CONGRESSIONAL.

NOTHING OF SPECIAL INTER- EST IN THE SENATE.

The Sundry Civil Service Approp- riation Bill Before the House.

By Telegraph to the SUN.
SENATE.

WASHINGTON, June 18.—The Senate could hardly have presented a more listless and languid appearance or shown more utter indifference to ordinary legislative business than it did to-day. On the republican side of the chamber there were not half a dozen seats occupied at any one time, and generally only two or three. Three of the possible presidential candidates, Sherman, Allison, and Hawley, constituted one third of the republican senators present, but they did not remain long in any one place, moving around and out of the chamber as if their thoughts were elsewhere. There were about a score of democratic senators in their seats, but even they did not seem to have any interest in legislative matters.

Two bills affecting Indian matters were read and passed, and then the calendar was taken up and bills to which no objection was made were passed, among which were the following:

House bill, to authorize the construction of a wagon and foot passenger bridge across the Noxubee river, near Gainesville, Alabama.

Senate bill, granting to the city of St. Augustine, Florida, the post office and custom house lot for a public park.

The conference report on the Indian appropriation bill was presented and agreed to.

Mr. Frge gave notice that he would ask the Senate to take up the river and harbor bill.

The Senate then proceeded with executive business and at 3:40, when the doors were reopened, Senate adjourned.

During the hours that the doors were closed the Senate ratified the long pending treaty providing for an adjustment of the Venezuela claims.

HOUSE.

WASHINGTON, D. C., June 18.—Mr. Townshend, of Illinois, moved to suspend the rules and pass the joint resolution appropriating \$25,000 for the celebration of the 25th anniversary of the battle of Gettysburg.

Mr. Browne, of Indiana, objected to a second being considered, and a vote was ordered on the second, resulting 56 to 11.

Mr. Burrows raised a point of no quorum.

Townshend finally withdrew his motion, saying it was apparent that no quorum was present.

On motion of Randall, the House then went into committee of the whole on the sundry civil appropriation bill. Rapid progress was made until an amendment of interest was made at the instance of Falkner and Ryan, providing that there shall be no extension of steam presses in the Bureau of Engraving and Printing. A general debate, however, arose upon the paragraph relating to a new Congressional Library building. Holman addressing the House said that the lowest estimate given of the cost of the building was \$7,000,000, while other estimates reached \$12,000,000. He went into the detailed history and progress of the work, saying that the Senate had sent an architect to Europe and had not honored the House by consulting it in the matter.

Without concluding the argument the committee rose and the House adjourned.

NOMINATING SPEECHES.

Who the Various Candidates are to be Nominated by.

By Telegraph to the SUN.

CHICAGO, June 18.—The men who will make the nominating speeches have been decided upon. At a caucus of the New York delegation to-day, it was decided that Depew should be placed in nomination by Ex-Senator Warner Miller, of New York. The speech in seconding the nomination will probably be made by Gen. Knapp, although the delegation has not decided definitely whether to have a seconding speech or not. Sherman will be nominated by D. H. Hastings, adjutant general of the State of Pennsylvania. Gov. Foraker, of Ohio, will second the nomination. The speech placing Alger, of Michigan, in nomination will be made by Robert E. Frazier, of Detroit. W. P. Hepburn, of Clarendo, Ohio, will nominate Senator Allison, of that State. Harrison's nomination will be in the hands of Ex-Governor A. G. Porter, of Indiana. The name of Mayor Filler, of Philadelphia, will be placed in nomination by Charles Emory Smith, of the Philadelphia Press. There will be no seconding speech.

DEPEW WILL TRY.

After surveying the Field he De- cides to be a Candidate.

By Telegraph to the SUN.

CHICAGO, ILL., June 18.—Mr. Chauncey Depew finished his survey of the situation last night and determined to permit his name to go before the convention. He announced this conclusion to Senator Hiscock, Mr. Phelps and several other gentlemen. Although Mr. Depew was understood to be a candidate from the first he had not until that moment formally announced to his friends that he would seek or accept the nomination. So much has been said about the feeling against Mr. Depew in granger States being so strong—that his candidacy would be hopeless—that Mr. Depew desired to find out for himself what that feeling was. Yesterday he received assurances from Minnesota and other States, which had before been reckoned against him, that he finally decided to go into the contest. When Mr. Depew made known his determination, a meeting of the New York delegation was called and the matter laid before the body, who at once resolved to support him with their whole strength of delegation, and positively stated at the meeting that Mr. Depew would receive the whole vote of New York, the votes of New Jersey and Connecticut and elsewhere, to bring his strength on the first ballot up to 94 votes.

AT CHICAGO.

Unusual Activity Among Friends of the Various Candidates.

By Telegraph to the SUN.

CHICAGO, June 18.—Skirmishing, preliminary to the great battle which will be formally opened in the convention to-morrow, was unusually active and aggressive in the hotel corridors this morning. At an early hour groups of politicians congregated in the lobbies talking over the situation, and though there was nothing definite which the friends of any candidate could use as a basis for their enthusiasm, predictions and counter-predictions were loudly and vigorously indulged in.

Doors of the headquarters of the various state delegations stood invitingly open and within eager, badge-bedecked gentlemen stood ready to seize upon any passing delegate and impress upon him the desirability, if not absolute necessity, of the republican convention nominating this or that favorite son in order to bring assured success at the polls in November next. At an early hour the decks of the Iowa headquarters were cleared for action, and General Henderson was soon on the scene directing operations.

