CONGRESSIONAL.

WHAT WAS DONE YESTERDAY IN THE HOUSE.

The Army Appropriation Bill Amended and Passed.

By Telegraph to the Sun.
WASHINGTON, D. C., June 16.—Mr. Randall, from the committee on appropriations, reported the sundry civil appropriation bill, and gave notice that he would call it up for action at the earliest possible moment.

Several bills were reported and placed on the Calendar.

There was some discussion as to the order of procedure; Randall, Townsend and others desiring to consider the army appropriation bill, and other members insisting on an opportunity for the disposition of other business; when Mr. Townsend moved to go into committee of the whole on the army appropriation bill. Mr. Crain and Mr. Wilkins, of Ohio, therefore made points of no quorum, but were induced to withdraw them, when Mr. Townsend threatened an adjournment. So the House went into committee of the whole on the army appropriation bill.

The formal reading of the bill was dispensed with and it was read by paragraphs, for discussion and amendment. An appropriation of \$30,000 was added for the beginning of the construction of a new military post near Chicago, and one of \$30,000 for powder to fire morning and evening guns at military posts. A provision was added to the paragraph relating to post supplies, requiring them to be purchased where they can be purchased cheapest, quality and cost of transportation considered. No other amendment was made.

The committee then rose and the bill was passed, and the House, at 3:30, adjourned.

New York Stock Market.

By Telegraph to the Sun.

NEW YORK, June 16.—The stock market was quite active to-day, especially in spots, but the tone of dealings was strong and material gains were made throughout the list, many stocks closing at highest prices for the week. There was a dearth of news but meagre advices from the West were of a reassuring nature and grangers were prominent both for activity and strength. The special future was New England, which was very strong, and the buoyancy in that stock was attributed to interests closely allied to the property, and a prominent broker with a Boston house conspicuous in dealings, bidding for large lots. London bought at opening and prices began to advance immediately. New England, Louisville & Nashville, Missouri Pacific and Grangers led the market and values moved up rapidly during the first hour, but after that time sales for realization kept the market down, though the advance met with no set back. The market closed quiet and strong at best figures. Sales aggregated 115,000 shares.

New York Cotton Market.

By Telegraph to the Sun.

NEW YORK, June 16.—Hubbard, Price & Co's circular to-day says: "The contract market was rather a narrow one, and while prices for summer months have shown a gain of 3 points for the day there appears to be nothing significant in that beyond a timid feeling among a few traders on the short side, who came in as bears to cover shorts. There seemed to be buying for account of some New Orleans parties, who have opened straddles between the two markets."

Failure of a Banking Firm.

By Telegraph to the Sun.

LOUISVILLE, Ky., June 16.—The failure of the Kentucky Flour Company, which has done a heavy banking business and has also dealt largely in flour, was announced to-day. The deed of assignment was made late last night, naming the Fidelity Trust Company as assignee. Nominal assets, \$60,000; liabilities, \$80,000. The cause assigned is inability to collect many small debts. The principal stock holders are Foster Thomas and Horace Bashaw.

Steel Works to Close.

By Telegraph to the Sun.

HARRISBURG, Pa., June 16.—On June 30th the Pennsylvania steel works will close, with exception of the Universal and the Merchant Mills, for two weeks. Notice to that effect is being posted to-day. Stagnation in the iron trade, as the result of the pending tariff legislation, is ascribed as the cause. There will be a reduction of wages when operations are resumed.

A Heavy Failure.

By Cable to the Sun.

VIENNA, June 16.—Harlann Heiman & Sons, bankers, have failed heavy. It is alleged that fraudulent practices caused the failure. One partner has been arrested.

BUSINESS OUTLOOK.

E. G. Dunn & Co's. General Review of the Past Week.

By Telegraph to the Sun.

NEW YORK, June 16.—R. G. Dunn & Company's review of trade for the week says: The moderate improvement in trade noticed a week ago does not yet seem to be more than a slight reaction which occasionally breaks a period of uncertainty and comparative inactivity. When purchases are curtailed for a time, continuing consumption is apt to produce fitful activity at times, but signs of lasting improvement in trade do not yet appear. Uncertainty still prevails and buyers are conservative, confining their transactions to immediate wants in most branches of business. In some places moreover the cold and wet spring has so far curtailed trade that retailers are carrying over stocks larger than usual. There is uncertainty about the tariff and its effects upon many branches of manufacture; about the crops and foreign demand for exportable products; about transportation rates in the near future, and about financial prospects.

