decrease of offerings sent values off again and left rates at the close 1 to 3 points above Saturday's quotations.

More Favorable Reports.

By Telegraph to the SUN. WASHINGTON, D. C., June 11.—The following bulletin was issued at 9:30 this morning, signed by Dr's O'Riley, Matthews, Byrne and Yarrow: "9 a. m.—General Sheridan has had a fairly good night coughing but little and expectorating without difficulty. The pulse indicates satisfactory heart action. Breathing is still irregular. The improvement in appetite continues.

Washington Notes.

WASHINGTON, D. C., June 11.—The bonds offered to-day aggregated \$207,200. Acceptances \$400, four per cent., registered at \$127. Senate committee on Judiciary, to-day further considered the nomination of Melville W. Fuller, to be Chief Justice, but without result. The meeting continued nearly half an hour after the Senate had assembled, and the case was then, on motion of Mr. Vest, postponed for two weeks.

The Emperor Worse.

By Cable to the SUN. LONDON, June 11.—A Berlin correspondent of the St. James Gazette, telegraphs that the Emperor is distinctly worse and has lately suffered severe pains. The correspondent also says that a hole has been discovered between the wind-pipe and gullet, and the taking of food is thereby made dangerous.

Messrs. Fitzpatrick Bros., 26 North Main street, paper hangers and painters, have one of the most elegant and attractive lines of wall paper that has ever been exhibited in this city. Every shade and design, from the cheapest to the most costly, can be found at their establishment. In addition to this, they keep constantly a full and complete assortment of paints, oils, varnishes, and painters supplies generally. Parties wishing anything in their line would do well to see these gentlemen before buying elsewhere. m2

A Negro Rape Feind Lynched.

By Telegraph to the SUN. EVANSVILLE, IND., June 11.—At Henderson, Ky., 12 miles below here, at one o'clock this morning, James Foster, a colored man, was taken from jail by a mob and hung. Foster was arrested Tuesday morning at the instance of John Howard, charged with criminal assault upon the latter's little 8 year old daughter, ten miles from Henderson in the country. Foster, on being arrested, strenuously denied his guilt, but the most conclusive evidence was found.

New York Stock Market.

By Telegraph to the SUN. NEW YORK, June 11.—The bearish feeling in the stock market so prominent on Saturday, became more pronounced this morning, and London came in as seller which added to the prevailing dissatisfaction with the situation. London sold St. Paul, Louisville & Nashville, Erie and Reading, while traders, and the bears jumped upon the market and the very largest blocks of short stocks were put out, bringing with them heavy slices on long stock also. The pressure was specially severe against the grangers and St. Paul on particular unexplained weakness, in preferred stock, making the proposition that reported the new issue of securities is preferred. But the movement extended to grangers of the forenoon business was the largest for some weeks outside of the grangers. The Union Pacific, Reading, Kansas and Texas and Manhattan were notably weak, and late in the day dropped five per cent in the last mentioned stock checked, which seemed in progress and brought on a renewal of selling at first prices, were heavy, though only small fractions below Saturday's closing figures, but later prices yielded rapidly. There was no break in the decline until near noon when all became more quiet. Business done, showing a decrease until the last hour when weakness in few stocks again started the selling and further losses were made over the entire list. The market closed fairly active and weak at the lowest prices of the day. San Francisco preferred was the only strong stock, and it stands alone in showing an advance this evening. Its gain being one per cent, but St. Paul preferred lost 3%. Burlington & Quincy, 2 1/8, Northwestern, 1 1/8, Rock Island & Kansas and Texas, 1 1/8, Omaha, 1 1/4, Union Pacific, 1 1/4, and Manhattan, 5 1/2. Sales aggregated 293,000 shares.

Even the Twelve Apostles are being bet upon in these degenerate days. A young fellow of Athens, while in company with some friends, started a discussion on scriptural matters, and wound up by offering to bet his hearers \$25 that none of them could name the Twelve Apostles. When the offer was reduced to \$5 it was eagerly accepted, but after repeated trials it was found that not one of the numerous circle could get beyond ten, and only one succeeded in reaching that number.

A curious calculation has been made giving the work of the heart in mileage. Presuming that the blood was thrown out of the heart at each pulsation in the proportion of 69 strokes per minute, and at the assumed force of 9 feet, the mileage of the blood through the body might be taken at 207 yards per minute, 7 miles per hour, 168 miles per day, 61,320 miles a year, or 5,150,880 miles in a lifetime of 84 years. The number of beats of the heart in the same long life would reach the grand total of 2,869,776,000.

Some German scientists who have made a personal investigation of the quality of Indiana limestone and clay, suitable for the manufacture of Portland cement report that the quality surpasses their expectation. Their tests show that cement manufactured from material found near Indianapolis is superior to that manufactured in Germany and now largely imported into this country on account of its excellent quality. Cement which costs \$1.25 per barrel to make in Germany can be made in Indiana for 83 cents.

Henry Robinson, of Concord, N. H., has recently been presented with a small hair trunk, thickly studded with brass nails, which once belonged to Daniel Webster. The trunk was found in Webster's office after his death, locked, and so little was thought of it that it was left in that condition until it came into the hands of Mr. Robinson. When opened it was found to contain a lot of valuable law papers and mementoes, in the shape of letters from distinguished men of that period, an account book and a pocket-book containing several bank bills bearing date 1828.

The average Georgia editor is feasting his eyes upon and whetting his already voracious appetite in preparation for the blackberry crop, which looks quite promising. It has been said that "every dog has his day." and if the blackberry, plum and picnic season is not the editors' day, then we must confess that we don't know anything about it. We took a walk (to escape a creditor that we saw coming up the street) the other day and viewed the blackberry patches o'er, and a promising feast it is; great large red berries were upon the briars in profusion, and we have promised ourself a feast for the gods before long.—Vienna (Ga.)
