ALL ORDERS GIVEN PROMPT ATTENTION

MANUFACTURED ICE.

Information of the public and to

circulate ideas on the subject of art-

icles, we give the following facts in regard

to the manufacture of ice: Our manner of man-

ufacturing is to distill the water by condensing

it, thus making it absolutely pure. Then

we add one part of charcoal to completely deodor-

ize and arrest any remaining traces of im-

purity, after which cans filled with it are

immersed in a brine solution below the freezing point,

where it remains until it is frozen as clear

and almost as solid as glass. This

is a fine fit for human use. It has one

advantage more than natural ice, and has all the

virtues of the best ice, and is the

best of commerce

CONGRESSIONAL.

THE STATE OF WASHINGTON IN THE SENATE.

The Tariff Bill Nearing a Vote in the House.

By Telegraph to the Sun.

SENATE.

WASHINGTON, D. C., July 18.—The Senate proceeded to the consideration of Senate bill for the formulation and admission into the Union of the State of Washington to be composed of the present territory of Washington, and part of Idaho territory.

Mr. Hoar interrupted the reading of the bill and gave notice, at the request of Frye, who has the fishery treaty in charge, (in absence of Sherman) that Frye would, next Friday, ask the Senate to proceed with the consideration of the treaty and would urge the Senate to continue the discussion until ended, and then that a vote be taken without further delay.

When the reading of the bill was finished Mr. Cullom offered a substitute for it confining the area of the new State to that of the present territory of Washington.

The bill was discussed by Stewart, Vest, Blair and Cullom. Stewart in explaining and advocating the bill said the only controverted point in the bill was as to the inclusion within the new State of a portion of Idaho—the portion known as North Idaho—or the Pan Handle. He stated reasons why annexation should take place. Mr. Stewart read a large number of resolutions, letters and statements in support of the annexation of North Idaho, and said that nature had made those 4 countries which are in the great Columbia basin a part of Washington, but that in view of the suggestion that a majority of their people were opposed to annexation the bill provided for submitting the question to them.

There being only a few people interested, without action on the bill the Senate proceeded to the consideration of executive business, and at 4:50 adjourned.

HOUSE.

WASHINGTON, D. C., July 18.—After unsuccessful efforts had been made by Stahlnecker, of New York, and Burrows, of Michigan, to secure the consideration of bills for the erection of public buildings at Yonkers, N. Y., and Kalamazoo, Mich., the House went into committee of the whole (Springer in the chair) on the tariff bill.

The first paragraph which had been passed over informally "that placing cotton ties or hoops on the free list" was considered.

Mr. Turner, of Georgia, argued in favor of the action of the committee in making cotton ties free and contended that it was a fallacy that the purchaser of the cotton paid the price of cotton ties with which it was baled.

E. B. Taylor, of Ohio, inveighed against the injustice of making cotton ties free, while hoop iron was retained on the dutiable list.

Bayne, of Penn., could not understand how northern Democrats could vote to place a duty on hoop iron and to place cotton ties on the free list, unless it were true that as before the war cotton was king. King cotton was again making northern dough faces come to the front. People of the West were going to remember this thing and would see that the South should not again sit in the saddle and dominate northern States, controlling legislation in the interest of the South as against the North.

Townsend, of Ill., inquired whether Bayne would be willing to place all hoop iron on the free list and was answered by an emphatic negative. Townsend suggested that there was hoop iron manufactory in the gentleman's district and that, therefore the gentleman was arguing in the interest of a monopoly which was levying a tribute on every honest farmer. The gentleman said flatly and plainly in his declaration that he would not put hoop iron on the free list, that he loved men who were engaged in the hoop iron industry better than he did men who toiled all day and needed iron to bale their hay.

Bayne inquired why the gentleman had not offered an amendment placing on the free list the hoop iron which his constituents consumed in baling hay. Townsend replied that the bill was unlike the tariff bill of the Republicans in the Forty-Seventh Congress, which had been framed in caucus had been prepared by the proper committee. It was not the outcome of caucus action and he had not had an opportunity to amend the bill. Such as the gentleman had when in the Forty-Seventh Congress. The bill had been put through the House under whip and spur of caucus command and dictation.

Stewart, of Ga., was glad that an opportunity was presented to test the sincerity of the Republican party in its professed love for the colored man; for two-

thirds of the 6,000,000 bales of cotton produced in the South were produced by colored labor, and the tax on cotton ties was a tax directly affecting their interests.

The pottery schedule, which had been passed over was then taken up for consideration.

On motion of Mr. Bynum, of Ind., the duty on china, porcelain, earthenware, stone or crockery ware, was increased from 45 to 50 per cent. advancement.

Buchanan, of N. J., offered an amendment striking out the schedule and inserting the schedule of existing law. Rejected after a protracted debate.