Crop prospects have not changed for the worse, but the extent of loss in winter wheat is more definitely realized, while the prospect as to spring wheat and other crops is necessarily vague. With favorable weather the general results would probably be fair, and in some quarters a decided hopeful feeling begins to prevail. Wheat is 1½ cents lower than a week ago; corn 2 cents lower; oats, hogs and lard each a fraction lower; cotton has risen an eighth, but because of figures regarding European consumption, and not because of any change in crop prospects. Coffee speculation does not favor holders, and heavy realizing has depressed the price about one per cent. Oil is also one cent lower, and want of confidence in the near future is pervading the tone in all markets. This cannot be attributed to financial influences, for money is over abundant, and quoted at one per cent here, notwithstanding renewals of gold exports. The treasury has raised its prices paid for bonds, taking a large amount one day, but the only considerable offers since have been two million dollars at an eighth above its new limit for fours and a like amount, three-eighths above its limit for fours and a half. There is a growing impression that bonds will not be forthcoming at reasonable figures if it becomes important for the treasury to make large disbursements. During the past week the treasury has taken in a million and a half more than it has paid out, but the banks still receive some money from the interior, though at some northwestern points money is now going into the country and not to the east. There is no report of stringency or closeness anywhere, but complaints of slow collections do not diminish. Exports of the principal products in many were larger in value by 15 per cent. than in the same month of 1887; but because of heavy cotton shipment. Exports from New York for the past two weeks show a decrease of 15 per cent. with only a slight decrease in imports. It is natural that weakness and dullness in stocks should prevail in such a state of trade, but the decline in prices has not been great, and there are some signs of recovery.

The iron trade manifests no improvement, though sales of 39,000 tons of steel rails are reported for \$30, at the mill and the allotment is said to be disregarded by some eastern makers. Southern pig is quoted at \$17 for No. 1, but the quality is not in all cases found satisfactory. Bar iron is weaker, with \$17.50 to \$18 quoted for large lots of best refined.

In the dry goods business there is a lack of activity and yet in cotton goods a more confident feeling with print cloths higher at 3.87 and low grades of bleached goods very firm. Woollens are still dull with very good transactions for men's goods, and wool is quoted lower at Chicago. Speculators have bought considerable quantities of southwestern wool in the belief that there will be no change of duties, and hold it at prices above the market. Spring trade in wholesale clothing does not appear to have been very satisfactory, and it is believed that retailers carry over unusually large stocks, though prices have been remarkably low.

Business failures occurring throughout the country during the last week number for the United States 209, and for Canada 23; total 232, against 235 last week. Failures are still unusually numerous on the Pacific coast, the number from that section this week being 42.

The Cotton Crop.

By Telegraph to the Sun.

NEW YORK, June 16.—The total visible supply of cotton for the world is 1,741,486 bales, of which 1,209,486 is American; against 1,993,970 and 1,246,370 respectively, last year. Receipts at all interior towns 6,925, receipts at plantations 6,942, crop in sight 6,797,710 bales.

STRAY BEAMS.

Gathered From our Exchanges.

Franklin Stearns, one of the wealthiest citizens of Richmond, died Sunday night in the 74th year of his age.

Mr. Blaine has engaged passage to return to the United States on the steamer Trave, from Southampton, July 19th.

The receipts of the London Zoological Gardens have decreased; \$10,000 in the past year and the managers blame Buffalo Bill's show for the loss.

The Reidsville Times has again made its appearance, after a suspension of several weeks, having been burned out. It is now a third party paper.

Ex-Governor S. D. McEnery has been confirmed by the Louisiana Senate to be Justice of the Supreme Court of that State. He is to serve twelve years.

Miss Emma Thursby says she does not see the necessity of going to Europe to cultivate the voice, as we have as fine teachers as are to be found anywhere.

Kansas has a genuine philanthropist. Stephen Richardson, of Harlan county, has planted three miles of peach trees on the public highway for the benefit of travelers.

It is understood that President Cleveland and his wife will take an Ohio trip the first week in September. They are to start the ball rolling at the Ohio Centennial Exposition.

A colored man has been admitted to practice law in the Court of Appeals in Kentucky, and Mayor Shakespeare, of New Orleans, has appointed fifteen blacks as police officers in that city. The poor, downtrodden negro!

Mr. Thomas W. Jordan, president of Emory and Henry College, in Virginia, has been elected Professor of Latin at the University of Tennessee, and will begin his new duties in September next. He is an alumnus of the University of Virginia.

Gen. Clinton B. Fiske, the prohibition nominee for President, says he cannot say when he will write his letter of acceptance. He says there is plenty of time. He wants his family to get accustomed to the idea and to get himself ready for the attacks he will have to undergo.

Abill has passed the Senate providing for an increase of the militia appropriation from \$400,000 to \$900,000. If it gets through the House, North Carolina will be in luck, and will have something over \$15,000 yearly, available in advance for quartermaster's stores.

It is recorded as a fact that bees, wasps and hornets can be handled with impunity if the breath be held at the time. This is an experiment worth trying for those whose business it is to rob gums at this season of the year. Suppose you prove it by taking hold of a bee. If it is a fact it is worth proving.

An interesting report of the death of a native was recently made by a corner's jury in India. The native had had the misfortune to meet a tiger, and the report says: "Pandu died of the tiger eating him. There was no other cause of death. Nothing was left of Pandu save some fingers, which probably belonged either to the right or left hand."

The new year book of the Young Men's Christian Association gives the number of associations throughout the world as 3,804, of which 1,240 are in the United States and Canada. The American associations own real estate to the value of \$6,708,230, an increase of nearly \$1,100,000 during the previous year. The association was never so strong and prosperous as it is now.

