THE ANDERSONVILLE POST OFFICE.

abscription of advertising; job work to be paid for on delivery

ing tog hing lines descriptive of an incident is of the Union prisoners at Andersonville, Ga., are to G. H. Hollister, Esq., of Litchfield, Connecti-ariles elicited nothing of sadder interest. It can-

No blacket round his wasted limbs. of the rainy sky he slept;

pointing his envenomed shafts A but d him Death, the archer, crept chaied of hunger and held out and to clutch a little bread; That white angel, with a torch,

Among the living and the dead, Scened bearing, smiling as he went. The vision waked him as he spied The post-boy, followed by a crowd Of famished prisoners, who cried For levers-letters from their friends Crawling upon their hands and knees

He hears his own name called, and lo! A letter from his wife he sees! Gasping for breath, he shricked aloud And lost in nature's blind eclipse. Faltering amid the suppliant crowd. Caught it and pressed it to his lips.

A guald who followed, red and wroth And flourishing a rusty brand, Reviled him with a taunting oath, And snatched the letter from his hand, "Plist pay the postage, whining wretch !" Despair had made the prisoner brave

"Then give me back my money, sir ! I am a exptive, not a slave! You took my money and my clothes, Take my life, too-but let me know How Hary and the children are.

And I will bless you ere I go. The very moonlight through his hands As he stood supplicating, shone; And his sharpe features shaped themselves

Into a prayer, and such a tone Of anguish there was in his cry For wife and children, that he guard, Thinking upon his own, passed by,

And left him swooning on the swarl Peyond the "dead line" fell his head; The eager sentry knew his mark; And with a crash the bullet sped

Into his brain, and all was dark But when they turned his livid check Up towards the light the pale lips smiled, Kissing a picture fair and meek.

That held in either hand a child.

DREAMS AND SLEEP WALKING

angry grows, as well as the cheerful bark, which gold. proceed from the sleeping dog. There can be no denbt that the memory of incidents in dog life, such as of the combat or of the chase, are in such cases present to the animals, consciousness. Children dream almost from birth, and they suffer more from frightful dreams than adults do. Some of the dreams of childhood not unfrequently make impressions upon the mind which enddre throughout life. It has been supposed that our dreams be-come less extravagant and inconsistent as we grow older. This seems true on the whole; but ht times the most extraordinary dreams occur at every period of life. Old people seem to dream more than the

middle-aged; but unlike the young, the aged seldom speak in their sleep.

Nothing has a greater influence in producing. Let us be careful how we voluntarily engage, turb rest and cause uneasy Greams. It is recorded of the authoress of the "Mysteries of L'dolpho," that she was in the habit of supping on the most indigestible things possible, for the purpose of conjuring up horrors, to be afterwards transferred to ner Dryden, on the other hand, is said to have eaten raw flesh with the view of obtaining splendid visions. As already stated, external circumstances have much power in modifying or inducing dreams. Instances are recorded in which any kind of dreams could be procured in the sleepers by whispering in their ears. An officer, who was the been made to go through the different stages of a dence in them.
duel, and at last to fire a pistol when placed in his Co lish never venture in fresh water; they would hand, by the report of which he was wakened. On spile if they did, another occasion the same person was in this way led to believe that he had fallen into the sea, when should like it better than fishing for frogs.

to do so, received a severe injury by throwing him-self from the bench upon which he lay. At anoth-er time, when living in camp, he was made to be-lieve that he was engaged with the enemy, and that the man nearest to him had fallen. Upon this our. Sum people am't afraid to take empthing with sleeper exhibited such marks of fear that he rushed their hands that they can reach, not even an eel ; but from his bed, and was only roused by falling over the tent ropes. This gentleman, probably from notives of convenience, was in the habit of stating that he never preserved any distinct recollection of and put for home.

The first had the first recollection of the habit of stating and line, I would throw the pole into the bargain and put for home.

Bugs and Cockroaches.—Boil one dunce of pokeroot in one pint of water until the strength is extracted; mix the decoction with molasses, and and put for home. sleep, and some awkward disclosures are said to

large class of them belong to this order. There is a bone that is in him than it is tew his blood. great tendency to exaggeration in dreaming. If the bedclothes fall off and the sleeper becomes chillmay dream that he is sweltering under the rays of a tropical sun. Englan J. delivered sermons in his sleep; nor could he be prevented even by rough usage. Such a list might be easily increased; but a few instances are given to show what has been accomplished by

As might be expected, it is unsafe to try to waker, somnambulist when discovered in a position of danger—such as on a window-ledge or on the roof of a house. If, as would most probably occur, he did not fall when in the act of wakening up, he would still run the greatest risk from an unsteadiness which he had not experienced while asleep. Cases are also recorded in which the mere act of rousing the person has been attended by fatal ef-fects. It is not surprising that a person even of strong nerves should be violently agitated by finding himself in a position at the moment so altogeth or inexplicable. In a case of weak nerves, the the shock might be terrific. An instance is related of a lady who was was so persistent a sleep-walker, that her friends were in the habit of securing the windows and door of her chamber, to prevent her escape during the night. On one occasion these precautions were neglected, and she was discovered n the adjoining garden. She was there awakened by her friends, but such was the shock which her nervous system received, that she expired almost nstantly .- Good Health.