The next paragraph called up was that relating to green and colored glass bottles. Breckenridge, of Ark., moved to make the duty one cent instead of 3 quarters of a cent per pound. The amendment was adopted. He also offered other committee amendments striking out flint and lime glass bottle paragraph raising the duties on cylinder and crown glass polished, not above 24 by 60 inches from 15 to 20 cents per square foot, and above that size from 25 to 30 cents. On unpolished cylinder and common window glass not exceeding 10 by 15 inches from 1 cent to one and three-eighths of a cent per pound. On sizes not exceeding 16 by 24 inches from 1 1/4 cents to 1 1/2 cents. On sizes not exceeding 24 by 30 inches from 1 1/2 to 2 cents. Amendments were all agreed to.

The question of duty on imported tobacco was next taken up and Mills moved to strike out the clause fixing the rate of duty at 35 cents per pound, thus restoring the present duty.

Lafollette, of Wis., spoke 5 minutes upon this motion and desired further 5 minutes, but this Mr. Mills declined to yield and upon his motion the committee rose. For the purpose of limiting the debate Mr. Mills moved that all debate on pending paragraph be limited to one minute, and the Republicans being again refused 5 minutes declined to vote, thus leaving the House without a quorum.

Mr. Mills then moved that the House take a recess until 8 o'clock, session having been ordered for to-night for the consideration of labor bills, but as the Journal showed absence of a quorum this motion was ruled out of order.

Mr. Mills moved to adjourn and on a standing vote the motion was carried. The yeas and nays were ordered but the vote ordering them was subsequently reconsidered and by virtue of the standing vote the House at 4:05 adjourned.

New York Cotton Market.

By Telegraph to the Sun.

NEW YORK, July 18.—Hubbard, Price & Co's. cotton-circular to-day says: Increased animation and another upward turn on August contracts have characterized the market to-day. Some new buying took place in part on orders from the bull clique, but there was mostly covering or foreign and local account, after an advance of 15 points on August above last night's rates, the demand fell off and prices eased a trifle, yet closing steady at almost best prices. New crop followed advance only very slowly and gained two to four points in value, but under continual cheerful accounts from the plant. The selling on further account reduced costs to about yesterday's figures. Spots were marked up 1-10 cent in sympathy with contracts.

Vessel Grounded.

By Telegraph to the Sun.

NORFOLK, VA., July 18.—The signal corps observer at Hatteras, N. C., reports the German brig "American," laden with turpentine and bound from Savannah, Ga., to Glasgow, Scotland, grounded on Hatteras shoals last evening. The vessel will probably be a total loss. The crew were saved.

Randall's Condition.

By Telegraph to the Sun.

WASHINGTON, D. C., July 18.—Mr. Randall passed a comfortable and restful night and is stated to be much better this morning. It is hoped that he will be well enough to be removed to Chestnut Hill about the end of the week.

Dropped Dead.

By Telegraph to the Sun.

ROME, GA., July 18.—Judge W. H. Underwood, ex-member of Congress, and member of the tariff commission appointed by President Arthur, dropped dead this morning of heart disease.

Prominent Atlanta Man Dead.

By Telegraph to the Sun.

ATLANTA, Ga., July.—Capt. John Kelly, a prominent dry goods merchant and well known citizen of this city, died this morning from carbuncle caused by a wound received in the war.

Bond Offerings.

By Telegraph to the Sun.

WASHINGTON, D. C., July 18.—Bond offerings to the Treasury to-day aggregated \$1,901,250. Accepted \$56,000 registered four and a half at 1.07 1/2.

GENERAL.

BOULANGER IS WORSE AND PHYSICIANS SUMMONED.

Fire in Chicago—Iron Strike Over—Railroad Collision in South Carolina, &c.

By Cable to the Sun.

PARIS, July 18.—General Boulanger is worse. The doctors have been summoned.

Fire in Chicago.

By Telegraph to the Sun.

Fire broke out about 11 o'clock this morning in a magnificent building in Nos. 160, 162 and 164 Wabash avenue. The corner building, which was numbered 160 and 162 Wabash avenue was occupied by the Chicago Carpet Company. The building on the north of this was occupied on first floor, fourth floor and part of the fifth floor and the basement by the piano manufacturing firm of Julius Bauer & Co., and the second floor by the Standard Musical Manufacturing Company, which made and dealt in musical instruments, other than pianos. The buildings were owned by John Deckoven.

The fire originated in the basement of the north building, where piano boxes and rubbish were stored. Both buildings were completely gutted. Loss on buildings \$125,000. Insurance \$750,000. The Chicago Carpet Co's loss is about \$75,000, of which about \$50,000 is total, as there was uninsured stock valued at that sum just received from New York. Julius Bauer's stock was valued at \$130,000 and was entirely destroyed. The stock was insured, but the amount is not yet obtained. The Standard Music Co's loss is about \$25,000. The News says that the fire was incendiary and that suspicion points to a porter whom Bauer discharged a short time ago.

