Z. V. Calloun and J. C. Hall, of
Med in. N. C., are among the ar-
rivals at Hotel Entella.

Rev. J. B. Cochran has rented
the H. J. Elmore house from A. H.
Elmore, who now owns it.

Mrs. Chas. J. Morrow, nee Lips-
comb, is visiting her sister, Mrs. J.
W. L. Arthur, of this place.

It is said, if there is no ordinance
against it king wash-places of the
public pumps, that there should be.

Chas. J. Morrow, a popular lum-
ber inspector, now with Nat. S.

We learn from the Waynesville
Courier, that cards are out for the
marriage of Mr. Jas. R. Thomas to
Miss Josephine Smith, of Raleigh.
The event is to occur during this
month.

For want of space, we cannot say
much about Judge Timberlake,
the lawyers and officers, and the
two weeks' court held here by him
this week, but will endeavor to do
so next week.

Judge Timberlake, wife, daugh-
ter and son, left this morning for
Waynesville, where Mrs. Timber-
lake and the children will spend
some time, the Judge going on
home Monday.

Hotel Entella is now in charge
of J. Manos, Welch, and will grow
in popularity and patronage under
the management of his most excel-
lent wife, who is well known to the
traveling public and railroad peo-
ple.

The Editor and his family were
the guests of J. A. Frank, the "one-
gallus farmer of Nantahala," last
Sunday, and shall ever have pleas-
ant memories of the kind hospi-
tality of him and his excellent
wife.

When Judge Robinson left here
at the close of his fall term of court,
not a single lawyer attended him
to the depot. This morning every
lawyer in town was at the depot to
bid Judge Timberlake "bon
voyage."

Rev. J. B. Cochran, of Charlotte,
N. C. He is here with his
family.

T. D. Bryson, our latest addition
to the bar of Bryson City, assisted
in the defense of Baker, Rose and
Reader last week, and gave evidence
of his ability to take a position
among the foremost of his profes-
sion at no distant day.

The prosecution of Baker, Rose
and Reader last week for the kill-
ing of Mose Wilnota was ably con-
ducted. Solicitor Jones was as-
sisted by R. L. Leatherwood and
G. H. Smathers, and the verdict
secured is acceptable to the peo-
ple, while the defendants are content
with the exception of Baker, who
appeals.

Some people are constantly trou-
bled with pimples and boils, espe-
cially about the face and neck. The
best remedy is a thorough course of
Ayer's Sarsaparilla, which expels all
humors through the proper chan-
nels, and so makes the skin become
soft, healthy and fair.

Bryson used a great deal of hair
dressing, but was very particular
to have only the best to be found in
the market. If Ayer's Hair Vigor
had been obtainable then, doubtless
he would have tested its merits, as
so many distinguished and fashion-
able people are doing now-a-days.

What a Woman Can Do.

Last week I cleared, after paying
all expenses, \$355.85, the month
previous \$260 and have at the same
time attended to other duties. I
believe any energetic person can do
equally as well, as I have had very
little experience. The Dish Wash-
er is just lovely and every family
wants one, which makes selling
very easy. I do no canvassing.
People hear about the Dish Wash-
er and come or send for one. It is
strange that a good, cheap Dish
Washer has never before been put
on the market. The Mound City
Dish Washer fills this bill. With
it you can wash and dry the dishes
for a family of ten in two minutes
without wetting your hands. As
so many as people see the washer work
they want one. You can make
more money and make it quicker
than with any household article on
the market. I feel convinced any
lady or gentleman can make from
\$10 to \$14 a day around home.
You can get full particulars by ad-
dressing The Mound City Dish
Washer Co., St. Louis, Mo. They
help you get started, then you can
make money awful fast. A. L. C.

Money Made in a Minute.
I have not made less than sixteen
dollars any day while selling Cen-
trifugal Ice Cream Freezers. Any
one should make from five to eight
dollars a day selling cream, and
from seven to ten dollars selling
freezers, as it is such a wonder,
there is always a crowd wanting
them. You can freeze cream eas-
ily in one minute and that as-
tonishes people so they all want to
taste it and then many of them buy
freezers as the cream is smooth and
perfectly frozen. Every freezer is
guaranteed to freeze the cream per-
fectly in one minute. Any one can
sell ice cream and the freezer sell
itself. My sister makes from ten to
fifteen dollars a day. J. F. Casey
& Co., 1143 Saint Charles st., St.
Louis, Mo., will mail you full par-
ticulars free, so you can go to work
and make lots of money anywhere,
as with one freezer you can make
hundreds of gallons of cream a day,
or if you wish they will hire you on a
salary.

Baltimore, Chesapeake and Richmond
Steamboat Company.
New Steel Passenger and Freight
Steamer Atlanta.

Appreciating the liberal patronage ex-
tended to our York River Line for so
many years, and realizing the impor-
tance of being thoroughly equipped for our new
Chesapeake Bay Line between Baltimore,
Old Point Comfort and Norfolk, in con-
nection with the lines of the Southern
Railway system for all points South, this
company takes pleasure in announcing the
completion of its new steamer Atlanta,
which, with the magnificent and swift
steamer Charlotte, will be placed on the
Norfolk route.

The steamer Atlanta, which has been so
aptly termed the "New Queen of the Bay,"
is a veritable floating palace. She was
built by the William Cramp & Sons Ship
and Engine Building Company, of Phila-
delphia, at a cost of \$250,000. Her dimen-
sions are: Length, 240 feet; beam, 42 feet;
depth to saloon deck, 26 feet.

