MANUFACTURED ICE.

For the information of the public and to correct erroneous ideas on the subject of artificial ice, we give the following facts in regard to the manufacture of ice: Our manner of making ice is to distill the water by condensing steam, thus making it absolutely pure. Then passed over charcoal to completely deodorize it and any remaining traces of impure matter, after which cans filled with it are used in brine chilled below the freezing point, where it remains until it is frozen as clear crystal and almost as solid as glass. This is alone fit for human use. It lasts one and longer than natural ice and has all the medicinal virtues of the high priced table ice of commerce.

CONGRESSIONAL.

WHAT WAS DONE YESTERDAY IN THE SENATE.

Enquiries as to the Recent State Election in Louisiana.

By Telegraph to the SUN.
SENATE.

WASHINGTON, D. C., June 12.—Chandler offered a resolution referring the credentials of Senator Gibson, of Louisiana, for his new term, to the committee on privileges and elections, instructing that committee to inquire into all the facts of the Senatorial elections and to ascertain and report whether or not at the recent State election in Louisiana, which included the election of State legislators, the 136,746 votes returned for the candidate of the democratic party for Governor were actually cast; in view of the fact that at no previous election had the vote for the candidate of that party exceeded 88,794—and why in the parish of Madison 3,530 votes were cast for one party and none for the other, in East Feliciana 2,276 to 5, in Morehouse 1,584 to 14, in Onachita 2,994 to 5, in Sabine 1,441 to 2, in Tensas 4,627 to 113, with similar returns from other parishes; also to ascertain and report whether or not at such State election there was any violence, intimidation, or fraud, that prevented a fair election, and whether false returns were made and counted.

In case the committee shall conclude that there were illegalities, frauds, false canvasses and false returns, so extensive, and systematic in their character as to show a deliberate plan to carry the election without regard to the votes actually cast, and to choose the Governor, State officers and State Legislature by such illegal, false and fraudulent means, then the committee is instructed to proceed further and inquire and report whether the Legislature was actually and duly elected by the people of Louisiana, or was in fact solely the creation of returning and canvassing officers, and whether the State of Louisiana had on the 22nd of May 1888, the day of Senator Gibson's election, a republican form of government, including a Legislature entitled to choose a United States Senator. Laid over till to-morrow.

The resolution offered yesterday by Mr. Stewart calling on the Secretary of the Treasury for a statement of offers and purchases of bonds since April, 1888, with names, etc., was taken up and made the occasion for an attack upon the Treasurer.

Cockrell moved to amend the resolution so as to insert after the words names, "other than private persons."

Stewart argued against the amendment. He expressed the belief that some persons had a secret advantage in the matter; that they "dealt from the bottom," and that they "packed the cards," and he wanted to know who these "secret partners of the government" were.

Beck, Cockrell, Gorman and George replied the insinuation, which they found in Stewart's resolution, and Stewart insisted that there was something which was sought to be covered up and he wanted to find out what it was.

A motion to refer the matter to the finance committee failed and the resolution went over until to-morrow.

The bill to amend the inter-State commerce laws was taken up, and Cullom took the floor with a long and carefully prepared speech on the explanation and advocacy of it.

At the close of Cullom's speech, the Senate proceeded to the consideration of the fortification appropriation bill, and was addressed by Dolph, on the subject of coast defenses.

The bill went over without action and the District of Columbia appropriation bill was taken up. The only discussion had upon this bill was on the amendment reported by the committee on appropriations striking out the provision in the House bill which requires the placing under ground of all telegraph, telephone and other wires in the streets and avenues. The amendment was finally agreed to, the provision was struck out and the bill went over without action, Adjourned.

Commissioner Atkins Resigns.

By Telegraph to the SUN.

New York Stock Market.

By Telegraph to the SUN.

