The Johnston store rooms, southwest corner of Main street and the public square, are now to be occupied by Dr. T. C. Smith, as a drug store, and Geo. T. Jones & Co., the "Racket store." These are among the prettiest store rooms in North Carolina.

If the officious and brainless chap, who placed an unofficial sensational, and unauthorized bulletin on the DAILY SUN bulletin board yesterday afternoon, would be more careful how he meddles into other people's business and pay more strict attention to the matters he is employed to attend to, it would perhaps be better for him.

Any person contributing as much as ten dollars to the Asheville Light Infantry becomes an honorary member of that organization and is thereby relieved from jury duty. This affords a splendid opportunity for those of our citizens who do not wish to serve on the jury, to contribute towards purchasing the new uniforms for the company.

The article in the SUN yesterday morning, in reference to the telephone matter, was highly complimented by every person we conversed with, save two, and they were stockholders in the Long company. The city council will settle the matter to-morrow night, and we feel satisfied as to what the result will be. They cannot give an exclusive right to any one to put up an exchange.

A Swimming Pool.

Why would not a swimming pool pay in this city? We believe that such an enterprise, fitted up in good style, would be a paying institution, especially during the summer months. In Raleigh and other cities not much larger than Asheville, we understand these swimming pools afford a great deal of pleasant amusement to the young people, and are a source of much revenue to the owners. We hope some of our enterprising people will inaugurate such an enterprise here. The cost of putting up the pool could not be very heavy, and we believe could be made to pay for itself the first season.

Another Reminder.

There is a gentleman from Boston, Mass., now in Asheville negotiating for the purchase of a half or whole interest in a \$21,000 tract of land, which is located within half a mile of the corporate limits of the city. He says he likes Asheville better than any place he has visited. He has recently been through many of the Southern States prospecting, and is highly pleased with Chattanooga, Tenn. He says if the sewerage bonds are voted here he will complete his trade for the land, and will locate here and invest in other enterprises, but if the question is defeated, he has made up his mind to locate at Chattanooga. He is a man of considerable means and full of enterprise.

The Public Building.

When the question of the location for the Asheville public building has been settled and the preliminary work ready to be commenced, we would suggest that our people urge the government, and offer every inducement possible, to use in the construction of the building, our own Western North Carolina granite. If it cannot be found of a sufficient quality and in quantities to suit near the city, we know that there is the greatest abundance along the line of the Western N. C. railroad, and feel satisfied, from what we have learned, that the railroad company would offer most excellent inducements in the way of freights. There is some as fine building stone near Asheville as can be found anywhere, and we think it would be nothing but right and proper that it should be used in the construction of this building.

Business is Business.

An exchange alluding to the fact that people ask and expect so much free service from newspaper publishers, when they would not think of making such demands upon business men, voices our sentiments exactly, and concludes thusly: "Every line of space in a newspaper is worth money, and when people beg for space they beg for money. There are very many people, even intelligent people, who don't understand this. When they ask for the insertion of an article or a paragraph which is not interesting in itself, but intended to be in the interest of some institution, charitable or otherwise, they often do so with an air of assurance that indicates that, in their opinion, they are conferring a favor rather than asking one. If it were not for the charges made for space in a newspaper it could not exist, and all advertising should be charged for."

A full line of Toilet articles, Rubber goods, combs, hair and tooth brushes, bottled mineral waters, Lubin's, Wright's, Atkinson's, Lundborg's extracts and Toilets water. Prescriptions carefully prepared and delivered promptly to any part of the city.

A STRANGE VISITOR

We had just sold a lady a pair of tan-colored silk mitts for 24c, and was showing her our black lisle jersey gloves at 10c, of which we sold her two pairs, but still have a large lot left, when we heard a noise about the door and the jingle of glass.— Looking up we saw a horse inside the store, wearing in addition to his harness quite an astonished look. He was mistaken—we keep nothing in his line but curry-combs, brushes and whips; and by the way if Mr. Graham had had a \$2.25 whip, which we sell for \$1.52, he could have kept him in "the middle of the road" or made it extremely warm for him. The horse had sense though, like the balance of his kind, he wanted to follow the crowd, and they usually (as he had no doubt observed) tend towards the "Racket Store," where bargains in all lines, except horse feed, are to be had, a few of which it might be well to enumerate.

We have some beautiful Dress Goods, in lawns, muslins and mulls, and our stock of laces is full up, at prices sure to please. We have sold a number of ice cream freezers at unheard-of prices in this city—we warrant every one of them to be as good as the best OR WE REFUND MONEY and take them back; none have been returned as yet. Our croquet sets and hammocks are becoming seasonable and are beginning to move off, we shall keep a supply however and it will pay you to price ours before you buy. We have just received a new lot of rugs—some beauties—and prices will suit, as well as quality. The ladies are especially requested to call and see our new supply of ribbons and flowers—some extra nice tips also. We have the largest stock in town, we believe—some beautiful goods—finer than we have kept heretofore. The same may be said in regard to ruchings, also, of which we have a new line. We sell goods at a small profit, for cash only, and as they are bought lower than others buy, (owing to our facilities,) we undersell our neighbors; and as we guarantee everything sold to be as represented OR MONEY REFUNDED, there is no risk in buying of us, hence people do BUY. Contrary to our expectations, we are not yet in our new store, No. 15 South Main street, but we shall get there we hope on or about the 25th of June. Come and see us, don't wait until we move; we can supply you with anything you need, either to wear or to use, and we guarantee to save you money on every purchase made of us.

Very respectfully, GEO. T. JONES & CO.
