A Word From The Wizard

Before making up this circular I have gone over this stock of goods carefully and I am surprised to find a stock in such good condition. I assure you that it has been a long time since I handled a stock when I found the merchandise as clean as here—particularly in this line, the grocery department. Mr. Mekins informs me that owing to a backward season trade has been slow and as they will take inventory January 1st he desires that the stock be reduced just as much as possible. He made it very plain to me that all advertising should be just what we could give the people—no misrepresentations, and I shall live up to that to the letter. I will be here the entire 14 days of the sale and for 4 days in advance to get things ready. I will be glad to see you all whether you want to buy or not.

Respectfully Yours,
THE WIZARD