Another Railroad Collision.

By Telegraph to the Sun.

BIRMINGHAM, ALA., July 18.—A collision took place on the Louisville & Nashville railroad near Oxmore yesterday morning between the Cannon Ball limited express and an extra freight train. George Nicholls, engineer of the passenger train, and Jeff Thomas, fireman of the freight train, were seriously injured. The fault seems to rest on the conductor of the freight train who was running without orders, out of time. He was making his first trip.

Virginia Crops.

By Telegraph to the Sun.

BALTIMORE, MD., July 18.—A dispatch from Petersburg, Va., says: The outlook for corn and peanut crops in adjoining counties is discouraging. This condition of things is due to the recent wet season, followed by dry and coal weather. The oat crop is poor and the farmers assert that they will not get their seed back and this is particularly true as to spring oats. Much of the tobacco which was planted after the recent rains cannot develop proper size before farmers will be forced to cut it. Cotton wanting in size.

The Iron Strike About Over.

By Telegraph to the Sun.

PITTSBURGH, July 18.—The Western Iron Manufacturer's Association was formally dissolved to-day. At a meeting of the conference committee a resolution was adopted disbanding the committee and absolving the members of the Association from all pledges. Also authorizing them to act in their individual capacity regarding the starting of their works. General resumption will probably take place in a few days.

Bungled Hanging.

By Telegraph to the Sun.

JERSEY CITY, N. J., July 18.—Henry Conrad Ebert was hanged in the county jail at thirteen minutes past ten this morning. When the trap was sprung the knot slipped around under the jaw and disarranged the cap so that Ebert's face was exposed to view as he slowly strangled to death. When the body was cut down it was turned over to his brother and this afternoon will be taken to Mt. Olivet and cremated.

Presidential Appointments.

By Telegraph to the Sun.

WASHINGTON, D. C., July 18.—The President to-day nominated Washington C. Denny to be postmaster at High Point, N. C.

The Senate has confirmed the nomination of Peter K. Knight, U. S. Marshall for the southern district of Florida, and W. C. Weaver postmaster at Port Royal, S. C.

New stock of Gents' Neckwear just in Whitlock's.

New York Stock Market.

By Telegraph to the Sun.

NEW YORK, July 18.—The Stock Market was again more active to-day, and while somewhat irregular and at times feverish, prices were well maintained and moderate gains in most of the list were the result of the days' operations. News of the day was generally favorable to advancing prices but selling by London was expected yesterday, took place to-day. Demand for stock, however, was not diminished and bullish feeling at times ran high and commission houses report plenty of orders from outside people. St. Paul was the feature of early trading as there was quite a squeeze in stock as high as 1-32nd per diem being asked for its use and notwithstanding local sales, price was advanced fractionally. Other grangers were all firm to strong on the crop reports but in coalers Reading was the only one displaying ordinary animation. Southern stocks and other inactive securities were unusually prominent, which is regarded as evidence of a broadening tendency of the market. Opening was rather heavy with most of the active stocks small fractions lower than last night and decidedly strong tone marked dealings. Slight reaction took place toward 11 o'clock but this was afterward regained when Mo. Pacific came to the front. Dullness then overspread the list. Of movements all were entirely insignificant except in few of specialties, among which Pullman and Colorado coal were most prominent. Some reaction was again made toward it. In the last hour there was a renewal of improvement, however, and the close was quiet but firm at fractions lower than first prices. Final changes among the active stocks are somewhat irregular, though advances are in a large majority but heaviest gain which was in Oregon Improvement only 1/8 per cent. Sales aggregated 265,000.

He Was a Detective.

By Telegraph to the Sun.

CHICAGO, July 18.—The greatest crowd yet assembled to witness the court proceedings against the Burlington dynamiters was present to-day. Further examination of the informer, W. Alexander Smith was waived. Another sensation was sprung upon the defence this morning. John Wilson, one of the prisoners, who was arrested with Craddock and Bowles as a conspirator, and as a Brotherhood Engineer, coolly left his seat in the group of which Broderick and Bauerism were members and walked over to the side of the room where the prosecuting attorney sat, and took a chair beside Dawces, with whom he began to chat in a friendly manner. Then, it was developed that Wilson was not an engineer, not a brotherhood man and not even Wilson. His name is John Mulligan, and he is a Pinkerton detective, and not only is this the case, but it appears he has had the confidence of all the prisoners and their attorneys.

Poor DeLesseps.

By Cable to the Sun.

PARIS, July 18.—The Chamber of Deputies has decided to postpone until next session the Government measure assuring a deposit of rents as a guarantee for the redemption of the Panama lottery loan.

Disastrous Fire.

By Telegraph to the Sun.

FAYETTEVILLE, TENN., July 18.—There was a disastrous fire here last night, which destroyed the Elk National bank and several other business blocks. The loss is \$50,000. Four persons were prostrated by the heat.