THE COQUETTE

BY NELLIE ATHERTON. They tell me she is beautiful As poet's dream can be, With eyes as blue as violets Culled from the dewy lea-That every glance and every tone,

Has some bewitching grace, That matches in its witchery Her ever varying face. And yet within this casket bright,

Deautiful and tair There is a heart as volutile And empty as the air; That every sweet and lovely charm Is an alluring art,

To bind before her beautous shrine

Another noble heart. Can she be blamed if beauty's seal Upon her brow is set? Is winning love of all to make Of her, a vain coquette?

Could you but read her inmost though When falls the shades of even, And every pure and aspiring prayer That rises up to heaven,— Could you but throw aside the veil She wears with graceful art, And know the deep abiding love

O, you would worship more than blame, And bow still lower vet Unto her shrine, -but never speak Of her as a coquette!

Of her true constant heart.

ally pitied, and which so many unmarried ladies milk appear terribly afraid of joining :

We have seen, too, that some dreams may be pro-duced by exciting bodily sensations, and, in fact, a upper lip, but I think this is more owing tew the

A wayward son of Emerald Isle, "left the bed ed, he is upt to dream that he is in some way sub- and board" which he and Margaret, his wife, had jected to the influence of extreme cold. If, on the occupied for a long while, and spent his time around contrary, he is oppressed by too much covering, he rum shops, where he was always on hand to count sound of a line, an aarmonious concert; while that again. We shall see how she proceeds; "Now, of a trumpet may excite a vivid representation of the last day, the dead rising from their graves, and marshalled by angels preparatory to that most awful of all scenes, the Final Judgment.

Now as to sleep-walking. In 1686, a brother of come back for the love of the children, Margaret." "Will ye come back for the love of meself?" "Niver at all lord Culpepper's was tried at the Old Bailey for shooting one of the Guards. He pleaded somnament another inducement. Taking a pint bottle of whist-likem, and nearly lifty witnesses were called to ky from her pocket, and holding it up to her true.

WINTERING SHEEP.—Farmers keeping sheep ought to see that their quarters for winter are comfortable. Plenty of room should be provided, for sheep will not do well when crowded into close uarters. Their pens or sheds should be well venquarters. Their pens or sheds should be well ventilated. A covering of straw makes a first rate roofing. The floor should be well littered with straw once in 3 or 4 days, and as often cleaned. They should be fed regularly. Hay should be disposed in racks, easily reached while feeding, yet high enough to be clear of any contact with their feet on the ground. They should have oats, or whatever is given besides their hay, at regular hours. Much advantage is gained by regularity in all matters appertaining to the farm or farmyard. If farmers understood this fact, and put it more into practice than they do, they would be gainers by it.

Sheep should not be fed too highly. More is lost by high feeding than is gained. An old uncle of mine, having had a long experience in sheep raising and keeping, used to say that one spoonful of oats a day was sufficient, and that sheep would do well enough on that allowance with plenty of hay. Salt should be given at least once a week.

Care should be taken in building pens or sheds to make an entrance large enough. Sheep ought not to be crowded in going in or out. Many fine animals have been injured in that way, for sheep go in and out of their quarters, when feeding time comes, with a rush, and huddle close together. If the entrance is sufficiently large, there need be no danger of crowding. All weakly, scrawny lambs or sheep should be separated from those in good condition, and allowed an extra allowance to "catch up." Poor, scrawny sheep never stand much chance who keeps our Axes. in a flock of fat, thrifty ones, as they are knocked round and seldom get their share of food.

I am glad to see that farmers are waking up to their interests, and getting sheep of improved breeds. The old-fashioned long and coarse-wooled kinds ought to give place to such as the South-down, Cotswold or Merino. Not only is the yield of wool greater, but it is of superior quality and uf'rs, Brattleboro, Vt. brings a much higher price.

ABOUT MILE. - The recent microscopic examinalion of cows' milk by a French chemist, it is stated, has disclosed certain curious facts in reference to the component parts of this fluid. If the surface of fresh To the People of Western North cream be examined under the lens, it is ascertained that there is to be found, amid myriads of milky and fatty globules, a number of round and oblong corpuscles, sometimes accompanied with finely-clottstances in a state of decay. In summer these cor- opened in the Store, opposite the "Eagle Hotel," puscles make their appearance within fifteen or twenty hours after milking; in winter they will be perceptible after the lapse of two or three days.