NEW YORK, June 12.—The stock market was again very active to-day, with a feverish and weak tone in forenoon, succeeded by a rally late in the day, which brought prices generally above last night's figures. Granger and Gould stock were once more the center of attraction and in both these were wild and violent fluctuations; while outside of these two groups there was very little interest in the market. First sales were from ¼ to ½ per cent. lower than last evening's figures, in the general list, while Manhattan opened down over four points, with much excitement. The great feature, however, was the heavy demand in the low crowd, which was said to be the largest for years. All active stock loaning flat and one or two at a premium. The decline in Manhattan was on an expected reduction in the dividend, which was afterwards officially announced, and that stock led the decline in the market, losing ¼ per cent. before bottom was reached. The general list was active and very feverish throughout, in the leading weak stock prices were fairly well maintained, but besides Manhattan, Missouri Pacific, St. Paul, preferred, and Manitoba were conspicuously weak. After 1 p. m., good buying was noticed all along the line, and one house is said to have bought 50,000 shares; which served to turn the tide, and before 2 o'clock prices were, in most cases, above those of opening. Best figures were generally reached about declining hour when the market became very dull once more, though it remained firm throughout, the close being firm at or at nearly the best prices of the day. Sales aggregated 338,000 shares.

New York Cotton Market.

By Telegraph to the SUN.

NEW YORK, June 12.—Hubbard, Price & Co's circular to-day says: There has been less animation and a weak market pretty much all day. Buying orders come forward in only a very moderate quantity, but bulls made no special effort to sustain their position, and long cotton coming out with some freedom, the cast went off rapidly, reaching six points loss; finally closing a trifle steadier at 3 to 4 points decline since yesterday.

Another Negro Lynched.

By Telegraph to the SUN.

CHICAGO, June 12.—A dispatch from Tallahassee, Fla., says: Dennis Williams, colored, who shot and seriously wounded Supt. McCormack at Ellersville Saturday, was taken to the woods by a mob and lynched yesterday. His body was afterwards found in the river. The negroes were greatly incensed, and it is reported they will try to avenge the lynching.

IT MAY BE BLAINE.

With John Sherman to Play Second Fiddle.

By Telegraph to the SUN.

WASHINGTON, D. C., June 12.—It is said in republican circles that several important conferences have been held in this city and New York during the past ten days, at which to make an appeal to Mr. Blaine to accept the nomination, was agreed to. Soon after Blaine's last letter was promulgated a meeting of the republican leaders was held in New York. The fact that such a meeting had been called was mentioned in these dispatches at the time. The deliberations were conducted with such secrecy that none of the New York papers were able to get an inkling of what was going on. The gentlemen who participated in the consultation pledged themselves to confine the result of the conference to no one until the proper time arrived. Those who went over from Washington returned here looking serious but determined. A few days later Hon. Thomas C. Platt, the famous New York party manager, appeared at the Capitol, and had a long and earnest conversation with Messrs. John Sherman, Frank Hiscok, William Walter Phelps, Mat Quay and several other equally prominent party men. Numerous were the conjectures as to what took place, but even the most trusted friends of these gentlemen were not permitted to share their confidence on this occasion. After Mr. Platt's return to New York it was observed that Senators Quay and Sherman were more together than heretofore, and on several occasions the Ohio statesman was observed sitting in the Senate chamber with his arm thrown affectionately across the back of the Pennsylvanian's chair, the two gentlemen engaged in earnest conversation. Some one remarked at the time that Sherman was "making up" to Quay because the latter is expected to be at the head of the national republican committee. A well-known republican Senator is the authority for the statement that the leaders of his party realize that heroic measures are necessary in the coming struggle, and that party ascendancy must be considered before personal aspiration. With this idea in view it is proposed to try and induce Mr. Blaine to submit to renomination by acclamation. If a favorable response is received, the word will be passed along the line so that an unbroken Blaine column may be presented in convention. It is said that considerable argument was indulged in before unanimous consent of the conferees could be obtained in favor of such a programme. The friends of the various aspirants for the nomination were at first averse to making such overtures to Mr. Blaine on the ground that it would be unwise to force him into the contest against his personal desire. It was claimed on the other hand that this was no time to consider personal desires, as party success is the all-important subject in mind. It was agreed, so it is said, that not one word on the subject should be breathed on the outside until the situation now confronting the republican party can be presented to Mr. Blaine and his reply received. In the event of his acceptance John Sherman will probably consent to take second place on the ticket. Democrats and republicans admit that such a combination would make an interesting contest. Sherman will be expected to hold Ohio in line and also to weaken the democratic forces in Indiana.

