## Is Our Climate Changing?

We are inclined to ask the question by reason of our hearing so many reports from the country this summer of diseases which have not heretofore prevailed to such an extent as they are doing. From all quarters we hear of Diarrhoea, Cholera Morbus and kindred blood complaints. We therefore warn our readers, that if they would avoid serious sickness, to shun all unripe fruit, use no vegetables not fully matured, and above all, be provided with a bottle of Lytle's Elixir and a bottle of Dr. Hart's Relief, so that, if attacked with this disease, you can cure yourself, for in sickness of this kind, delay is especially dangerous.

CASTORIA. The fact is that in an every way...

(Continued from forth page) cess and in their maddening barters to the money interests in the state, they have had little concern for our homes and our firesides.

Democracy has but one platform and that is that this is a white man's country, and by the white men it must, it will, it shall be ruled. It has but one other essential plank, and that is that North Carolina shall have an economical administration of state affairs, and no such legislature as the last, which so disgraced the fair name of our state. I cannot blame you for that blush of shame and mortification comes to you honest cheeks, for the history of North Carolina is your history and mine, and we are parts of it inseparable.

## A Costly Legislature.

True to Republican principles, no sooner had that legislature reached the capital city of North Carolina than they began to increase our expenditures. Their increased appropriations for one year amounted to more than \$25,000 of the people's hard earned money. It spent \$233,33 per day to employ pages and laborers to wait on them, as lordlike they sat appropriating the increased expenditures. Instead of decreasing the offices in our state, as they promised they would, they increased 3900, and filled them with fusionists and R-publicans and negroes. They set about to turn the rascal out, and out went first the Confederate soldier. My countrymen, the Southern soldier has no pension, but we of the South have given to those maimed and disabled a few offices where they have made an honest living. And we always will. We have always found them in their places of trust as true and brave and faithful as they were at Bull Run and at Manassas. Yes, they turned them out to fill places by baxom negroes.

They promised they would legislate for you against trust and monopoly. Their acts show them to have been cat's paws of the trusts of Baltimore and other northern cities. It permitted more stealing of bills and more false records for these trusts than was ever known in the history of North Carolina before. They passed a law that made possible the registration of nearly 250 illegal voters in the city of Asheville alone. But of course a body of white men who will permit the direct assault upon its white men by negro doorkeepers without provocation and warrant of law will be dictated by trusts will increase your taxes as they did from 2 1/2 to 25 1/2 cents per \$100, and stop at no attempt at legislation, however vital it affects; the best of interest your state.

When I begin to tell the people these things the Republican party tries to seal my lips by the cry of youth. If to be a young man is a crime I plead guilty to the charge and ask for speedy sentence; if then it be not a crime I thank God I have additional years to consecrate to the services of the Democratic party and to the betterment of the condition of my fellow men. Yes, in the awakening I read sweet messages of promise and peace. This terrible, damnable legislation in State and nation will arouse the good people of North Carolina as a man like Anteus of old, stronger for the fall to rise, and in the name of white man's supremacy, in the name of their property, in the names of their sons and daughters unborn to strike the blow which shall redeem our State and district and our county, and thrill us with pride and a sense of our safety in a white man's government, and make us, as we once were, a happy prosperous and contented people.

Go then to your different townships and organize. I appeal to you old men who shall wrap the drapery of your couch about you to lie down in pleasant dreams. Bequeath to those who shall follow you a form of government, State and national, that shall be dictated by the blood of the Angle-Saxon. I appeal to you young men, who, just like myself, are entering the arena of life. You fought the battles which gave us our proud American independence. Line up once more, yes line up in this Congressional dis-

tract and do battle until the sun shall set on that anxious November day with that same spirit which possessed the French soldier, as he lay wounded and bleeding on the battlefield, drenched with the best blood of the French Republic, as life was beard to cry, "They fle; my life has made us free; my life has saved my father's home."

Joe Adams spoke to a small gathering of Indians at Birdtown last Friday and Big Cove Saturday. His visit was unexpected, notice was only sent out the day before.

## Ice Cream Now Made in a Minute.

I have an Ice Cream Freezer that will freeze cream perfectly in one minute as it is such a wonder a crowd will always be around, so anyone can make from five to six dollars a day selling cream, and from ten to twenty dollars, a day selling Freezers, as people will always buy an article when it is demonstrated that they can make money by so doing. The cream is frozen instantly and is smooth and free from lumps. I have done so well myself and have friends succeeding so well that I felt it my duty to let others know of the opportunity, as I feel confident that any person in any locality can make money, as any person can sell cream and the Freezer sells itself.