An unknown genius has suggested that the best way of disposing of the bodies of deceased friends and relatives is to cremate them and mix the ashes with some chemical preparation that he had invented, which would make them acquire the consistency of clay. This clay could be made into statues which, he believes, would make becoming ornaments for the mantelpieces of the relatives of the deceased. A person dying might leave instructions in his will as to what kind of a statue he would prefer to assume. The sporting man could meet death calmly with the thought that in a few days he would figure as the mighty John L. himself, above the bar of his favorite retreat, while an ugly girl might be transferred into a Venus, and so on indefinitely.

Press Comments.

By Cable to the Sun.

LONDON, June 16.—The Times, commenting on the death of the Emperor, says Germany has lost a devoted, high-souled ruler and a noble-minded, faithful man. The first Emperor William was as much of a soldier as his grandson, the present William the II, and it may be hoped, with Bismarck's influence, that the grandson's efforts will likewise be given to averting war.

The Standard says the German people may well be proud; that they have been ruled by such a race of heroes. A death more touching has never been witnessed than that of Emperor Frederick.

The Daily News says the Emperor is deeply mourned in Germany, and hardly less in England. His patient endurance of suffering and his heroic discharge of duty on the brink of the grave must have recalled to all Americans their own murdered President, Garfield.

The Diss Debar Case.

By Telegraph to the Sun.

NEW YORK, June 16.—The jury in the Diss Debar case brought in a verdict of guilty, at noon to-day.

PEANUTS—Roasted fresh every day, (warm or cold,) also raw, at Wilkie's. Fresh lot of Oranges and Lemons just received at Wilkie's, 26 So. 4th Main St. Delicious Orange Cider at Wilkie's.

WIND AND WATER.

Leaves Death and Destruction in its Path.

By Telegraph to the Sun.

PORTLAND, OREGON, June 16.—A disastrous wind storm and cloud burst was reported yesterday at Arlington. Willow creek became a furious current, making a regular torrent. Seven bridges at Lexington were wrecked. The storm first struck the grove below Lexington and blew down H. J. Brocks' house. Mrs. Brocks was fatally injured and soon died. H. A. Harkins' house and barn was totally wrecked. Harkins, who was very sick in the house, sustained serious injuries. His little child received a blow on the head and was killed. Mrs. Harkins' two other children were also injured. A school house full of pupils was partially destroyed; some of the children were injured; two, it is feared are fatally hurt. Several other persons were more or less injured. So far as known considerable property was damaged.

Stanley Wounded in a Fight.

By Cable to the Sun.

BRUSSELS, June 16.—A dispatch from Lisbon to the Independence Belge says: Advices from the Congo say that Arabs who have arrived at Kinshassa, state that Henry M. Stanley was wounded in a fight with natives, and that afterwards one-half of his escort deserted. Tippoo Tib had not sent the promised convoy to Stanley.

A Gladstonian Re-Elected.

By Cable to the Sun.

LONDON, June 16.—The election at Ayrborough yesterday to fill the vacancy in the House of Commons, caused by the death of Richard Campbell, resulted in the return of Capt. Sinclair, a Gladstonian, by a majority of 63.

Passed a Good Night.

By Telegraph to the Sun.

WASHINGTON, D. C., June 16.—The following bulletin was issued this morning at 9 a. m.: "General Sheridan passed a good night. There are no changes to report in his condition this morning."

Another National Bank.

By Telegraph to the Sun.

WASHINGTON, D. C., June 16.—The Comptroller of Currency to-day authorized the First National Bank of Talladega, Ala., to begin business with a capital of \$50,000.

AN ORDINANCE.

To provide that the Aldermen of the City of Asheville may negotiate a loan of One Hundred Thousand Dollars, for the use and benefit of said city, as set forth in said ordinance: Be it ordained by the Board of Aldermen of the City of Asheville, That for the purpose of obtaining the consent of a majority of the qualified and registered voters of the city that the Board of Aldermen of the said city may borrow the sum of One Hundred Thousand Dollars, to be applied to the construction of a system of Sewerage, and other necessary and permanent improvements, an election shall be held on Tuesday, July the 10th A. D. 1888 at the usual voting place, and under the rules and regulations governing such elections in said city; and if the consent of the required majority shall be obtained at such election, then the Board of Aldermen may borrow said sum of money upon the bonds of the said city to be made and issued, in their discretion, in the denomination of Fifty, One Hundred and Five Hundred Dollars, with interest coupons attached.

The said bonds shall become due and payable thirty days from their date and for interest at the rate of six per centum per annum, payable semi-annually, according to the coupons attached, on the first days of January and July in each anniversary year. And they shall be signed by the Mayor and countersigned by the Treasurer, and be under the seal of said city.

The said bonds shall in no case be disposed of, sold, assigned, or transferred for a less price than par.

The coupons of said bonds shall be at all times when due, receivable in payment of taxes due said city.

H. S. HARKINS, Mayor.
May 26, 1888.
Any person who is not already registered on the registration books of the city will call on Col. S. Bulow Erwin at the office of the county Treasurer in the court house.
By order of the Board of Aldermen,
F. M. MILLER, City Clerk.