The announcement of Depew's candidacy seemed but to have invigorated the Allison forces. They predict that this convention, in its present uncertain condition, is a peculiarly auspicious one for reserve candidates, of whom they say their favorite is the strongest.

Gen. Sheridan Improving.

By Telegraph to the SUN.

WASHINGTON, D. C., June 18.—Only one bulletin was issued to-day by Sheridan's physicians and only one will be issued hereafter unless circumstances change for the worse. The following is to-night's bulletin: 9 p. m.—"For the past 24 hours General Sheridan has been comfortable. He slept well and restfully last night, and has been quiet and composed all day, except that he has coughed rather more than usual this afternoon. His pulse and respiration are satisfactory, he is gaining in muscular strength and his appetite is good. The tone of his mind is improving."

Temporary Chairman Elected.

By Telegraph to the SUN.

CHICAGO, ILL., June 18.—The Republican National Committee met at noon to select a temporary chairman for the convention. M. M. Estee, of California, and John M. Thurston, of Nebraska, were the only names presented. The vote was a tie and Chairman Jones cast the deciding vote in favor of Thurston. The nomination was then made unanimous. When the action of the committee was announced, the Californians, thoroughly unused to defeat, were simply dumb-founded. Their opponents, however, were not less surprised—the closeness of the vote being almost wholly unexpected.

Crop Reports.

By Telegraph to the SUN.

WASHINGTON, D. C., June 18.—The weather crop bulletin reports a fine growth of cotton, and our New Orleans friends call the prospects excellent. In June 1882 the average condition was 89, against 88½ this year. The crop of '82 was 925,000 bales, while the average this season is almost 3,000,000 acres in excess of 1882 and 1883.

PRESS OPINIONS.

What Some of the Leading Jour- nals Think About Emperor William's Addresses.

By Cable to the SUN.

LONDON, June 18.—The *Daily News* says: We think the alarm which the proclamations of Emperor William to the army and navy, excites, is uncalled for. More humility might have been expected from an older sovereign, but the spirit in which the Emperor addresses the army and navy is of less importance than that in which he receives Bismarck.

The *Times* says the proclamations are worthy of the Emperor and the traditions of his house. Their spirit is not necessarily to be regarded as warlike, and still less aggressive. Germany is an armed nation and only as such, under existing conditions, can she maintain her unity and power. The Emperor has great power but not enough to be able to hurry into war with a light heart against the wishes of his people.

The *Standard* says the color of the immediate future depends less upon the accession of William than upon the real resolutions of Prince Bismarck, who likely has more influence than before. Other papers comments upon the addresses in a similar strain.

Funeral Ceremonies Over the Re- mains of Frederick III.

By Cable to the SUN.

POTSDAM, June 18.—Prince Bismarck and Count Von Moltke and a number of foreign Princess arrived here this morning. The railway stations at Berlin and Potsdam are closed against the crowds gathered outside these buildings, and soldiers and police were posted all around the stations to keep back crowds. Friedrichskron palace is guarded like a fortress. At 9 o'clock bells tolled for the ministers who were to officiate at the Emperor's funeral took their places around the coffin in the palace. The choir sang the hymn, "soon thou callest me to higher joys" and "Jesus is my trust." Chaplain Koegel blessed the corpse and mourners, after which the choir sang the hymn "If I am to die." The commanders of twelve regiments, of which the late Emperor was chief officer, carried the coffin to the hearse. Eight Majors then took the horses by their bridles and the procession started for the church.

New York Cotton Market.

By Telegraph to the SUN.

NEW YORK, N. Y., June 18.—Hubbard, Price & Company's circular to-day says: Foreign advances, on the whole, are disappointing, developing nothing calculated to afford further stimulation. The market for options opened slightly better with an effort to stimulate August, but finding no response, the support was withdrawn and the market went off a few points; the easier tone giving the room more steadiness. During the afternoon hours some liberal buying orders came in and, assisted by a liberal record of spot sales—partly for export and partly for home consumption—infused a smart advance and placed final rates 2 to 4 points above Saturday's prices. The principal cause of to-day's improvement rests, however, with the covering of two prominent German shorts. This continued buying, keeping our market firm and advancing slowly; as holders, under such circumstances, are not willing to sell, and such crawling tendency of the market frightens the short interest more than a rapid advance would have done.

New York Stock Market.

By Telegraph to the SUN.

NEW YORK, June 19.—The stock market was dull but generally strong to-day, subject to spurts of activity in spots, with some hammering by traders. There was no news of a character to have much effect upon values but there was a general sentiment in favor of better figures, and a disposition to buy to a limited extent. There were further engagements of gold for exports. Missouri Pacific became the feature of trading late in the day, while New England at the opening was conspicuous for its activity and strength. Grangers seemed to be well supported, though there was considerable manipulation of St. Paul by parties trying to accumulate stock; and Rock Island exhibited some weakness late in the day. The best prices were attained about 2 o'clock, after which time there was very little feature to trading and the market closed quiet and firm at or near best figures reached. Among the unlisted securities American cotton oil was active and, while strong at first, reacted later and closed with very little change. Final changes are generally in the direction of higher prices, but they are confined to small fractions, except in the case of Missouri Pacific, which advanced 1 per cent. Sales aggregated 166,000 shares.
