

**DO YOU GET UP WITH A LAME BACK?**

**Kidney Trouble Makes You Miserable.**

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century, discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble.

When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Elkhart, N. Y. Regular fifty cent dollar sizes are sold everywhere.

Don't make a mistake, but remember the name Swamp-Root. Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

**TO OUR READERS.**

After serving fourteen months as publishers of the News, we retire with this issue, as has heretofore been announced. Mr. J. J. Miner, the former editor and proprietor, will again assume editorial control of the paper and will have associated with him others who intend to make the News one of the very best weekly publications not only in Western N. C., but in the state.

To those who have patronized us so liberally and to the corps of correspondents who have added much interest to the News columns, we desire to return many thanks.

We have endeavored at all times to give our readers and advertisers the best service possible, and hope they have had no occasion to find fault.

With the many improvements to be made by the new management the News readers can rest assured that they will be given the best of news service, county, state and national—and advertisers will reap the benefits of a rapidly increased circulation.

**TEST OF EMERGENCY RATION.**

**A Troop of United States Cavalry to Try Experiment for a Fortnight.**

Capt. Fountain and Capt. Foster, of the emergency ration board of the war department, who have been in Kansas City for several weeks preparing the ration for an actual test, will leave for Fort Reno, I. T. They will start from Reno with a troop of cavalry made up of men from Fort Reno and Fort Sill and make marching expeditions, during which the men will live wholly on the emergency ration, which has been prepared at a packing company's plant at Kansas City.

The ration is put up in an elliptical can eight inches long. Each day's food weighs a pound, and each can contains three cakes of sweet chocolate and three cakes of a food preparation composed of a meat and grain compound. The latter, which tastes not unlike parched corn, with a slight flavor of meat, is very palatable. It can be eaten uncooked, made into a porridge or a soup, or it can be made into a mush and then fried.

Each can contains small packages of salt and pepper. The effect of the food on the men will be carefully noted. They will be weighed every day and their conditions closely observed by a physician. The test will probably last two or three weeks, and then the board will report to the war department the result of the test.

**INFLUENZA FROM OZONE.**

**Pure Air from Lake Michigan Gave an Investigator an Extremely Hard Cold.**

On one occasion the present writer walked to the edge of Lake Michigan when a strong wind was blowing right from the lake. The bodily condition was as near perfect as could be, says Popular Science, and yet in less than five minutes there was every evidence of having caught an extremely hard cold. The severe influenza continued until, on walking away, in less than 500 feet, it disappeared as if by magic. It is very certain that the temperature had nothing to do with this, nor the wind, but the influenza was directly due to the abundant ozone in the air. By inquiry it was learned that hundreds of residents who had lived upon the immediate edge of the lake had been obliged to move back three or four miles in order to relieve them-

**AND I HAVE**

Had my ax ground to a fine, keen edge so as to cut off all profits except one small one, which will enable you to buy from us on a very small margin, on the basis of buying and selling for spot cash.

A good resolution (and we will thank you) will be to run in and see them. We are yours faithfully,