The hull is constructed of steel of the
best character known for shipbuilding,
and strictly according to the rules of the
American Ship Masters Association, all
material being subjected to the most rig-
orous test and inspection.

The steamer is propelled by an Inverted
Triple Expansion Engine of the latest and
most approved type, with cylinders 24, 38,
and 60 inches in diameter, all having a
stroke of 36 inches. Burning at 125 rev-
olutions per minute, they indicate 2,250
horse power, and drive the steamer at a
speed of eighteen miles per hour.

The shaft is of mild steel, and the prop-
eller a solid casting of Manganese bronze.
The high pressure cylinder has a valve
of the piston type, the intermediate and
low pressure are double ported slides; the
pressure is relieved from the back of the
slide valve device. All valves are operated
by the double bar Stephenson link gear.

The circulating pumps are of the centri-
fugal type, and are operated by an in-
dependent vertical engine. The feed pump,
which is also independent, is of the same
type, and takes the feed water from a filter
and feed water heater. A large fire and
bilge pump, also of the duplex type, is pro-
vided, and fire hose connections are located
in convenient places throughout the steam-
er. As a further precaution, a system of
steam fire annihilators & the cargo com-
partments, coal bunkers, etc., is pro-
vided. There is an independent duplex
pump for the sanitary service, leading
from which pipes for salt and fresh water
are led throughout the ship, with taps
conveniently located.

Steam is supplied by four main and one
auxiliary boiler. The main boilers are 12
feet in diameter and 12 feet long, each
having two corrugated furnaces 43 inches
in diameter and 8 feet 4 inches long; the
total grate surface is 200 square feet, and
the heating surface 6,079 square feet. The
steam pressure is 165 pounds per square
inch. The auxiliary boiler is 8 feet in
diameter and 18 feet long, with 25 square
feet of grate surface and 637 square feet of
heating surface. If all the tubes in these
boilers were placed end to end, they would
equal a length of one and one-third miles.

The smokestack is 7 feet in diameter,
and the top of it is 78 feet from the fire
grate.

The boat is lighted throughout by elec-
tricity; the steam head, stern light and
side lights are electric, and she is provided
with a powerful electric search light.

The ship is provided with steam steering
gear, steam windlass, capstans and cargo-
hoisting engines.

No expense has been spared in making
the passenger accommodations most com-
plete. The dining room, which is hand-
somerly finished in hard wood, has
seating capacity for seventy persons, has
been located on the main saloon deck, for-
ward, thus insuring ample light and ven-
tilation, and enabling passengers to com-
fortably view the beauties of the Chesape-
ake Bay while enjoying the meals for
which this company has always been de-
servedly famous.

Another attractive feature of this steam-
er is the location of the kitchen, which is
on the upper deck, forward of the main
saloon, completely isolated from the pas-
senger accommodations, so that the neces-
sary heat and odor of the cooking is car-
ried directly overhead, causing no annoy-
ance to the passengers.

The main saloon is handsomely dec-
orated in an artistic manner, and is luxu-
riously furnished. The state rooms are large
and comfortable, fitted with steam heat,
electric lights and call bells.

The social hall is reached by a magnifi-
cently carved hardwood stairway lead-
ing from the main saloon, and opens out on
the promenade deck, where the passengers
gather to admire the glories of the Chesape-
ake Bay and view the charms of this pro-
gressive company.

In giving some reminiscences of
Alexander H. Stephens, a writer in
the Augusta, Ga., Chronicle, says:
"Once at Liberty Hall I was present
when General Tombs made a
statement that was here and there
punctuated with mild profanity.
He concluded thus: "Don't you
agree with me, Mr. Stephens?" The
"All but the damn, General—all

As a Doctor Does.

The one great fault with all
Liver Pills is that they act sud-
denly and sharply instead of
quietly and continuously. They
produce a violent relief and then
leave you weakened, with an
empty stomach and no appetite
for food. This is not what a
doctor does.

Every physician prescribes a powerful
remedy for a disordered liver, but he then
orders also a strengthening tonic, which
acts as a purifier, restoring the proper
toning up the system, and making you feel
like a new creature.

This is exactly what is done
by Ramon's Tonic Liver Pills
and Ramon's Tonic Pellets.

cines, and both at the cost of one.

A Chance to Make Money.

I have berries, grapes and peaches, a
year old, fresh as when picked. I use the
California Gold process, do not heat or seal
the fruit, just put it up cold, keeps per-
fectly fresh, and costs almost nothing. You
put up a bushel in ten minutes. Last week
I sold direct to over 120 families, any-
one will pay a dollar for directions, when
they see the beautiful samples of fruit. As
there are many people just like myself, I
consider it my duty to give my experience to
such, and feel confident any one can
make one or two hundred dollars around
home in a few days. I will mail sample
fruit and complete directions, to any of
your readers, for eighteen two-cent stamps,
which is only the actual cost of the sam-
ples, postage, etc., to me.

Spoons Free to All.
I read in the Christian Standard that
Miss A. M. Fritz, station A, St. Louis, Mo.,
would give an elegant plated hook spoon
to any one sending her ten 2-cent stamps.
I sent for one and found it so useful that I
showed it to my friends, and made \$13 in
two hours, taking orders for the spoon.
The hook spoon is a household necessity.
It cannot slip into the dish or cooking ves-
sel, being held in the place by a hook on
the back. The spoon is something home-
keepers have needed ever since spoons
were first invented. Any one can get a
sample spoon by sending ten 2-cent stamps
to Miss Fritz. This is a splendid way to
make money around home.