EMPEROR FREDERICK.

A CHANGE IN HIS CONDITION FOR THE WORSE.

By Cable to the SUN.

POTSDAM, June 12.—The bulletin issued at 9:30 o'clock this morning says: "The difficulty in swallowing, which has troubled the Emperor recently, has increased and the taking of nourishment is becoming difficult. The Emperor feels weaker this morning."

It is considered by the Emperor's physicians that the disease has possibly reached asophagus. At the same time they consider that the difficulty he experiences in taking nourishment may be only temporary.

LONDON, June 12.—A dispatch to the Exchange Telegraph Co., from Berlin, states that the Emperor can only take food by artificial means.

LONDON, June 12.—The Prince of Wales this morning received a telegram from Potsdam, stating that the condition of Emperor Frederick is very serious. The Prince, on receipt of the telegram, ordered that the usual state procession to Ascott Heath be abandoned.

LATER.

BERLIN, 9:30 p. m.—Although the Emperor is slightly better the greatest anxiety prevails. Through some changes, of the exact nature of which the doctors are uncertain, the cartilage of the epiglottis has become permeable, allowing particles of food and liquids to enter the air tubes, the result being attacks of coughing and choking. Whether any recent abscess has broken through the partition between the larynx and asophagus or whether the epiglottis has been attacked by malignant disease the doctors are unable to determine. The Emperor is weakening rapidly.

Speaking of monopolies, an Arizona paper mentions that a certain citizen in a far west town possessed the only tree in the place, with a large, strong limb at the proper distance from the ground, which he was in the habit of renting out to lynchng parties at \$5 per meeting.

The advent of the Western Union Telegraph Company, with their long telegraph poles, ruined the industry completely and destroyed a valuable source of income for the owner of the tree.

The greatest watermelon crop ever known in Georgia is on its way. It is estimated that the counties of Dougherty, Mitchell and Lee alone will ship a million melons to the North and West. A dozen other counties will make very heavy shipments. The melon crop has come to be a very important factor in Georgia agriculture. It brings in money at a time when no other crop is marketable. It enables the farmer to utilize profitably lands which would hardly pay if planted in anything else. The Georgia melon has won a national reputation. Every year the demand for it increases, and the supply keeps pace with the demand. A great melon season is almost upon us.—*Macon (Ga.) Telegraph.*

AN ORDINANCE.

To provide that the Aldermen of the City of Asheville may negotiate a loan of One Hundred Thousand Dollars, for the use and benefit of said city, as set forth in said ordinance: Be it ordained by the Board of Aldermen of the City of Asheville, That for the purpose of obtaining the consent of a majority of the qualified and registered voters of the city that the Board of Aldermen of the said city may borrow the sum of One Hundred Thousand Dollars, to be applied to the construction of a system of Sewerage, and other necessary and permanent improvements, an election shall be held on Tuesday, July 10th A. D. 1888 at the usual voting place, and under the rules and regulations governing such elections in said city; and if the consent of the required majority shall be obtained at such election, then the Board of Aldermen may borrow said sum of money upon the bonds of the said city to be made and issued, in their discretion, in the denomination of Fifty, One Hundred and Five Hundred Dollars, with interest coupons attached.

The said bonds shall become due and payable thirty years from their date and for interest at the rate of six per centum per annum, payable semi-annually, according to the coupons attached, on the first days of January and July in each anniversary year. And they shall be signed by the Mayor and countersigned by the Treasurer, and be under the seal of said city.

The said bonds shall in no case be disposed of, sold, assigned, or transferred for a less price than par.

The coupons of said bonds shall be at all times when due, receivable in payment of taxes due said city.

H. S. HARKINS, Mayor.
May 26, 1888.

Any person who is not already registered on the registration books of the city will call on Col. S. Bulow Erwin at the office of the county Treasurer in the court house.

By order of the Board of Aldermen,
Jas-1m F. M. MILLER, City Clerk.
