

Quick Arrest.

J. A. Gullledge, of Verbena, Ala. was twice in the hospital from a severe case of piles causing 24 tumors. After doctors and all remedies failed, Bucklen's Arnica Salve quickly arrested further inflammation and cured him. It conquers aches and kills pain. 25c at Z. W. Nichols, druggist.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

Don't make any mistake, but remember the name, Swamp-Root. Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Notice Entry No. 2424.

W. P. and W. L. Mull enter and claim 440 acres of land in Dennis Rock and East-toe Townships, Transylvania county, N. C., lying on the waters of Olivers Creek and French Broad River, adjoining the lands of J. S. Trotter, J. M. B. Caldwell, Mrs. Martha Tinsley, Albert Tinsley and others, beginning on a chestnut oak in the old Oliver line and being a corner of the old Oliver tract and runs various courses for completion. Entered April 19, 1913. W. M. HENRY, Entry Taker.

LOCAL PARAGRAPHS.

Bishop Horner, of Asheville, will be at St. Phillips next Sunday.

Rev. S. H. Hilliard will preach at the Methodist Church on Sunday morning and evening next at the usual hours.

Rev. J. H. Hyder will preach at Cathey's Creek church the third Sunday at 3 p. m. instead of the second Sunday as heretofore.

Quite a party of the relatives of Mr. Wales Lankford went out to his home on Thursday to take Birthday dinner with him. There is nothing more pleasant than a family reunion.

W. A. Crawford, State agent for the Chamberlain Medicine Co., of Des Moines, Iowa, was a caller at the News office on Monday. He seemed very favorably impressed with the recent improvements in the News plant—especially our water power.

The ladies who represented Brevard at the Winston-Salem Conference returned Wednesday loud in their praise of the kind treatment accorded them and the complete success of their mission. Next week we will give our readers a report of what was accomplished.

From the amount of paper and trash on Main street, it looks as if some one is sweeping their litter out of the front door. Don't do that; it makes the town look untidy. We want to give our visitors a good impression of Brevard and must keep our streets and yards clean and neat.

There is no man in the county who could have made the race that T. W. Whitmire made in the town election and he came mighty near being elected. What is a good fellow and has energy and ability to make as hot a contest as any man we know. We hated to vote against him and would not have but for the reason that we took part in the convention and had to abide by the nomination thereof. He has gone out of office with flying colors and his record is good.

Harmless Insanity.

Our attention was called to the make-up of a young man who was in town one day last week. We will describe it. He had on a sombrero-like hat, blue flannel shirt with red bandana handkerchief around his neck, khaki trousers, puttee leggings, tan shoes and around his mannish waist was strapped a large pistol. Now what do you think of that? He is not the first of his kind we have seen on our streets but we hope he is the last. Such specimens of innate mannishness should be confined to dime novels and melodramas. His name must have been "Pink Red Pete" or "The Terror of Turkey Creek." It is needless to say he was perfectly harmless, the only danger was in his pistol being discharged accidentally while around his waist and blowing his brain out.

Vines lend themselves with facility to many and varied uses. Walls, pillars and embankments may be clothed in them, walks exposed to the burning sun may be covered; and a back porch, a post sunk in a neglected spot, a sunny back door all furnish opportunities for thrifty vines. For permanent effect, nothing surpasses the Boston or Japanese ivy. It is hardy and luxuriant, climbs firmly and does not run across openings of doors, windows etc. For flowering effects clematis paniculata is supreme, and when intermingled with the scarlet, everblooming honeysuckle the effect is dazzling in the extreme. For the thrifty home maker whose garden is planted with a view to utility, the grape-vine appeals with two-fold interest, and for picturesque effects the wild-grape vine is especially adapted.—From the June Delmeator.

Fourteen-Year-Old Bride.

Jefferson, Ga., April 17.—Miss Annie Hill, aged 14, was recently married in this place to Mr. Peter Whitehead, aged 26. Miss Hill is probably the youngest bride in Jackson county, if not in the entire state.

Fishing With Dynamite.

A Violation of Law and a Crime Against Humanity Which the News Will Assist in Preventing.

Any man who would be guilty of killing fish with explosives does so for no other object than personal gain. He has no respect for his neighbor or he would not destroy the young fish which in time would supply his neighbor with food. He has none of the instincts of a sportsman or he would give his game a chance for its life—his only aim is to get the sheckels which the dead fish will give him. Last year the French Broad river was dynamited until nearly all the fish, large and small, were destroyed. This year the NEWS will begin an early war against this wanton destruction of the finny tribe, and hopes, with the assistance of our best citizens along the river, to stop it. For the information of all we publish the law now in force against dynamiting, and we call upon all who live along the river to help enforce it:

Section 3405, 1879, C. 259, S. 1.—Any person using the dynamite cartridge, or any other explosive agent that destroys both old and young fish alike, shall be guilty of a misdemeanor and fined not less than five dollars nor more than twenty-five dollars for every time an explosive agent is used.

A Good Thing.

Owing to the town election the base ball meeting of last Monday was continued until Friday afternoon at 4 o'clock at the McMinn House. We must have a good team and use it as an advertisement for Brevard.

Let every one who is interested in Brevard's growth and clean sport attend this next meeting. We had a good team last year and must have one this season. With a little encouragement we will be able to secure fine grounds. In fact we can buy the old grounds; no use paying all down, but get enough to make one payment and get time for the balance.

Buy a ball park and fix it up and we can have good ball, make money for the team and advertise Brevard. The chance is presented for us to see good ball and benefit ourselves financially. Come to the meeting on Friday and let us get busy.

"Meet me at the base ball meeting."

Withdraws His Resignation.

L. W. Brooks Is Still Chairman of the Board of County Commissioners.

The NEWS is pleased to learn that Chairman Brooks has reconsidered his resignation, and will still remain on the Board. There is probably no man in the county so thoroughly conversant with its financial standing, or its needs, as is Mr. Brooks, and his retirement now would be a serious inconvenience if not a positive loss. A new assessment of property is soon to be made and a new schedule of taxation, and Mr. Brooks' knowledge and experience are a greater necessity now than ever before.

In almost every neighborhood someone has died from an attack of colic or cholera morbus, often before medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for any one to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved the lives of more people and relieved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by Z. W. Nichols, Brevard, and O. L. Erwin, Cherryfield.
